The Outlook in England.  
 Lord Salisbury likely to give the  
 franchise to women? It is quite possible  
 that he will do so. The Liberal Unionists  
 (almost to a man (Mr. Leonard  
 Courtney the one conspicuous exception)  
 are against the representation of women,  
 but the Conservative majority without  
 the Liberal Unionists will be strong  
 enough to carry anything. There will  
 undoubtedly be a registration of voters  
 bill, and in all probability a redistribution  
 of seats bill, brought in by the govern-  
 ment, and it is thought very probable  
 that in these an opportunity will be  
 found for enfranchising at least some  
 women. Woman suffrage has always had  
 considerable Conservative support. Lord  
 Beaconsfield was absolutely the first per-  
 son to say a word in its favor in the  
 house of commons, and Lord Salisbury  
 and Mr. Balfour are both its advocates.  
 Probably, however, a Conservative  
 woman's suffrage would be confined to  
 propertyed ladies. It would be rather a  
 representation of that property than an  
 enfranchisement of women. To this,  
 probably, the house of lords would not  
 object.—London Illustrated News.

CANADA'S LIBERAL LEADER.

Sir Wilfrid Laurier, a Noted Man in  
 the Dominion.

Sir Wilfrid Laurier, the noted leader  
 of the Liberal party in the dominion,  
 is an able man. He was born in the  
 province of Quebec in 1842, and was  
 educated in the college of L'Assomption.  
 He afterward took the degree of  
 B. C. L. at McGill University in Toron-  
 to. He studied law and was called to  
 the bar of lower Canada in 1865. In  
 1880 he was appointed queen's counsel.  
 He has had a brilliant career in the do-  
 minion house of commons. He first at-  
 tracted attention to himself as an orator  
 in a great speech on the Riel ques-  
 tion at the time of the rebellion in the  
 northwestern territories. It was at the  
 dead of night, when the house was  
 tired out and sleepy. But the flood of  
 eloquence he poured forth, the mighty  
 power he disclosed, roused the mem-  
 bers to the fact that a new force was  
 among them, and his success as a leader  
 was assured from that moment. Laurier  
 is a tall, slender man, and in the  
 very prime of his physical and  
 mental power. He speaks French and

creatively. He is a man of a  
 dramatic purgative. The bitter is also efficacious  
 for malaria, bilious, dyspeptic and kidney  
 trouble.

Cre'Hor—Can't you pay something on account  
 of that little bill you owe me? Debtor—How  
 much do you want? Creditor—I'd like enough  
 to most lawyers' fees to sue for the balance.

Mothers

Anxiously watch declining health of  
 their daughters. So many are cut off  
 by consumption in early years that  
 there is real cause for anxiety. In  
 the early stages, when not beyond  
 the reach of medicine, Hood's Sarsa-  
 parilla will restore the quality and  
 quantity of the blood and thus give  
 good health. Read the following letter:

"It is but just to write about my  
 daughter Cora, aged 19. She was com-  
 pletely run down, declining, had that tired  
 feeling, and friends said she would not  
 live over three months. She had a bad

Cough

and nothing seemed to do her any good.  
 I happened to read about Hood's Sarsa-  
 parilla and had her give it a trial. From  
 the very first dose she began to get better.  
 After taking a few bottles she was com-  
 pletely cured and her health has been the  
 best ever since." MRS. ADDIE PECK,  
 12 Railroad Place, Amsterdam, N. Y.

"I will say that my mother has not  
 stated my case in as strong words as I  
 would have done. Hood's Sarsaparilla  
 has truly cured me and I am now well."

HOW INDIANS MEASURE TIME.

They Fix Their Dates by Sleeps and Moons  
 and Winters.

Our Indians measure time solely by  
 days, by sleeps, by moons and by winters.  
 The Indian has no name for any  
 subdivision of time less than a day.  
 When he desires to indicate a shorter  
 period, he points to the heavens, and  
 measuring off a space says, "It was as  
 long as it would take the sun to go from  
 there to there." A day is from daylight  
 to darkness, "sleep," or night, from  
 dark to daylight. He has no name for  
 any day, nor has he any subdivision of  
 time corresponding to our week. A  
 moon commences with the first streak  
 of the crescent in the west and lasts un-  
 til the next one appears, but the days of  
 the moon are neither numbered nor  
 named. "From winter to winter" is  
 the nearest approach he has to our term.  
 The year commences with the first fall  
 of snow. An Indian will tell you he is  
 so many winters old, but having no  
 months or days he never has a birthday.  
 The Indians who formerly inhabited  
 the southern part of Texas, where there  
 is no snowfall, are said to have fixed the  
 commencement of the year at the first  
 "norther," a furious and chilling wind  
 that sweeps from the north and is of fre-  
 quent occurrence during the winter  
 months.

No year has any name or number fix-  
 ing a sequence or point of reference, but  
 each band will designate a year by its  
 most prominent occurrence, as a fight  
 with hostile, death of a chief, prevalence  
 of disease, abundance or scarcity  
 of food, or falling anything marvelous  
 or striking by the name of the stream on  
 which was located the winter camp.  
 But these are mere remembrances, and  
 excellent as is the Indians memory the  
 after a few years, fade into a  
 jumble of disconnected facts without  
 sequence or usefulness.

aning of the V.  
 the name "Omaha"  
 to the long journey of t.  
 reveals some of the causes which...  
 about this breaking up into dis-  
 tribes. It is composed of two wor-  
 which signify "going against the cur-  
 rent," or up the stream. The Omahas  
 were the people who went up the  
 stream, while the Quapaws, their near  
 of kin, went, as their name reveals,  
 "with the current," or down the stream.  
 The traditions of both these peoples say  
 that the parting occurred during a hunt-  
 ing expedition, each division finally set-  
 tling in the lands whither they had  
 wandered apart. This epochal hunt  
 must have been centuries ago, for the  
 Quapaws bore their descriptive name in  
 1540, being mentioned in the Portu-  
 guese narrative of De Soto's expedition  
 as then living on the Arkansas river,  
 where they dwelt until 1839, when they  
 ceded their long occupied lands to the  
 United States.—Alice C. Fletcher in  
 Century.

The Laws of Nature.

The laws of nature are just, but terri-  
 ble. There is no weak mercy in them.  
 Cause and consequence are inseparable  
 and inevitable. The elements have no  
 forbearance. The fire burns, the water  
 drowns, the air consumes, the earth  
 buries. And perhaps it would be well  
 for our race if the punishment of crimes  
 against the laws of man were as inevita-  
 ble as the punishment of crimes against  
 the laws of nature—were man as unerr-  
 ing in his judgments as nature.—Long-  
 fellow.

YOUNG AT FIFTY.

HOW A METHODIST MINISTER  
 CARRIES HIS YEARS.

Rev. William Young, of Oswego, Tells  
 a Reporter His Secret of Good Health  
 —Will Surely Benefit Everyone Who  
 Follows His Advice.

From the Times, Oswego, N. Y.

Probably no man is better known or  
 more highly respected in Oswego, N. Y.,  
 than Rev. William Young, of the  
 Methodist church. Mr. Young has not  
 a conference appointment, but holds a  
 responsible position with the Oswego  
 City Savings bank, where he has been  
 a trusty employe for the past twenty  
 years.

In the spring of 1894 Mr. Young  
 looked as if his time was limited and  
 that he would be laid at rest with the  
 great majority before the snow covered  
 the ground. But, instead of failing as  
 predicted, he soon gained a more  
 healthy look and appeared stronger.  
 As the months went by this improve-  
 ment continued, until now he is as rug-  
 ged and apparently as healthy as a  
 young man of thirty, although his  
 gray locks denote a more advanced age.  
 A Times reporter determined to find  
 out what had made this great, and it  
 might be said phenomenal, change,  
 called upon Mr. Young at the bank  
 and put the question direct and received  
 the following reply:

"In truth I am a changed man, and I  
 owe my present good health to Dr.  
 Williams' Pink Pills. In the spring  
 of 1894 I was all run down and had  
 commenced to think that my time  
 had come. I had to be prescribed for  
 by physicians, and although I received  
 temporary relief, the same old trouble  
 came back again and I was worse than  
 before. I had no strength or appetite,  
 and physically I was in a miserable  
 condition. After my work I would go  
 home, but the general lassitude which  
 hung over me left me without any am-  
 bition, and when I would go to the  
 table to eat, my appetite failed me and  
 I would have to leave without taking  
 hardly any nourishment. My kidneys  
 were also badly affected, and I was in  
 utter despair. One day, here at the  
 bank, I happened to pick up one of the  
 local papers, and my eye fell on an  
 advertisement of Dr. Williams' Pink  
 Pills. The advertisement gave a de-  
 scription of a man who, afflicted as I  
 then was, had been cured by using Dr.  
 Williams' Pink Pills. I was not a be-  
 liever in that kind of doctoring, but  
 concluded as a last resort to try a box  
 of the pills, making up my mind that  
 if they did not help me I certainly  
 would not be injured any. Going to  
 a drugstore, I purchased a box of Dr.  
 Williams' Pink Pills and commenced  
 taking them according to directions.  
 Very soon after I began to feel better  
 and I saw I had made no mistake in  
 trying the pills, and before the first  
 box was emptied I felt so much im-  
 proved that I immediately purchased  
 another. I had taken seven boxes of  
 the pills, and at the end of last sum-  
 mer I felt I was entirely cured and  
 discontinued their use, but always keep  
 a box handy if occasion requires. I  
 am now entirely cured. The lassitude  
 has left me, my kidneys are all right  
 and my appetite—well, you should see  
 me at the table. I am a new man  
 again, and instead of feeling like a  
 man of fifty, which is my age, I feel  
 like a youngster of twenty, and I give  
 Dr. Williams' Pink Pills the full  
 credit for this great change. I have  
 recommended these pills to several of  
 my neighbors and acquaintances who  
 have been relieved of their complaints."  
 William Young, being duly sworn,  
 deposes and says he is the gentleman  
 referred to in the above interview, and  
 it is true in every respect.

William Young.  
 Subscribed and sworn to before me

 pany, Schenectady, N. Y., for 50 cents  
 per box, or six boxes for \$2.50.

YOU.

Rev. Zephaniah Meek, D. D., is a  
 household name all over the South.  
 Since 1867 he has owned and edited the  
 "Central Methodist," the leading pa-  
 per of the Methodist Episcopal church  
 in the South. He represented his state  
 at the General Conference.

He was one of the Kentucky com-  
 missioners at the Chicago Columbian  
 Exposition. During his ministry in  
 the South he has built and dedicated  
 five chapels. He writes from Catletts-  
 burg, Ky., where his home is, as fol-  
 lows:

"I have used several bottles of Paine's  
 celery compound for nervous trouble,  
 resulting from overwork, and with im-  
 mediate effect, as well as permanent  
 benefit. It is the best nerve tonic that  
 I have ever tried. It has also been  
 used in my family with great benefit."

Tired out, half-sick men and  
 women need something more than a  
 mere rest. They need a positive un-  
 mistakable nerve food; they must have  
 a reserve of nerve force to draw from,  
 before their heads will cease to ache  
 and their nerves cease to tremble with  
 neuralgia.

It is estimated that there are over  
 ten million nerve fibres in the body.  
 So long as these minute tissues are  
 kept fully nourished, one lives in bliss-  
 ful ignorance of any such thing as neu-  
 ralgia, headaches, or even a nervous  
 system, but let one become "run-  
 down" and the nutrition of the body  
 get low, and every one of these myriad  
 fibres becomes a "live-wire" within  
 the flesh. Headaches, neuralgia, rheu-  
 matism, and other forms of nervous-  
 ness and debility result directly from  
 a famished nervous system. Paine's  
 celery compound is able to correct  
 this faulty condition. It builds up the  
 nervous system and sustains it. The  
 brain at once feels the strengthening  
 effects of the superb nutriment. There

are thousands of men and women  
 today who have been enabled to keep  
 vigorously at work, who must have  
 given up but for Paine's celery com-  
 pound. Nervous affections are a warn-  
 ing to busy people.

At the earliest sign of reduced nerve  
 force, inability to sleep, languor, or  
 a gloomy habit of mind, everyone  
 should look immediately to the nutri-  
 tion of their nervous system and to the  
 purity of their blood. Paine's celery  
 compound will attend to both of these  
 urgent needs more thoroughly and  
 more speedily than anything else in the  
 world. Paine's celery compound is  
 not to be confounded with the common  
 preparations, the sarsaparilla and the  
 nervines. Being the discovery of a  
 man of science, Prof. Edward E.  
 Phelps, M. D., LL. D., of Dartmouth  
 College, it has the support of the best  
 physicians; they prescribe it univer-  
 sally; and the many sick persons made  
 well by its use proves that that support  
 is merited.

To the great majority of business  
 men a vacation, to say nothing of three  
 months of complete inactivity, is out  
 of the question at this season, even  
 when their brains demand a complete  
 rest and their nerves ache and threaten  
 them with prostration. Now, there  
 are hundreds of business men and hard-  
 worked professional men in this city in  
 just this condition. What are they to  
 do? Those who are tired out, "run  
 down" and debilitated at this trying  
 season will do well to read some of the  
 straightforward and convincing state-  
 ments from the men and women who  
 have been cured by Paine's celery com-  
 pound.

Nervous weakness vanishes before  
 Paine's celery compound as mist before  
 the strong, health-giving rays of the  
 sun. Convince yourself of the fact at  
 once, if your health is at all impaired.

WILFRID LAURIER.

English with equal fluency, and the  
 suggestion of Gallic accent he has only  
 serves to lend an additional charm to  
 an oratory whose rhetoric is perfect.  
 One thing about him will make him  
 dear, perhaps, some day to Americans.  
 He is an ardent annexationist.

A rush of miners for the gold fields  
 of Alaska is reported from the large  
 cities on the Pacific coast. Some of  
 the prospectors say there is more gold  
 in Alaska than in South Africa, and it  
 is at least certain that the precious metal  
 in our Arctic territory is widely dis-  
 tributed.

WHAT NEGLECT MAY DO.

There are some infirmities that only a  
 surgeon's knife will relieve, and mostly  
 strictly because of neglect. A neglected  
 nerve pain may become so chronic as to  
 cripple, and this is often the case with  
 Sciatica. If taken in time, it is easily sub-  
 dued, like other nerve pains, and vigor and  
 health are restored. Thousands of cases  
 have been treated by the use of St. Jacobs  
 Oil, with the result of a prompt and per-  
 manent cure and restoration to health of  
 the affected nerve. People cannot be too  
 careful with their nerves. There is too  
 much to suffer to admit of foolish neglect,  
 and the simple thing of getting a bottle of  
 St. Jacobs Oil and applying promptly may  
 save years of misery and perhaps years of  
 crippled condition. Let this warning serve  
 to show what can be and what ought to be  
 done without delay in an attack of this  
 disease.
