

**Magic: Five Quarts Equals One**

The magic of modern dairy industry makes it possible to shrink five quarts of fluid milk into one quart of dried milk. Add water and dried milk powder becomes fluid again. Dried milk is in great demand for export to friendly nations abroad. It takes little space in the holds of ships, stays sweet without refrigeration, and can be used as a substitute for fresh milk for children. The U. S. Department of Agriculture has placed dried milk high on the list of "defense foods" whose increased production is sought during 1941 and '42.

triet was arrested last Friday by Constable Martin on a charge of obtaining goods under false pretense but the case was later dismissed by Justice Thiessen for lack of evidence. Jones was accused of giving a worthless check for \$40 to Jas. Hannah, Damascus merchant in payment for goods but before being arrested had made the amount good and had secured return of the check.

**Saturday is "Booster" Night**

This Saturday night, October 25, will be "booster night" at the Boring-Damascus grange. The object of the gathering is to become better acquainted with the educational fellowship program of the Damascus grange. F. E. Gergen publicity chairman, said this week: "During this gathering the grangers will attempt to demonstrate what the grange is, what it does and what its aims and purposes are." Following the program of the evening refreshments will be served followed by dancing.

**MR. AND MRS. F. L. PROCTOR VISITING IN SOUTHLAND**

Mr. and Mrs. F. L. Proctor left on Wednesday of last week for a two weeks visit at the home of their daughter Mrs. John E. Mills in California. Mr. Proctor writes that it is garden making time down there now but the ground is so hard it is almost impossible to get a spade into it.

**Work on Road Progressing Fast**

Clearing the right-of-way for the new Timberline lodge artery will be completed in about three weeks barring unusually bad weather. Clearing is now within 500 feet of the summit guard station. The new road, scheduled for a four lane highway will be approximately five miles long shorter and have a lower grade percentage than the present road. The new survey leads back of Mazama lodge. Reduction of the grade required cutting down high knolls and making fills, some being 50-foot cuts. All useless timber and brush is being burned to reduce fire hazard. It is claimed this survey is a marvelous feat of engineering, is scenic and safe.

About fifty men have been on the job for seven weeks, two thirds of whom are from the Sandy and mountain areas. But when it rains here it snows at that altitude and the work is "mushy." Sam Orino contractor, personally supervises the job. The forest service sponsors the project. Construction of the artery will not start this winter.

**State Corn Show to be Held Again at College**

Oregon will have a state-wide corn show again this year to be held in Corvallis despite an earlier decision to abandon it because of lack of finances according to announcement made by Oregon state college officials who have managed the show for the past two years. Thru continued interest of members of the agricultural committee of the Portland chamber of commerce arrangements for financing this show again on a somewhat reduced scale have been completed. Dates and other details will be announced soon.

**HALLOWE'EN WILL SOON BE HERE**

That spooky time of the year when witches are supposed to ride broomsticks and black cats work overtime will soon be with us. In preparation for this big event, Hallowe'en, Hepps Racket Store at Gresham has stocked what is undoubtedly the largest selection of Hallowe'en goods in this territory. If you want a thrill just walk down the aisle of their store and note the many eerie and ghostly contraptions which go to make up a rattling good Hallowe'en party. For prices and other information see their ad elsewhere in this newspaper.

**KAIN APPOINTED AS INSURANCE REPRESENTATIVE**

The Provident Life insurance company, Pacific coast office in the Broadway Oak Bldg., in Portland, Oregon is pleased to announce the appointment of E. W. Kain as representative for the city of Sandy and surrounding territory. Mr. Kain has sold insurance in the past and has a fine record back of him. We feel this appointment will give our policyholders better service in this section. The company wishes to extend to Mr. Kain a hearty welcome.

Deep-throated engines thundering relentlessly above the clouds a formation of navy scout bombers head out to sea. Shore-based, planes such as these are the eyes of the fleet against surface and underwater raiders; and it was a plane of this type in the service of the Royal Air Force which recently spotted the German battleship Bismarck when she was pursued by the British fleet. On Navy Day, October 27 honor will be paid to the flying sailors who man such planes as well as to the officers and men who serve in the navy's ships.

**J. ROSS BROWN MOVES TO NEW LOCATION**

**Labor Shortage Cited as Worst Food Drive Foe**

Shortage of farm labor is the only serious obstacle in the way of Oregon meeting its goals in the food for defense program in the opinion of county USDA agricultural defense boards which have held meetings in all of Oregon's 36 counties.

Members of the state board who participated in the 36 county meetings report that, almost without exception, the county boards believed the desired increases in certain strategic crops can be met if enough labor is available to do the work. In numerous instances the county group was willing to set its goal at a higher figure than suggested for that particular region. Compilation of the county goals is now being made and will, when totaled, constitute the final and official state goals for 1942.

Those who attended the county meetings were practically unanimous in expressing belief in the importance of this agricultural defense effort. As soon as the county meetings were completed a series of training meetings were started for those who will also discuss the campaign before them to underwrite the increased production sought.

Meanwhile community educational meetings will be held to acquaint

more of the people with the program and county defense board members will also discuss the campaign before grange, Farmers union and other established rural groups. The farm to farm canvass for the signing up of each grower will start in some counties the last week in October and in others late in November.

The state committee has been in contact with the representatives of the state employment service in laying plans to handle the expected labor shortage in the best possible manner for next year. Closely related to this is the effort to have farmers put all machinery in repair this winter so that existing equipment can handle the maximum amount of work in next year's harvest. Maximum use of existing machinery will make less acute the prospective shortage in new machinery.

**PORTER**

Mr. and Mrs. Oliver Bowman and children visited relatives in Chehalis, Wash., over the week end. While there they attended a family reunion.

Mr. and Mrs. Raymond Lynch of Garibaldi visited relatives here Saturday and Sunday.

**Biddy Goes to Work Early**

America will need millions of eggs this winter, as part of the "defense food" production. Kathlyn Hines, pretty 4-H club girl, shows biddy that soldier hours will be expected. Many poultry producers follow this practice of turning on electric lights in laying houses early in the morning during winter months. The practice compensates for the fewer hours of daylight and gives hens a full day of eating and laying.

**COUNCIL OF RELIGIOUS EDUCATION TO MEET**

The Boring, Pleasant Home and Sandy council of religious education will meet Sunday, October 26 at the Haley Baptist church. Morning service will be held at 11:10 with potluck dinner at noon. Afternoon service will begin at
