ADVERTISING

Rates for advertising made known on application. Advertisers will please take note that to insure insertion of advertisement in the issue of the current week, advertising copy should reach this office not later than Tuesday noon. Assistance cheerfully given in the preparation of copy.

THIS WEEK IN DEFENSE

Aid to Britain and Russia

OPM materials director Batt said in a radio speech from Washington he had returned from the aid conference in Moscow with the thought that "the sensible, sane and selfish" course for the U. S. "is to deliver the goods, everything we possibly can provide, into the hands of people who can use them, against the enemy while he is still thousands of miles from our shores."

The maritime commission announced delivery of the first of 60 emergency cargo boats being built for the British. The President signed the \$5,985,000 second lend-lease appropriation and created in the office for emergency management a lend-lease administration with Edward R. Stettinius Jr. as administrator.

Pan-American Relations

The Export-Import bank authorized a \$6,000,000 credit to the Banco Obrero, Venezuela and announced special credit arrangements with banks in Latin America will be made to

facilitate trade among the nations of the Western Hemisphere to enable the American republics to procure essential requirements for development of their resources and stabilization of their economies.

Prices

The labor department reported its daily price index of 28 basic commodities rose 1.3 percent during the week of October 17 to 24 bringing prices in the index to more than 34 percent higher than a year ago.

Price administrator Henderson announced a comprehensive program to stabilize prices of all products made of brass, copper or their alloys. He also issued a price schedule on glycerine and bed sheets. Sheet prices will be approximately 15 percent below current market levels, Mr. Henderson said.

Facts and Figures

Archibald MarLeisch librarian of Congress was appointed by the President to direct a new office of facts and figures to "formulate programs designed to facilitate a widespread and accurate understanding of the status and progress of the national defense effort." The new office will advise government agencies how they can best present information and data on national defense to keep the public fully informed.

Employment and Wages

Secretary of labor Perkins reported average hourly earnings of factory wage earners were 74.5 cents during August. Federal security administrator McNutt announced 545,700 jobs were filled thru the state employment services during September, 55 percent more than last year. Wage-hour administrator Fleming said he favored a program of wage stabilization which would not freeze wages at present levels but would fairly adjust existing differences between one plant and another doing the same work and make provisions for adjustments to increases in the cost of living.

Labor Disputes

The President directed secretary of war Stimson to take possession of and operate the Bendix, N. J. plant if Air Associates Inc., after a dispute developed at the plant over the reinstatement of strikers on the recommendation of the defense mediation board. Colonel Roy M. Jones in charge of 2,100 soldiers who took over the plant said "employees desiring to return to their jobs will be given all necessary protection."

The defense mediation board began hearings on the labor dispute involving captive coal mines in the Appalachian area after the United Mine workers voted to accept the President's request to return to work in the interest of defense pending settlement of the dispute. The U. S. conciliation service reported settlement of 30 other labor disputes.

Defense Housing

Defense housing coordinator Palmer reported 1285 public-financed defense homes were completed during the week ending October 25, bringing the total ready for occupancy to 46,572. Homes being built or already completed under the defense program now number 101,785.

Dental Care for Selectees

Lt. Com. C. R. Wells chief dental officer of the selective service system said in a speech in Texas that the program to rehabilitate select service registrants with physical defects that can be remedied will begin with the treatment of 100,000 men for dental defects. The men will be treated by dentists in their communities at the expense of federal government.

Civilian Merale

The office of education announced that in cooperation with the office of civilian defense it will develop a school and college civilian service thru which "hundreds of thousands of teachers, educational workers and citizen volunteers" can participate in the defense program. "Freedom's Forum" schools, colleges, clubs, church libraries to discuss national problems "with respect to facts and out hysteria."

Civilian Supply

Priorities director Nelson ordered a 35 percent reduction in the use of steel by non-mechanical ice refrigerator manufacturers and a 17 percent cut in production of domestic washers and ironers. Mr. Nelson said that in one year 32,000 tons of steel would be saved by the latter cut.

Army

Secretary of war Stimson announced that specially selected Signal Corps reserve officers are in England studying air raid defense prior to assignment with the U. S. army aircraft warning service. Mr. Stimson also announced the first battalion of the 87th infantry mountain regiment, first regiment designed for mountain warfare, will be organized at Ft. Lewis, Wash., this month. The regiment will be made up of men specially skilled in mountain climbing and ski and snowshoe travel.

Ships

The maritime commission launched two more victory ships. The navy announced the 368 craft in its small boat building program are being built by 76 firms throughout the country to spread the work as far as possible.

Power.

Priorities director Nelson inaugurated a power conservation program calling for curtailment of the use of power by non-defense industry in Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, and Tennessee unless heavy rains end the power shortage in these states before November 10. Program would prohibit use of power for advertising signs, shop windows and night athletic events.

For the month of October the navy recruiting bureau assigned a quota of 270 to the Portland district. In spite of the stimulus of the American Legion recruiting campaign the district enlisted only 241 men, 29 short of the mark.

However according to Lieut. G. F. DeGrave, officer in charge of navy recruiting in this district this is a very good record in comparison with those of the recruiting stations in other parts of the country.

DeGrave emphasized the fact that during the month of September the last for which returns are available this district enlisted more men into the service in proportion to population than any other area in the country with the exception of Des Moines territory where the navy advertising program gave added impetus to the months recruiting. As the program had not at that time been inaugurated in this territory Portland's showing was made only thru the efforts of the recruiting staff.

\$10.00 PER ACRE

Sounds good and when you see it you will say it is good for a tract of 120 acres, 5 acres cleared, mostly tillable when cleared, rock road, one-half mile front, two miles off Mt. Hood loop, 30 miles from city center, livable 5-room house, barn, poultry house, electric, mile bus both grade and highway, two streams, nice cellar, bearing orchard, wells, to be removed promptly. \$1200, one-half cash 6 percent interest. Fine for stock.

WHAT DO YOU SAY?

10 acres, mostly cleared, on highway, electricity, telephone, bus to both schools, good soil, no buildings, orchard, \$1000 cash, \$500 balance 6 percent or \$900 cash. Better see it.

10 acres, 1 acre mostly cleared, well 9 acres timber, 2nd fir, alder and maple fit for furniture, good well, fenced three sides. Only \$800 down, easy payments.

20 acres mostly cleared on highway, electricity, telephone, good soil, no buildings, bus to schools. Only \$1750 cash, \$500 at 6 percent interest.
