THE WATER TOWER.
The important water-or-no-water
question has been decided affirmatively
and now the matter of details
will occupy attention. One
of the first of these is the location
of the tower. It will have a cer-
tain occupancy no matter where
located but the HATCHET desires
to see it placed in the business cen-
ter of the city and to have it con-
tain, in addition to the waterworks
and electric light plant, on the
ground floor a room for the fire ap-
paratus, on the next floor a credit-
able council chamber and city offi-
ces and above them a jail. All
these could be conveniently located
from below and at very slight ex-
pense a hydraulic elevator could be
put in to make them easily accessi-
ble. The cost of such a tower over
a plain barn-like affair would be
trifling and only a few more dol-
lars after the bare structure had
been put up would make it hand-
some and ornamental. This the
city could easily afford.

One place is especially adapted.
A central position, using property
that otherwise would be idle, is the
north part of the congressional
square. This can not be sold but
could be leased for a term of nine
years, practically as desir-
able as purchase. The HATCHET
would be pleased to see a well pro-
portioned tower of graceful outline
occupying the center of our city
and feels that it is practicable and
desirable and would reflect credit.
To the accomplishment of this it
ardently looks forward.

NEWSPAPER LAWS.
The assistant attorney-general
for the postoffice department has
made an important ruling in regard
to what are known as "newspaper
laws." These so-called laws pro-
vide that subscribers to newspapers
are liable to the price thereof un-
less they give express notice to
discontinue; that when they give
notice to discontinue without pay-
ing arrears or refuse to take
papers from the office, the publisher
of a newspaper can have anyone
arrested for fraud who takes a
paper and refuses to pay for it, and
that it is a dangerous trick to
allow a subscription account to run
on for six months or a year and
then tell the postmaster to mark it
"refused" or send the editor a
notice to discontinue the paper.
The department has time and again
informed persons making inquiries
and the public generally that there
are no such laws. The ruling just
made, however, goes beyond this.
It was to the effect that a publisher
who makes a demand for payment
of the subscription price of his
paper through the mails, accompa-
nied by a threat of enforcing such
pretended laws in case the
demand is not complied with, may
be prosecuted for attempting
to obtain money under false pre-
tenses, provided he knows that
such so-called laws have no exis-
tence as laws or decisions in the
courts.

PROFITABLE PRUNES.
Experiments are to be made here
this fall, in co-operation with the
agricultural experiment station at
Corvallis, on the drying of prunes.
A belief exists among many who
are well informed that the real
value of our prunes is lost by the
method of drying. If this prune
industry can be built up here it
will be a source of much profit to
this region and all that is needed
for its growth is to once establish

its reputation for unvarying excel-
lence. That is obtainable by find-
ing out the present defect in
the drying method, for once
found it can be easily remedied.
Towards gaining this object all
can contribute by keeping full
records of their drying—tempera-
ture, length of time, etc. There is
abundant available land adapted
to prune raising around here, and
for fine prunes there is an eager
demand, meaning liberal returns to
the cultivator.

A LOOK AHEAD.
The dull season just drawing to
a close has not been a dead one by
any means. Merchants have found
little to complain of in their trade.
With the re-opening of college and
the return of those away recruiting
or picking hops a business rush
may be expected, as there will be
added employment of many in the
construction of the city water
works, circulating a considerable
sum of money here at home.

DESERVED SUCCESS.
The Prosperity of Washington
County's Greatest Business
House and How it Came.

It is just about a year ago that
the large general merchandise house
known as Caples & Thomas but then
Woods, Caples & Thomas, decided they
would make an innovation in Wash-
ington county trade. There were plenty
of stores where one might obtain goods
at long-time prices, having to pay of course
for bookkeeper's hire, losses by bad
debts, and all the other evils attendant
on the credit system, in addition to the
cost of the articles (bought on time, too,
generally) and paying an unreasonable
profit. But they concluded to open a
store where a man could get the worth
of his money, paying only for what he
bought. The firm feel fully repaid, for
their plan has been justified by an ex-
cellent trade not only from all parts
of this county but from Yamhill and
Columbia counties as well.

If there are any people who are tired
of patronizing credit stores where they
have to pay other people's bills, Caples
& Thomas will be glad to give them
their prices. They buy in enormous
quantities, ever on the watch for the
best opportunity and getting the best
discounts, as they buy for cash. In less
than a month they bought of granulated
sugar fourteen tons and thirteen hundred
pounds, and in the past eighteen months
they have sold over twelve hundred
sacks, the equivalent of more than sixty
tons. And yet they have never heard
of a case of cholera or other disease, or
any other bad results. On the contrary
those who have purchased the sugar
have invariably come again to buy more.
It is simply a pure sugar-cane of the best
quality manufactured. And the more
competitors have howled about China
sugar the more the article has been ad-
vertised and the larger have been Caples
& Thomas' sales. The people cannot be
deceived. Every thinking person knows
cane sugar is far sweeter than beet sugar.
However all kinds are kept and what-
ever ones are called for can be fur-
nished.

Oregon all-wool clothing is another
of their specialties. \$1500 worth in the
past eighteen months bought at fifty cents
on the dollar have enabled them to sell at
about one-half the regular price, and
they still have a stock on hand to be
sold at the same low rate. When this
clothing was first put on the market by
them, the howl was raised, "moth-eaten,
shelf-worn, bankrupt," anything to keep
people from examining and finding out
for themselves what its quality was.
Now there are in this region over a
thousand satisfied wearers of these
goods, glad to testify to their numerous
good points, for they have stood the
test and are wearing excellently. And
the clothing is selling readily.

Another department contains an im-
mense stock of boots and shoes of all
kinds. In a single month over one
hundred and twenty, over eighteen hundred
pairs, were received from one of the
largest manufacturers in the East. Buy-
ing in such large quantities enables them
to give their customers prices as low as
they could expect to find in the city of
Portland.

In groceries great quantities are pur-
chased at one time, as in addition to
their own large trade they supply many
of the smaller country stores, and so
they can supply their customers at al-
most wholesale prices.
In laying in your supplies for the win-
ter you will do well to visit their large
double stores filled with bargains in dry
goods, ladies' and gent's furnishing
goods and underwear, groceries, boots
and shoes and tinware. Their adver-
tisement, giving prices, appears else-
where in this issue. It is thoroughly
reliable and well worth your reading.
Caples & Thomas buy cheap, sell a
heap and keep forever at it.

Money to Loan.
From \$500 to \$50,000, three to five
years, at 8 per cent, on improved farms.

WASHINGTON COUNTY HATCHET.

Dedication of Marsh Hall.
Arrangements have been made by the
college faculty to have the Marsh Mem-
orial Hall formally dedicated on Fri-
day the 27th, inst. In the forenoon
there will be exercises under the auspi-
ces of the alumni. The president of the
association, Hon. Harvey Scott of the
Oregonian, will preside and short ad-
dresses will be made by several promi-
nent alumni.
The more formal didactic services
will be held in the afternoon, at which
Rev. J. K. McLean, D. D. of Oakland
Cal., will deliver the address. In the
evening a general reception will be held,
to which students, citizens and friends of
the college will be invited.

The faculty is desirous of making it a
great occasion for the college and the
town, and invites all citizens to assist in
making it so. There will be many vis-
itors present. The railroad has granted
special rates, and the ladies of Forest
Grove are preparing to serve lunch at
noon to all visitors.

Death of Mrs. Price.
Mrs. Carrie Price, wife of J. H. Price,
a nephew of Sen. Mitchell, died in Port-
land Monday, aged 20 years. The burial
was here Wednesday in the Naylor
cemetery. Mrs. Price was a grand-
daughter of Mr. W. L. Wagner of this
city by whom she was brought up. She
was born and a large part of her life
spent in Forest Grove, and there many
here who knew her, friends who will
sincerely mourn her loss.

The remains of Mrs. Price were met at
the station on the arrival of the morn-
ing train by members of the Knights of
Pythias, of which order her husband is
a member, and escorted to Mr. W. L.
Wagner's home and from there to the
Christian church where the funeral ser-
vices were held. A profusion of
flowers had been sent as tributes of
affection from numerous friends.

Mr. Price felt deeply the kindness
shown him in his misfortune and desired
to thank those who manifested their
sympathy, especially the brothers of the
Knights of Pythias.

CENTERVILLE.
The farmers in this vicinity have done
thrashing and the women and children
and men who like light work have gone
hop-picking. The majority are in the
yards of Wm. Porter while the others
are at Bagley's.

Grandpa Martin who has been mak-
ing his home with his grandson-in-law,
Louis Hermens, was found dead in bed
last Saturday morning. He had been
sick for some time but was not supposed
to be in immediate danger.

Delplanch Bros. had a sale Monday
which was well attended, the property
offered bringing a fair price.

Mr. and Mrs. McCurdy and Mr.
Knecht and sister were in Hillsboro
trading on Monday.

Mrs. Knecht is visiting friends in
Portland this week.

A Olsen let a wagon box fall on his
great toe the other day. He reports the
toe as very uncomfortable.

Peter Kluck the blacksmith is laying
in a stock of coal so that he will be
ready for the rainy season.

Dr. Lyon of Forest Grove passed
through this town Sunday.

W. W. Marsh and John Reiling are
going to Yamhill to pick hops. There is
more fun there than in the yards at
home.

All applicants for position as teacher
at this place are requested to call on H.
E. Watters in the future as he has just
returned from the coast where he has
been resting and will be glad, no doubt,
to give the other members of the board
a much needed rest.

Jess Cornelius who has been very sick
is much better, and his speedy recovery
is now looked for by his many friends.

A band of worthless dogs last Friday
killed ten head of fine sheep belonging
to M. Wren. They were seen and iden-
tified. Some of the owners of the dogs
promptly killed them on being notified
and showed a willingness to pay for the
sheep, while others insisted that their
dogs were of good character and would
not engage in such business.

GLENWOOD.
Mrs. Nellie Snell of Fir is on the sick
list.

Mr. and Mrs. R. N. Varley and Mr.
and Mrs. A. M. Coffield were the guests
of Mrs. Hattie Allen, Sunday last.

G. T. Varley has gone to Marion
county to visit his sister, Mrs. C. M.
Scofield.

S. S. Reed has returned home from
Salmonberry, where he has been sur-
veying for the past two weeks.

The sorrel horse will have to get up
and go now with a brand new cart be-
hind him.

Our U. S. mail carrier drives the
match team now.

Hillsboro's sister city, Forest Grove,
is to be congratulated upon the fact that
a proper system of water works will soon
be constructed in that town. The vote
yesterday, to bond or not to bond, was
decided by a vote of 79 on the former and
to on the latter. The system will be
deep well, or Holly, of course, and to this
fact a great deal of credit is due "The
HATCHET." * * * —The Argus.
