Comprehensive Review of the Important Happenings of the Past Week Called From the Telegraph Columns.

A dispatch to the San Francisco Merchants' Exchange says the bark *Mohave* from Vancouver for Santa Rosalia is ashore at Sooke inlet, and will probably be a total loss. The crew was saved.

In Walla Walla fire destroyed two one-story buildings and the upper floor of a two-story building on Main street between Fourth and Fifth. The fire was caused by a lamp exploding in the rear of a millinery establishment.

Yale was defeated, but not disgraced in the third heat of the Grand Challenge cup, which was rowed at Henley-on-Thames. Leander won by one and three-fourths lengths in 7 minutes and 14 seconds. The record is 6 minutes and 51 seconds.

The rush of tourists to Alaska this season is remarkable. The *Queen* which has just sailed, carried as passengers 180 first-class and almost as many more in the steerage. All the glaciers and points of interest are visited during these summer trips.

From advices received by the Australian steamer *Miwera*, which has just arrived in Vancouver, B. C., it now seems probable that the Queensland government will join New South Wales and Canada in granting a subsidy to the Canadian-Australian steamship line. Captain Bird, on behalf of James Huddart, managing owner of the line, recently interviewed the Queensland government, and it is said the government will recommend that parliament grant a subsidy of £6,000 per year for three years. The company is at present negotiating in England for the construction of larger steamers for the line.

At the first day's session of the national Democratic convention but little was accomplished. The convention was called to order by Chairman Hartry, of the national committee, who reported Hill as the choice of the national committee for temporary chairman. The announcement was greeted with great cheering from all parts of the house. Clayton, of Alabama, representing the silver forces moved that the name of Daniels be substituted for that of Hill, and on a roll call by states his motion prevailed, the silver men thus scoring their first victory. The temporary chairman was escorted to his seat amidst the applause of the vast crowd.

Mrs. Harriet Beecher Stowe died at Hartford, Conn. Members of the family were at her bedside. A touching appeal comes from the Greeks asking for relief for starving women and children. It has been suggested that the United States send a vessel to rescue them.

Captain-General Weyler has yielded to insistent requests to extend until August the time for remaining in the island allowed to Jose Yznaga, the American newspaper correspondent sentenced to banishment.

Rufus Buck, Louie Davis, Lucky Davis, Maomi July and Sam Sampson, comprising the "Buck gang," were executed in Fort Smith, Ark., President Cleveland refusing to interfere. They were convicted of murder and criminal assault.

Brazilian commercial circles are not favorable to a treaty of commerce with Argentina, not regarding the advantages to be obtained as of sufficient importance. Purely Brazilian firms are favorable to renewal of the treaty of reciprocity with the United States.

Within a few weeks will be commenced one of the most gigantic operations in the history of the war department. Fortifications more powerful than those existing anywhere in the world will be built in New York harbor, the cost of the work being about \$10,000,000.

A special from Helena, Mont., says the Cheyenne Indians have donned their war paint and are holding powwows preparatory to a general uprising. Several troops of the Tenth cavalry have been ordered from Fort Custer to the Cheyenne agency at Lame Deer, Custer county, Mont.

A letter received in Havana gives the details of an important engagement in Pinar del Rio, near Cayo Redondo. The rebel leader, Brigadier Frani and his thirteen followers were killed and many wounded. They were carried from the field. The insurgents were put to flight. The feeling in Pinar del Rio is now one of alarm.

The New York World publishes the following: The Postal Cable Company has arranged for an extension of its lines into Southern territory, where it has not had a single wire. The Postal Telegraph-Cable Company, of Texas, has been formed, and an agreement entered into with the New York company for the transaction of business. Wires will be strong to reach the leading points, and ultimately will extend into Mexico.

About thirty members of the committee appointed at the St. Louis convention, to officially notify the vice-presidential candidate, G. A. Hobart, of his nomination, proceeded to Paterson, N. J., the home of the nominee. Chairman Charles W. Fairbanks made the speech and he was replied to briefly by Mr. Hobart, who outlined his future policy if elected. The ceremony was witnessed by over 3,000 people from various parts of the country. Charles W. Parrish, of Oregon, and J. M. Gilbert, of Washington, were present.

**Attempt on Baldwin's Life.**  
During the process of Lillian Ashley's suit against E. J. Baldwin for \$75,000 for seduction, in San Francisco, Emma Ashley, a sister of Lillian, tried to shoot the millionaire defendant. She fired at Baldwin, but the bullet missed. Emma Ashley is believed to be insane. During the trial she has spent her time in court reading the Bible. When taken to jail she sang "Nearer My God, to Thee" in a loud voice. Baldwin was crazy with rage and wanted a chance to fight some one. His hair was singed by the powder and the bullet passed within an inch of his head. His escape is ascribed to the woman's inexperience with firearms. The pistol was thrown upward by recoil after the trigger was pulled.

**Wheeling Injures Women.**  
A remarkable circular has been issued by the Women's Rescue League of Washington, D. C. It is signed by Charlotte Smith, president, and Virginia N. Lount, secretary of the legislative committee, and it calls attention in a most sensational manner to what these ladies consider the manifold, moral and physical ill effect of the riding of bicycles by women. The occasion of the issuance of the circular at this time is that next week there will be a bicycle parade in Washington in which it is thought that fully 40,000 wheels will participate. Of the 45,000 bicyclists in the city at least 15,000 are women.

**Counterfeiters Caught.**  
A St. Louis detective has succeeded in capturing a gang of counterfeiters. A complete set of tools was found in their possession. Those arrested have hitherto borne good characters, one of whom is a regular practicing female physician. There was also found by the detective a photographic engraving of a \$20 bill, some of the bills, the copper plates and all necessary paraphernalia for etching the plates.

**Jury Disagreed.**  
The jury in the case of John D. Hart, Captain John O'Brien and the others of the steamship *Bermuda*, charged with violation of the neutrality laws by aiding and abetting a military expedition to Cuba, have rendered a sealed statement of disagreement to Judge Brown. They were discharged.

**Revolution in Bolivia.**  
Dispatches received from La Paz, the capital of Bolivia, announce that a revolution has broken out at Sucre, an important city, which was the capital of Bolivia until 1869. Election troubles are supposed to be the cause of the uprising.

**The Lone Highwayman.**  
Another stage robbery is reported from California. The Sonora coach was held up by a lone highwayman. He secured a few registered letters, one of which was valuable. He then made good his escape.

**Canadian Pacific In It.**  
It has been decided that the Canadian Pacific railway shall, at least tentatively, become a party to the joint traffic agreement.

**News From Peru.**  
Severe earthquakes are reported as a daily occurrence near Lima, Peru. Much damage has been done to buildings.

**Cholera in Egypt.**  
A dispatch from Cairo says that the cholera returns for June show 4,419 cases and 3,598 deaths.

**Squadron Drills.**  
Washington, July 6.—In the execution of the broad plans for the instruction of our naval officers in squadron drills and combined maneuvers, formulated by Secretary Herbert, the summer drills of the North Atlantic squadron, which will begin on the 15th inst., will find their counterpart in a series of squadron movements, target practice and fleet drills, to be conducted by the Pacific station by Admiral Beardsley. Because many of the ships naturally attached to his station, have been necessarily transferred to the Atlantic station, Admiral Beardsley will not have as many vessels available for his drills as will Admiral Bonce, on the Atlantic coast. Consequently, in order to be able to carry out a programme of any value, from an educational standpoint, he must make the most of such ships as he can command, and it will be impossible, therefore, this season to withdraw any of the ships, even temporarily, from the squadron to attend the local celebrations at various points on the Pacific coast, as has been customary in the past.

**English Company Shut Out.**  
New York, July 6.—The Herald's correspondent in Rio Janeiro, telegraphs that despite the presidents of the English Cable Company, the Brazilian government has granted to another company the privilege of establishing a land telephone service to connect Rio with all ports north of Para. The concession is heartily supported by the press.

**Troops for Cuba.**  
Madrid, July 6.—The first portion of the troops destined for Cuba will embark on twenty steamers at the end of August. These troops will consist of 35,190 infantry, 467 cavalry, 283 artillery, 1,169 engineers, and several battalions of volunteers.

**Three Killed and One Injured.**  
Houston, Tex., July 6.—The explosion of a boiler in the office of the *Evening Star*, at 2:40 this afternoon, killed three persons, and severely wounded another. The explosion was caused by letting cold water into an empty boiler.

Dr. Pratt, of Chicago, is treating John A. C. Johnson, a consumptive, with the X rays, and the patient is said to show decided improvement.

A CUTE CANADIAN CAPTAIN

How He Escaped An American Revenue Officer.

WAS NOT SERVED WITH SEIZURE

Sailed for Canadian Waters, Where He Ordered the Collector to Disembark—The Officer Was Compelled to Do So.

Rat Portage, Ontario, July 8.—A large excursion left Rat Portage on Friday, and upon arriving at the mouth of Rainy river, the Canadian captain went ashore and got from the American customs office clearance to touch at Long Point, about twenty miles west of the mouth. The refreshment buffet of the steamer was not closed, as it should have been, upon the arrival at the American shore. Among those present was a revenue officer, who seized the craft as a smuggler and put every British sailor and passenger under arrest. The official called to his aid 12 fishermen, who boarded the boat and remained there all night.

Yesterday Captain McRithie was ordered to sail for the mouth of Rainy river. The captain, instead of going to the mouth, made straight for British water. There Mr. Carpenter, the revenue collector, was politely told he must disembark at once and take his men aboard the small tug *Ethel*, which Captain McRithie had towed behind from Long Point for the purpose. As the Canadians outnumbered the Americans ten to one, Carpenter eventually ordered all his men to get aboard the *Ethel*, which then sailed for Rainy river, leaving the steamer *Monarch* to pursue her way to Rat Portage.

The revenue officer made the mistake of serving E. W. Bridges, part owner of the steamer, with seizure, instead of the captain, who alone is responsible for the boat. The matter will now have to be settled between Washington and Ottawa.

RIVERS INLET STRIKE.

Eight Hundred Fishermen Outwitted the Cannermen.

Vancouver, B. C., July 8.—A number of fishermen arrived from River inlet today, and according to their story, fishermen to the number of 800 walked out from the canneries. Last season they received pay at the rate of 6 cents per fish, but claimed that amount was insufficient to live on. The cannermen wanted work on the same terms this season, but were refused, the men demanding 10 cents per fish. The cannermen in turn refused to accede to the demand, and, according to the latter, attempted to play a freeze-out game on the fishermen, closing all the stores, thinking that, as the men had no money, they would have to give in. The fishermen, however, found allies in the Indians, who joined the strikers, and who offered to feed them and bring them to Vancouver in canoes. Men, to the number of 800, camped at the head of the inlet and waited for several days to see if the cannermen would give way, and then started for Vancouver, the majority coming down in sloops, and the others in Indian canoes. The Indians have nearly all gone home and say they will not fish this season, while the whites will fish on the Fraser. The men claim that no acts of violence were committed, and that, while they were willing to compromise, the managers refused to meet them in any way.

A PROSPEROUS MINE.

Good Work Done at the Le Roi—A Mining Swindle.

Spokane, Wash., July 8.—The Le Roi mine, at Roseland, the greatest mine in this district, is sinking 250 feet more of shaft. As the work progresses on the new shaft, the character of the ore goes to show that the property is richer than ever. Already \$2,000,000 is in sight in the old workings, and, if the developments hold up to those already shown by the time the shaft is completed, there will be \$7,000,000 worth of ore ready to be taken out. The mine is shipping 100 tons daily, averaging between \$40 and \$50 per ton, and is taking out ore faster than the smelter can handle it.

A Roseland paper prints an article that the Green Crown mine, which has floated a large number of shares in Spokane, is no mine at all, and owns not a foot of property. The allegation is made that the Crown grant never was issued, and that properties on either side own all the property which the Green Crown claims. Owners of the stock in Spokane, mostly poor people, including working girls and clerks on small salaries, are much exercised.

Steamship Wrecked.

New Orleans, July 8.—The steel hull steamship *E. L. Peten*, Captain Charles F. Hardie, which sailed from New Orleans July 4, for Guatemala, via Laguna, in tow of the Norwegian steamer *Franklin*, capsized at 4:30 a. m., about 35 miles west of South Pass. The crew was rescued by boats from the *Franklin*. The *E. L. Peten* was recently built for the Guatemala trade, registered 520 tons net, and was valued at \$200,000.

Death in a Cloudburst.

Columbus, O., July 8.—A cloudburst at Wegee creek today drowned James Berry, wife and child, destroyed the Bellaire, Zanesville & Cincinnati railway bridge, a large trestle on the Pittsburgh & Ohio Valley railroad, the Presbyterian church and other buildings.

At Bellaire.

Bellaire, O., July 8.—A cloudburst this morning washed out culverts and bridges. Several houses, including the canning factory, were swept away.

"Three Friends" Pursued

Key West, July 8.—The steamer *Three Friends* passed here at 9 A. M., pursued by the Spanish warship *Alfonso XIII*. Both vessels were under full steam. The *Friends* was between eight and ten miles ahead of the warship. Observers say the warship fired upon the *Three Friends*. The warship is cutting the three mile limit very close, and is trying to head off the *Three Friends*. It is reported the United States warship *Maine*, and United States cutters are getting up steam preparatory to intercepting both vessels. Great excitement prevails.

Ugly Feeling Prevailed.

Cleveland, July 8.—Contrary to police fears, there was no violent demonstration last evening after the funeral of William Rettger, the striker at the Brown Hoisting & Conveying Company who was shot by a nonunion man. There was, however, a great deal of feeling manifest, and the authorities think the prospect for trouble tonight, when the men in the works go home, are fully equal to those of the preceding nights. The militia is still in its armories waiting orders. The funeral was an immense affair, fully 10,000 union men being in line.

General Young Dead.

Washington, July 8.—A dispatch today announcing that General Pierce B. Young, United States minister to Guatemala and Honduras, died at New York at 11:30 today. General Young arrived in this country June 24. He submitted to an operation at the Presbyterian hospital, New York, and never recovered. He was a native of Georgia, and had a distinguished record for service in the Confederate army.

Earthquake at Cyprus.

Genoa, Italy, July 8.—Just arrived reports from Larnica say the island of Cyprus has been suffering from earthquake shocks since July 1. A general panic is said to prevail at Larnica. The government and military authorities are providing tents for the afflicted people. The town is deserted.

For Union With Greece.

London, July 8.—A dispatch to the Standard from Athens says that the Cretans yesterday elected a provisional government, and decided to proclaim the union of the island with Greece, and, if pressed hope that autonomy will be granted to the island under surveillance of the powers.

Horrible Double Murder.

Santa Barbara, Cal., July 8.—A horrible double murder has been committed here. The bodies of Mrs. H. R. Richardson, aged 60, and her daughter, *Ethel*, were found. They had been stabbed and beaten with a club. Intense excitement prevails. There is no clue to the murder.

Walling 8 sentenced.

Newport, Ky., July 8.—Alonzo J. Walling, convicted of the murder of Pearl Bryan, was sentenced today to be hanged on August 7.

The School Population.

Washington, July 7.—The total enrollment in educational institutions of all kinds in the United States for the school year of 1893-94 was nearly 16,000,000, according to the report for the year just promulgated by Commissioner of Education Harris. Of these all but 400,000 were in the regular schools, an increase of about half a million for the year. The percentage of total population enrolled in the schools was 20.53. School property gained in value during the year over \$26,000,000, and 1,103 more schoolhouses were in operation. In the past twenty years the South has increased 54 per cent in population, but its school attendance has increased 130 per cent, more than twice as fast as the population. In the twenty years from 1874 to 1894, the value of school property in the South increased from \$16,000,000 to \$51,000,000.

Higher education has also made a good record. The report includes Specialist McDonald's criminological investigation. The latter seeks to prove that there can be no rational treatment of crime until the causes are investigated. He estimates nine-tenths of the crime to be due to bad social conditions.

Tuckey's Policy Condemned.

Philippopolis, July 7.—The consuls of the European powers are sending pessimistic accounts of the way in which hostilities are being conducted in Crete. The situation is such that should the porte insist in its conduct, French men-of-war may land troops on the island. The Armenian patriarch, Iemini, has asked permission to resign. Further outbreaks seem inevitable. The Turkish battalions at Jeddah, who mutinied on account of receiving no pay, have deserted their arms. There are no troops available to put down this revolt. The porte, foreseeing complications in Greece, Macedonia and Syria, is about to mobilize all the troops of the bediff, or landwehr.

The Bones of the Skull are Arched

because in that form the greatest strength is combined with the least weight and quantity of material.

Satoli's Successor.

Rome, July 7.—According to a newspaper statement, Bishop Falconio, of Acerenza, will replace Cardinal Satoli as papal legate to the United States. Bishop Falconio was once engaged at St. Buenaventura college, Allegheny, N. Y.

The New Ablegate.

Bradford, Pa., July 7.—Bishop Falconio, now of Acerenza, Italy, who has been appointed to succeed Monsignor Satoli as papal representative in the United States, was for several years professor of philosophy and later president of St. Buenaventura college at Allegheny, Cataraugus county, N. Y. Bishop Falconio is fully in touch with American affairs, a splendid English scholar and orator. He is a native of Italy.

THE NEW WOMAN DISCUSSED

The Subject of a Lecture by Rev. Mr. Copeland.

BEGINNING OF WOMAN'S ERA

The Lecture Was One of Scholastic Merit, and Was Enthusiastically Received by an Attentive Audience.

Salem, July 7.—An interested audience this evening assembled at Unity church, to hear what the Rev. Mr. Copeland had to say of "The New Woman, Selected by God to End the World." The lecture was one of scholastic merit, and was enthusiastically received. In fact, one of the very best Mr. Copeland has ever delivered. The text was: "For the Marriage of the Lamb has come, and his wife has made herself ready, and I, John, saw the holy city coming down from God as a bride adorned for her husband."

In beginning his lecture, the speaker called attention to the very general expectation of the end of the world at the close of the century, prevailing amongst all religions, and sustained by men of science, as well as by preachers of the second advent. He quoted many prophecies proclaiming that the end of the world was at hand, some of which are new and gathered from ancient books. He quoted from the *Bagavad Gita*, the words of Krishna: "I produce myself among creatures, whenever there is a decline of virtue, and an insurrection of vice in the world." That such conditions prevailed was detailed at length in the strongest possible language. The darkness of the picture was relieved by calling attention to the coming reign of woman in literature, art, society and politics.

The causes of woman's emancipation were indicated, and her influence in every department of life depicted. A new race was in the process of formation, which should develop the feminine side, and be fit to use those inner forces which the "X" ray and the Keeley motor indicate are to replace the common electricity.

"The past centuries have witnessed a steady progress in the delicacy and spirituality of the forces used: From horse-power to water-power; from water-power to steam; from steam to electricity; from electricity to etheric vibration, which latter cannot now be used, for man is yet too material and selfish, and would make this power which dwarfs electricity only rivet the despotism of the few over the many beyond any power to break. But when the old dispensation has ended, then may we have the use of the new force. We have seen what changes have resulted, from the substitution of steam for horse and water-power; we are witnessing the changes made by replacing steam by electricity, shortening the hours of labor and making life easier to live. What may we not look for, when we replace electricity with interetheric vibration, or as Balzer Lytton, in his "Coming Race," calls it, "Vril," which he very significantly places in the hands of woman, and which she uses to restrain selfishness of the male part of the race, not yet raised to her high standard of morals."

The lecture concluded with the following sentences: Lo, the sign of the Son of Man in the heavens, ending the language of barbarism. Clad in new bodies made out of finer elements, because born of love, those souls have passed through many incarnations marked with much suffering and tribulation, shall dwell in the New Jerusalem; which shall not be here or there; but everywhere. Of this city the dwelling God, now in control of the old-time, cruel and rapacious animal, who preferred darkness to light, shall be the glory.

GUARDS OVERPOWERED.

Fourteen Desperadoes Broke From a United States Jail.

Guthrie, O. T., July 7.—Fourteen prisoners overpowered the guards in the United States jail at 9:30 tonight and broke jail. Bill Doolin and "Dynamite Dick," the last survivors of the Dalton gang, who were wanted for the murders committed in the Ingalls fight, at which four deputy marshals were killed, were the principal actors. Fourteen out of fifty-nine prisoners escaped. They were the most desperate characters. They are, besides those named above, Charles Montgomery, Jim Black, Walt McClain, Bill Crittenden, Ed Lawrence, Kid Phillips, George Law, Henry Irwin, Bill Jones, C. O. Nix, Lee Killiam and W. Buck. They got from the guards two revolvers and Winchester by a rush out of the cage when the cage was open. They knocked one of the guards down, placed the other two in the steel cage, making them enter at the points of their revolvers. Having the guards safe, the ringleaders called for everyone of the prisoners to escape if they wanted to. Only fourteen followed. William Beck was so weak that he sat by the side of a road out of the city, wondering how he would escape. Later the outlaws made a man named Schofield and his girl get out of a buggy and give it to them. A posse of deputy marshals, headed by Bill Lightman, who captured Doolin, went in pursuit.

Gathering Information.

Olympic, Wash., July 6.—The board of state land commissioners has now formulated the rules for leasing harbor line areas. The form of inquiry covering information desired on this subject has been sent out to United States consuls at seaports abroad, and to harbor officials of leading cities of this country, with view to securing the benefit of experience on this subject, and a book containing the results of these inquiries will soon be issued by the government. This work will materially aid the commissioners in the compilation of rules to obtain in this state.

Burned to Death.

Buffalo, N. Y., July 6.—A Dooley, aged 60, was burned to death in the destruction by fire of his house in this city. On the way to the two trucks collided, killing the driver attached to one of them and injuring two firemen.

Walling Must Hang.

Cincinnati, July 6.—At Newport, Ky., today, Judge Holm overruled motion for a new trial for Alonzo Walling, convicted as an accomplice in the Scott Jackson in the murder of Perry Bryan.

Chicago, July 6.—The Times

DISPLAY OF YELLOW METALS

A Grand Gold Exhibit to Be Made in Chicago.

Chicago, July 6.—Chicago is to have a gold exhibit next fall, in which the gold fields of every section of the globe will be represented. A meeting to consider arrangements which have been pending for some time was held yesterday at the Wellington hotel under the auspices of the Chicago Western Society, Colorado, California, Washington, British Columbia, Oregon and even the Georgia gold regions were represented, and enough gold was pledged to start a national bank.

The Cariboo district will exhibit brick worth \$42,000, representing 20-day wash-up on one claim. The French creek and Trail creek districts will make an immense exhibit, which they are already preparing, and the Canadian Pacific road, through its agent, J. F. Lee, has promised carloads of ore and quartz. Other Western roads have promised to transport exhibits to Chicago free of charge, and C. Ferre, of Cripple Creek, guarantees that the Colorado mines will be represented.

If the mineowners do half what they promised yesterday, several life-size quartz crushers will be in operation under cover in Chicago this fall. The machinery for reducing gold will be exhibited, and with several railroads hauling quartz free, visitors will have an opportunity of seeing just how gold is extracted and prepared for the mint.

JEFF DAVIS MONUMENT.

Corner Stone Laid at Richmond Yesterday.

Richmond, Va., July 6.—The cornerstone of the monument to be erected in Monroe Park to the memory of Jefferson Davis was laid this afternoon with ceremonies which were impressive and pathetic. Under a bright, sunny sky, through densely packed streets and with the applause of countless thousands to cheer them on, the followers of the lost cause marched today through the city which is dearer to the old Confederates than any in the land. Two hundred children, boys and girls, wearing white and red sashes, followed the procession. Mrs. Jefferson Davis was in an open carriage, and bowed and smiled as cheers greeted her everywhere.

The sponsors and maids of honor chosen for their beauty from all the Southern states, rode in carriage following that of Mrs. Davis. North Carolina was the first state to exhibit a tattered battle-flag, and as it flung in the breeze it was greeted with great cheering. The veterans made the pathetic feature of the parade. Nearly all are old and for the most part weak and feeble, but, summing their remaining strength, they marched with pride and pleasure. A large number of them carried sticks for support, and many were compelled to use umbrellas in order to withstand the rays of the sun.

THE SANGUILLY CASE.

Consul Lee Makes Inquiries Into Matter.

Havana, July 6.—In response to Consul-General Lee's formal inquiry as to the status of Julio Sanguilly case, Captain-General Weyler officially stated that the affair was beyond his jurisdiction, and while in the hands of the civil courts. Weyler Sanguilly was tried in December last certain exceptions to the proceedings were noted by his counsel. Then Consul-General Williams objected to the fact that his sentence was based on the original testimony taken at the court martial. These exceptions have gone to the supreme court of Madrid for consideration, where the Spanish statesman and jurist Senor Saloneron is acting counsel for the prisoner.

Sanguilly himself remains in Cuban

castle here, pending a final verdict. He occupies the most luxurious quarters in the castle, and the Spanish officials treat him with great consideration. His wife and most intimate Cuban friends are allowed to visit him whenever they desire and he receives his meals from a noted Havana restaurant. He has, in fact, every comfort possible under the circumstances.
