It will be installed in the new generating unit now being constructed which will add 25,000 kilowatts to the existing 19,000 kilowatt plant. The rotor stands two stories high and is the largest of its type ever built in the West.

Error Not Found in Our "Find the Error" Contest so \$30.00 Prize Posted

The mistake of last week was in Taylor's Hiway Market ad. We checked our outgoing copies and we believe if Rev. Marian Ravan will check his paper, he will find Cottage Cheeze, Pint9c. Cecil says he may claim his subscription by sending or bringing in his error paper.

This week's error is the total of **\$30.00** and a observant person should find it. Our advertisers are happy to award you your prize of \$30.00 - so read your ads.

The considerable interest shown in the contest kept advertisers with minor undesignated mistakes busy answering questions. Remember, there is only one paper mailed with the intentional error. Any other errors do not qualify you for the contest prize. Rules of the contest are as follows:

Continuing in this paper, your "News" is conducting a "Find the Error" contest. A deliberate mistake of price or text, or both, has been placed in one ad which will be in both your paper or shopper. This paper is being mailed at random. You will have to check all the ads carefully to find the "planted" mistake. When you find what you think is the right mistake, take your paper to the firm in whose ad it appears and you may take advantage of the error in price if to your advantage. **You will also receive a cash prize of \$30.00 this week.**

The mistake must be reported by 5 p.m. of the Saturday following the date of this paper. If the prize is not claimed, it will be added to the next week's prize. A duplicate paper showing the "mistake" will be posted in the News office window
