**FHA LOANS AVAILABLE FROM TEACHERS UNION**

The Portland Teachers Credit Union, Portland, Oregon, has been approved to make FHA property improvement loans to home owners.

The approval was contained in a letter sent today to Hugh O. Stout, treasurer of the Union by Roy F. Cooke, act. Com. of the Federal Housing Administration.

Loans are available to all owners for remodeling, modernizing and repairing homes under this widely-used FHA Title I low cost budget plan.

The moneys loaned for home improvements under this program are from funds of the Portland Teachers Credit Union of Portland.

Any individual contractor or material supply dealer who wishes to participate in this home improvement program is invited to make application at the office of the institution.

The benefits of this program have been proven over the years. More than 21,000,000 families have obtained FHA loans to improve their properties. The total amount if money borrowed exceeds \$10 billion.

Homeowners can borrow up to \$3,500 for periods ranging up to five years. All types of home improvements, such as remodeling, painting and decorating, insulating, plumbing and heating, wiring, cement work, grading and landscaping, etc. (which add life and value to the property) are eligible for FHA loans.

The Federal Housing Administration urges all home owners to deal only with reputable, established contractors or building supply dealers. A telephone call to the Better Business Bureau can quickly establish the reliability of the contractor.

Variation in spacing of Douglas fir plantings does make a big difference in the board feet volume per acre after a growing period of 33 years. At least this is indicated by a series of experiments conducted on the U.S. Forestry Experiment Station at Wind River, Washington. The area represented is Site 4 which is not the best.
