

FACULTY MEMBERS ARE ENTERTAINED

Mr. and Mrs. Wm. Jones and family were hosts to faculty members; their wives and husbands; the office staff and the custodians of Estacada Union High School at their home last Friday eve after the football game at a coffee hour.

As a surprise Miss Janice Euhlinger was presented a travel bag by those present. She has been office girl at the local high school.

of the fall; due to the weather. Farmers are reluctant to leave home in such humid weather for any great length of time with the real danger of fire and extra care of stock and poultry. The new lecturer opened her program with community singing and presented a very interesting speaker in the person of Mrs. Wilda Fifer. Mrs. Fifer who has lived in this country so many years told of the great fire that swept thru this territory in 1902; burning out all the homes in the area. Jim Shibley who returned home last week after a long stay in Porto Rico expained life and conditions there and told of his adventures.

Speaking of Jimmy Shibley he will be leaving soon to start a new job in New Mexico which will be on a large Pres-

byterian Mission consisting of some thousand acres. Jim will be in charge of roads etc. He is to be here for the Grange fair Saturday so those of his friends who have not had the chance to see him will be able to do so at that time.

Reitha and Dn Thomas with their family were in Springwater on Saturday to visit her parents Del and Nita Gant. On Sunday they all tried their hand at miniature golf in Portland. This game which was so popular about 20 years ago seems to be coming back.

I am wondering if the parents in this area are aware that their offspring have been engaged in vandalism. Members of the Grange are quite unhappy about having to replace so many windows in the hall. It might be suggested the people living near the hall do not let their children play there without supervision.
