## A GENERAL ELECTRIC WATER HEATER

Gives You Abundant Hot Water—

Instantly!

**DISHES**—To get dishes clean and sterile, you need 140° to 160° F. hot water. A G-E meets this need with a turn of a faucet.

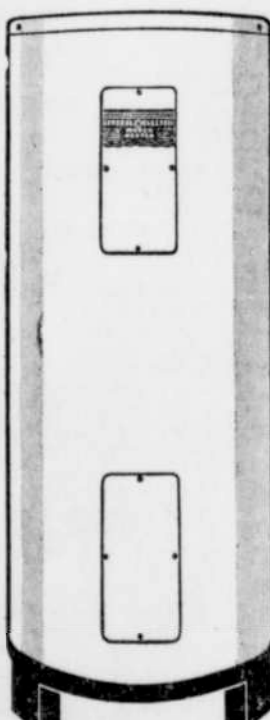

**SHOWER**—There's nothing quite so healthful and refreshing as a "hot shower." Have plenty of hot water on hand at all times—with a G-E.

**LAUNDRY**—Hot water is a necessity on wash days to get the clothes white and clean. A G-E gives a plentiful supply of clean hot water when you want it.

**BATHS**—With an automatic G-E water heater you don't have to "wait" for water to heat for baths. It's ready and waiting at the turn of a faucet.

**HERE'S WHY G-E COSTS SO LITTLE TO USE**

1. NEW Cost Cutter Calrod Unit.
2. Genuine Rockwool Insulation.
3. Heat-saving Heat Trap.
4. Cold Water Deflector.
5. Adjustable Automatic Thermostat.
