RAP'S HOT-SHOT.

By Norman Rapatee. The people are lamentably ignorant of the ways things are going on in this country of ours. The Democrats are trying to look pleasant and think times are improving, while the Republicans are blaming everything on the Democratic administration.

The railroads of Great Britain employ help to the amount of \$6,000,000 annually in this country. The railroads pay their help \$2,262. There they employ eighteen men to the mile, here five. Their average pay is \$235 per annum; here it is \$55. The hours are shorter and the work much easier.

Wheat is in favor of the free coinage of silver, as of gold, in the ratio of 16 to 1, so long as we have gold—but we hold that law makes money not the material of which the money is composed, and the cheapest and most convenient material is the cheapest and best.

EVENTS OF THE DAY

Epitome of the Telegraphic News of the World.

Grand Army Encampment. The Grand Army of the Republic for the department of Oregon is holding its encampment in Independence, Or.

Greek Vessel Seized. A dispatch from Canas, Crete, says another Greek vessel, loaded with munitions and provisions for the insurgents, has been seized by the Turkish officials.

The Heat Was Terrible. A special from Bombay says the British second-class, twin-screw Bonaventure, the flagship of the East Indian squadron, flying the flag of Rear-Admiral Edmund Drummond, lost seven men by sunstroke on a voyage from Colombo to Pondicherry.

Reorganization of the Northern. There is much discussion in New York among those concerned in the reorganization of the Northern Pacific, as to the form of charter the company is to have or whether it is advisable to foreclose the property at present.

A Fatal Fire. At a fire in a tenement house in Pittsburgh, Pa., Mrs. Zonshondia Garber, aged 74, was killed by jumping from a window. Frank Garbar, aged 5, was suffocated to death.

Their Courage Failed Them. Forty miles east of Charleston, W. Va., masked men boarded an express train at midnight and crawled over the engine tender into the cab with revolvers drawn.

To Float the Indebtedness. A member of one of the largest banking houses in Honolulu is in this country for the purpose of interesting capitalists in the refunding of the Hawaiian government's indebtedness.

His Death a Mystery. The body of a man with his head split open, was discovered floating in the Columbia river near Walla Walla island. It is not known how he was killed.

Failed to Fly. The trustees of the university of Illinois were arrested in Champaign and held in \$200 bail to answer to the grand jury the charge of failing to fly the flags from all university buildings.

Four Favored Cities. Except Savannah, the capitals of the new states of Wyoming, Montana and Utah are the only places that got appropriations for public buildings at this session of congress.

Heavy Fines. The Hammond incident is finally settled. At a special meeting of the executive council held in Pretoria, it was decided to release John Hays Hammond, Cecil Rhodes, George Farrar and J. W. Leonard.

Killed His Brother-in-Law. Ben Dice, a rancher living on the Tule river, twenty miles southeast of Visalia, Cal., killed his brother-in-law, Grant Smith.

University Riot. Three thousand Harvard men, encouraged by the phenomenal event of a Harvard victory, fought 100 policemen in the streets of historic old Cambridge.

A Brutal Murder. In a drunken rage John Wolter, of Chicago, made an unsuccessful attempt to kill his wife. He then shot and killed one stepdaughter and wounded another so seriously that she may die.

A Washington woman, after twenty years' litigation for damages with the Baltimore & Ohio railroad, has secured a verdict of one cent damages.

According to Electricity a clothing manufacturer has invented a machine for cutting cloth which is capable of cutting 200 to 250 suits a day.

TOWN OF HOPE BURNED

Property Loss Will Reach One Hundred Thousand. BUT VERY LITTLE WAS SAVED

Men, Women and Children Turned Out to Fight the Flames—Originated in a Lamp Exploding. Hope, Idaho, June 16.—A fire broke out here this afternoon about 8:30, originating in the Northern Pacific's laundry, owned by the dining car department.

The Penn de Orielle hotel, owned by E. Wasmaker, was one of the first buildings destroyed. His large general merchandise store, the town hall, warehouse, butcher shop, and a building occupied by Mrs. Mills as a dress-making parlor and residence, burned.

Among the buildings and contents destroyed were the steam laundry, Mrs. Head's lodging house, J. C. McDougall's residence, W. J. Pilling's residence, Ed Ginn's residence, Perry Morgan's residence, C. T. McIlvany's residence, several small shacks and a section house.

One hundred thousand dollars will not cover the loss. Giant powder was used to good advantage in blowing up several small buildings, thus stopping the ravages of the flames.

To Prevent Collisions. Washington, June 15.—The president having approved the act passed by congress at the instance of the American delegates to the international maritime conference, relative to the prevention of collisions at sea, the state department has taken steps promptly to acquaint the British government with the fact that the amendments to rules suggested by it have been delayed, and it is hoped there will be no delay in putting the rules into operation by proclamation.

Outrages on Cuban Women. Key West, Fla., June 18.—An American citizen, writing to a friend here, gives an account of outrages perpetrated on Cuban women, who obeyed Weyler's order requiring them to present themselves at the Spanish fortress and camps. He was an eyewitness of one of the outrages.

Ben Dice, a rancher living on the Tule river, twenty miles southeast of Visalia, Cal., killed his brother-in-law, Grant Smith.

Three thousand Harvard men, encouraged by the phenomenal event of a Harvard victory, fought 100 policemen in the streets of historic old Cambridge.

DAY & HENDERSON'S Chairs and Rugs, Undertakers and Upholstery Goods... READY MADE CLOTHING... HOWE & RICE PROPRIETORS... Special Call for a Farmers' Meeting... 'The Committee of One Hundred' W. SANDERS

Two years one of the most energetic bowlers for free silver in the country. We have been waiting it. At first we did not see how it could possibly remain with the old party, but we have been surprised of it all along. Now it has changed its tune, and it is no more honest than the rest of the big papers. It is now howling for protection, and is blaming everything on the Wilson tariff law.
