

**A Few More Facts About Sugar.**

There are not many articles of food more universally in use than sugar. Its consumption is simply enormous. It is found in the culinary department and upon the greater mass of tables in all civilized countries; hence, it follows that any article of diet for which so much money is paid and which is so extensively in use, should be a healthy food and at the same time, within the reasonable means of the consumer. These simple propositions no rational person for a moment, will question. From time to time articles have appeared in the Portland Coast press, in relation to imported sugars, which have at least been very misleading to the public, or to those who have not given the subject careful study.

speaks from personal knowledge. His only object is to unburden the mind of all fear to use the China or any other properly refined sugar. Thereby to allow the consumer to act with unbiased judgment. G. O. ROGERS.

[Dr. Rogers is one of the best authorities on the subject on the coast.—Ed.]

**Sweetness and Light.**

Put a pill in the pulpit if you want practical preaching for the physical man; then put the pill in the pillory if it does not practise what it preaches. There's a whole gospel in Ayer's Sugar Coated Pills; a "gospel of sweetness and light." People used to value their physic, as they did their religion,—by its bitterness. The more bitter the dose the better the doctor. We've got over that. We take "sugar in ours"—gospel or physic—now-a-days. It's possible to please and to purge at the same time. There may be power in a pleasant pill. That is the gospel of
