Crop Prospects.

Following is the crop bulletin for the Willamette valley, embracing Columbia, Multnomah, Washington, Clackamas, Marion, Yamhill, Polk, Linn, Benton and Lane counties—The weather was cloudy and cool, without rain, excellent conditions for the harvest which is making rapid progress. Barley is a good crop wherever grown. Fall-sown grain, it is thought, will exceed the average. The berry is plump and of superior quality. The heads of grain are filling full. There are no grain aphids to do any harm. There will be a large crop of late potatoes. Blue plums have commenced to ripen. There is an abundance of all kinds of fruit. Hops will make a good crop; they have started to burr. The recent cloudy weather caused the hop-house to increase, but so far no damage is done. Farmers are well pleased with the prospects.

WATER OR NO WATER

That is the Issue Now

There will be a Citizens' meeting in Vets hall, Saturday, August 3, at 8 p. m., to hear the report of the committee on water supply. Every resident who is interested in the welfare and prosperity of this city should be present as the matter to be considered is of greater importance than any or all other questions that have heretofore come before the citizens of this place. Recommendations by the committee will accompany the report and it is both desirable and important that an emphatic expression of a very large per cent. of the voters be had on the recommendation at that time.

Come everybody. Men, women and children. All are directly interested in a supply of pure, healthy water.
