Here is a very important reason why you save more money shopping at Big Chief. Our policy is to shave all prices as closely as possible, and in so doing, we come so close to the bone that we often figure to the half cent. That's why you'll always find so many "2 for" prices in our ads . . . and in our stores. You save an extra penny on every "2 for" you buy -- and extra savings over and above the big savings our regular low prices give to you . . . so for values galore shop your Big Chief Store!
