**New Ceramic Tile Easily Installed**

Today's homeowner can now install his own ceramic tile, thanks to a new line of American-made tile and new adhesive which makes the tiling job simple, fast and economical.

Marking the first time American-made ceramic tile has been available for self-installation, the new tile is offered in six colors, dawn grey, sunshine yellow, sage green, aquamarine, parchment beige and frosty pink. Black trim pieces and black cove base are also available.

Using a new government approved rubber-base adhesive, the new ceramic tile, being introduced by Sears, Roebuck and Co. in its spring catalog, makes it possible for the handyman — or

handyman — to easily tile their kitchen, bath or powder room.

In three easy steps, the homeowner first applies the new adhesive to any hard surface wall. The 4 1/4 by 4 1/4 inch tiles are then set in place with special self-spacers insuring just the right space between each tile. Any surplus adhesive is easily wiped off.

Once the tile has set, a special grout is applied with a trowel or sponge. The excess grout is wiped off with a sponge or squeegee, which forces the grout into the joints, making a tight, water-proof surface. When this grout, a special combination of waterproof cement, has set up, the joints are readily struck by running a toothbrush handle between the tiles.

The result is a sparkling new ceramic-tiled kitchen, bath or powder room that glistens with the lustre imparted only by real ceramic tile and which will be easy to clean and will give years and years of service.

**SPRING MAKES THE DIFFERENCE**

As you gaze at this scene of snow, ice, and leafless trees, your mind may skip ahead and picture green grass, abundant foliage, and a rippling stream. The very thought brings happiness. Spring makes the difference.

As grass, trees, and streams are fettered by winter, so some lives are bound by doubt, unbelief, lack of faith, and false ideas. When they come in contact with the Church, the love of God sets them free. They see new beauty in everything about them, and others see new beauty in their lives. As spring brings all nature to new life, so God's love makes human beings happier, gives them life more abundant.

No matter how strong the fetters which bind you, freedom can be yours through the Church and the message it brings to all. Why not accept that freedom today?

**THE CHURCH FOR ALL . . . ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake, (2) For his children's sake, (3) For the sake of his community and nation, (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
