The World Fellowship Circle of E. C. Church will meet next Tues., Dec. 9, at 1:30 PM at the home of Florence Glover.

Main Streets, Oregon City.

SERVICE DIRECTOR TALKS ON CANCER RESEARCH
A killer whose toll in the United States is seven hundred lives a day, and who knows no geographical limits, must be fought in every community, and every person must be given the right ammunition for protection. Research, education and service are the means by which this can be accomplished. This was the message brought by Miss Janet Shair, assistant service director, from the national office of the American Cancer Society in New York to the board members of the Clackamas County Unit when they met last Wednesday evening at the Court-house in Oregon City to form their organization. Mrs. Wilbur J. Falloon, executive director of the Oregon Division, accompanied Miss Shair to this meeting.

ing devices basic school at Memphis after 'Boot Camp' they met in class.

After graduation from the school, they were transferred to Pensacola, Fla., and assigned as instructors in the same department. It was in the Pensacola Naval Air Station chapel that they were married on May 18, 1956.

Before entering the Navy, Galen served three and one-half years in the U. S. Air Force and Shirley graduated from Estacada Union High School.

Kiwan's Annual Xmas Benefit Pancake Feed Grade School Cafeteria Sat., Dec. 6, 7 am to 3 pm Tickets 75c

Mr. and Mrs. Willard Turner of Portland were week end guests of the George Bavarts, and Mr. and Mrs. Bill Williams also of Portland, visited them on Sunday. The Bill Williams were formerly residents of Estacada.

Mr. and Mrs. Ed Schlue, John and Linda moved to Long Beach, Calif. on Wednesday of last week.

CHRISTMAS SEALS NOW ON SALE SAYS TB HEAD
Dr. Mabel Hardenbrook, Oregon City dentist, was the first person to buy Christmas seals this year, reports Mrs. J. E. Blinkhorn, president of the Clackamas County TB and Health Association, sponsors of the seal sale. Contributions for the first week of the sale amounted to \$1,132.50, she said.

Dr. Hardenbrook has headed the list of early contributors for several years. Mrs. Blinkhorn stated, Mrs. D. E. Crowley, living in San Diego, was second with her usual contribution and Mrs. J. D. McEdward, Jennings Lodge, was third.

We have been pleased, Mrs. Blinkhorn said, with the early response to our Christmas seal appeal which seems to be getting better each year.

We appreciate it, for the sale is our only source of income and it takes place at the busiest time of the year.

Contributions should be sent to McIntyre building, Sixth and

HUSBAND AND WIFE BOTH SERVING IN THE NAVY
The Galen K. Smith family has moved its household from Memphis, Tenn., to Alameda, Calif., on orders from the Navy department.

Galen, the son of Mrs. Marie B. Smith of Sunbury, Pa., a training deviceman second class in the U. S. Navy. His wife, the former Shirley J. Henderson, daughter of Mr. and Mrs. Elroy D. Henderson of Estacada, Route 2, is also a second class training devices specialist in the Navy Waves.

Both graduated from advanced training device school at Memphis, Tenn., this fall, and received concurrent orders from the Navy Bureau of Personnel to report to Alameda for duty as instructor-repairmen with the Pacific Fleet Airborne Electronics Training Unit.

Since enlisting in different parts of the country within two weeks of each other in February and March, 1954, except for recruit training the two have been together. Assigned to the train-

COMMUNITY PROGRAM
Lewis and Clark College—Winnie Shibley of Estacada recently participated in the 4th annual community program sponsored by the Associated Women Students of the college. The purpose of the program involving 140 girls was to observe and assist in the work of 18 social agencies of Portland.

Dolores A. Schleichert, daughter of Mr. and Mrs. R. C. Schleichert of Estacada, graduated Nov. 7 from the Women Officers' Indocination Course for newly commissioned Marine officers at the Marine Corps Schools, Quantico, Va.

Good Fertilizing Methods Make One Dollar Grow Into Four

Would you invest a dollar now if you could get a four-dollar return next fall? Who wouldn't! You can—and easily. Just apply fertilizer at rates recommended by your state college. Experiment station test results as well as the experiences of thousands of intelligent farmers who are using fertilizer according to recommendations show that for each dollar invested in plant foods, there can be a return of four times that amount . . . or more!

Fertilizer is still the farmer's best investment. So says the Agricultural Service Department of the Union Bag & Paper Corporation, maker of multiwall paper bags for fertilizer. A well-planned fertilizing program, with other good cultural practices, gives top profits through bigger yields and lower production costs.

With soils well stocked with plant nutrients, yields will jump ahead of unfertilized acreages. Remember that it costs almost as much to produce a puny crop as it does to produce a bumper crop. Fertility is the key to profitable farming.

With spring now upon us, it's the business of every farmer to look at his soil with a critical eye and to ask himself this question: How can I get the most out of this soil to earn the greatest possible profit at the end of the growing season? Fertilizing wisely—according to state college recommendations—is the biggest step towards profits.

Soil is the basis of any farming operation. Treat it right, treat it to recommended amounts of plant nutrients. A high fertility level in that soil will mean the difference between a poor crop and a profitable crop.

What will a high fertility level in soil mean during the coming growing season? Consider these points—all helping to produce profitable yields: fertilizer increases production, improves crop quality, hastens maturity and, a point that's very important, it replaces nutrients drained off by last year's crop. The intelligent use of fertilizer, and other good farming practices, is a must on most farms.

You can't increase crop production, though, by adding only one plant nutrient when others are in short supply. Only when plant foods are teamed up in correct balance can you get top yields. The best way to find out what's needed for your soils—they may be different from your neighbor's—is to have your soil tested by competent specialists. Ask your county agent how to do it.

Whether you top dress, band, or broadcast, fertilizer is the best investment on the farm today.
