PGE ISSUES COLORFUL INVITATIONS TO INDUSTRY
A full color 30-page invitation to industries across the land to locate in Oregon has been published and is now being distributed by Portland General Electric Company.
The brochure outlines in general terms the resources, facilities and services that can be found in Oregon, with special emphasis on Portland and the Willamette Valley.
Now being mailed to industrial prospects across the nation, the brochure will also be sent to chambers of commerce, libraries, schools and industrialists within the state. The colorfully illustrated treatise was prepared under the direction of Abe N. Hoss, PGE's area development manager.

MISSIONARIES TO INDIAN SPEAK AT PORTER
Would you believe it that there are still some people in this country who have never heard the old Gospel story? You are invited to come to the Porter school house on Monday evening, July 7 at 7:45 to hear of what contacts are being made in and around the Lake Of the Woods area of northern Minnesota and eastern Ontario among the American Indians. The only possible way to get to most of these people is by airplane, which makes it necessary to fly in equipment and some building materials as well as missionaries. Mr. and Mrs. Soltzfas will show slides of the various phases of the entire mission program. This service is sponsored by the Porter Memorial Church. Everybody welcome. Ernest J. Bontrager, Pastor.

THE GREATEST NUMBER OF ACCIDENTS occur during the twilight period. Twilight blindness or a difficulty in seeing in dim light, is sometimes caused by a riboflavin deficiency.
The courthouse at Eastville, on Virginia's Eastern Shore, contains some of the oldest continuous county court records in the United States. The documents date from 1632.
"Bum" bears that beg along the roadside of Glacier National Park have been trapped and carried 60 miles away, only to return to their handout station within a few weeks.
A Michigan Lumberman invented the modern spark plug; a Russian, the demountable rim automobile wheel; a Midwest engineer, the self-starter; and a New England Yankee, the anti-skid chain.
For some obscure reason, a standard five-grain tablet of aspirin relieves a severe attack of asthma in some people.

The South Equatorial Current carries 6 million tons of water northwestward across the Equator each second. The volume is replaced by cold North Atlantic water flowing south at great depths.
The cuisine of Trinidad in the British West Indies is a mixture of British, American, Continental and Creole cooking, with Indian and Chinese dishes also in evidence.
