CLACKAMAS COUNTY NEWS FRIDAY, DEC. 19, 1941

THE INEVITABLE HAS HAPPENED

The unprovoked attack of Japan on American possessions simply mark ed the occurence of the inevitable. For many months most authorities have been convinced that we could not avoid formal participation in the war that now engulfs all the continents. The big question was when and where the spark would be ignited. The Japanese militarists spurred by their Axis comrades have answered that question for us and for the world.

The American people enter this war with a sense of grim and bit. ter necessity. No thinking man wants Los Angeles when she was discharged war. It is to the great credit of our from the hospital and the last week government that it did everything possible within the bounds of our natonal honor and interests to maintain peace. That effort failed thru no fault of those who administer our governmental affairs. It failed because ruthless conquerors of our time are bent on world domination. Nothing less can satisfy them. And so, at last the democratic world is allied in arms against the totalitarian world in the greatest war history has ever known.

Here in America the task is clear. The American people will support their government to the limit and they will make whatever sacrifice prove necessary. The issue of intervention versus non-intervention is as last years news. The isolatonist leaders displaying that patriotism which characterizes all true Americans how ever different their opinions have pledged their full support to the President and the nation. From this time on it is the job of all to show the world that a free America is more than a match for any adversary. The soldiers and the sailors who

fight in this war carry into the bat. tle a traditional freedom. They are not the unthinking "heiling" subjects of a dictator. They are not slaves, living and dying like puppets at the whim of a master. They have been reared in the freeest of all great na tions under the ideals which Lincoln called, "The last, best hope of earth.' They know what they are fighting for. They know what freedom is. And they know the sorrowful truth that blood must be shed if freedom is to be preserved.

Back of the fighting men of America will be a production machine unparalleled on earth. Labor and in dustry will not shirk the gigantic task that time and circumstance have giv en it. The price of failure would be the death of freedom. The days ah ead will be hard and bitter, but no one can doubt what the eventual end will be victory for freedom, for a way of life that respects the dignity of man.

It is all there in one word, freedom. Freedom of speech, freedom of press, freedom of worship, freedom of enterprise. These are what we possess and these are what we are fighting to save and perpetuate forever. American industry is ready for this war. Go down the roster of our great private enterprises, the railads, the power systems, the stee mills, the motor makers, the coal and metal mines, the oil wells and refining plants, the airplane factories and the rest. American enterprise represents a veritable miracle of preparedness. And now the tempo of production will be stepped up again and again. There can be no "business as us_ ual," "strikes as usual," or "politics as usual" from now on. Let there be no despair. Let there be instead, uncompromising determination. War has been forced on us. It has been forced un us by a nation to which we offered firm friendship, economic cooperation ,aid in solving its problems, everything in short except the right to pillage and destroy and conquer. Now our enemies will learn how free men ,backed by the limitless resources of our free enterprise system can acquit themselves in battle. How did the name "tar" originate? In the days of wooden ships and iron men, it was customary for sailors of the U.S. and all nations to soak their trousers in tar in order to waterproof them. From this custom the nickname "tar' 'originated. Physically fit high school gradu ates with amateur or commercial radio experience or a federal communi. cations commission license will be enlisted in the naval reserve for train ing as specialist petty officers, se cond class ,the thirteenth naval dis trict announced. Special eight months instruction course will qualify the men so enlisting to fill important navy billets as radio maintenance men afloat and ashore.

ing assigned to duty. Their pay durng training will be \$72 per month, plus food and quarters and extra allowance for dependants.
