

EYES ALOFT

By Floyd Wade

A bad cold has caught up with your regular reporter, Helen Crowson so I'll try to fill in for her this time.

A salute to Tony Varitz who stayed longer than his four hour shift on Monday night in order to help with air traffic. After he reluctantly left the Post unmanned, night operator at the office was nice enough to report that planes were still in the area. These emergency conditions were cared for.

"Care Enough to Do Enough" could be an appropriate theme for our GOC.

How about it? Are there a few more good citizens who are interested enough to also take a night shift on the Post and start closing the gap in crews? If so, let's hear from them and a suitable time can be arranged.

In recent weeks this Post has twice been needed; but each time that the Filter Center has phoned for special information on a current flight, there was no one up there watching; so—no help—Once was a strange light and the second time was checking on one of our own pilots who later ejected himself from his Jet and parachuted to safety. This Post could have helped to track the last flight of the crashed plane.

Civil Defense has many phases and the Ground Observer Corps is right up there in the top bracket.

Since weather conditions in January are usually too hazardous for our members or the Sergeant to attend the monthly meeting, all workers are asked to take that time and concentrate on conducting friends, acquaintances and newcomers as extra help for the Post. Let's see what can be done with the

four hours we usually use in partying.

Welcome home to Clara Brown and her family who spent an extended vacation with relatives in the east.

Evelyn Brackett of Currinsville is a new helper recruited by Mary Heiple. We appreciate extra help.

Don't forget that in column 10 you now tell whether the plane is seen or heard.
