Mr. Geo. R. Hughes who has been clerk of the senate committee on taxation, returned from Salem this morning.

Every one indebted to Hartrampf Bros. will please call and settle at once that their business may be promptly closed up.

Mrs. Dr. Holey went to Salem Tuesday where she will spend a few weeks visiting her sister-in-law, Mrs. Dr. Conlis.

Tommy Madigan is still alive and has a full line of tinware and stoves to sell cheap at his shop two doors east of post office.

The long distance telephone company is putting in a local system in Hillsboro. A home company is planning wires which will bring Hillsboro and Forest Grove into communication.

The Greenville Maccabees have another invitation ball on Friday evening and remembrances of the last affair are assurance for the success of this one. A number from the Grove are planning to attend.

Mr. Manning, now a resident of Yamhill county, but who formerly lived here, was in town the forepart of the week and renewed acquaintance with his G. A. R. comrades at Monday evening's celebration.

The planking of the street in front of Mr. Planner's property west of the HATCHET office has been completed. A crosswalk from the campus to the gymnasium is under construction and nearly completed.

Mr. Tittle, of Tillamook, came in Tuesday and returned today, having been out to inspect the telephone line. It was found badly down and communication has been interrupted but it will be repaired at once.

The best always sells first. This is the reason there is such a demand for Crescent flour.

Messrs. McNamer, Carr and Cronen, who have been in the hills on the Tillamook road prospecting for gold, returned Tuesday, not having made any find but having had several exciting experiences, one when the wagon turned completely over.

Monday being a legal holiday the public school and the band were closed. Decorations and the display of flags marked the day and the entertainment at Verts hall recalled the memory of the father of his country. The college also had public exercises, but they were of an Arbor Day character and had no reference to Washington.

The program for the meeting of Gale Grange, P. of H., for its meeting Saturday, March 6, is: Select reading, Myra Prickett, "Lecturer's Hash," paper, Ida Wolcott, "Small Fruit Gardening;" Discussion of question, "Would the Causes that have Produced Prosperity in Former Times have the Same Effect Now?" There will be work in the third and fourth degrees.

The old white crow-bait horse, which has been wandering about town for several days, was on the morning after Washington's birthday found in the Congregational church bearing a placard with this legend: "You help the heathen Chinese, for God's sake help me." Whatever may be thought of this practical demonstration of the need for home missions certain it is that the poor brute should be cared for or put out of its misery. The animal has been put in the pound once but was released when it was auctioned off for fifty cents and the purchaser refused to accept his bargain. Since then a little boy has taken pity on the animal and is taking care of it, having accepted it as a gift.

Mr. F. Keat, of Minnesota is visiting Mr. Leslie Greer.

Mrs. Baker Sappington was in town the fore part of the week.

Mrs. Maurice went to Aberdeen, Wash., Thursday morning.

Dr. Hiatt has removed his office to Caples & Thomas building.

Miss Nellie Crane has, with her mother, moved to Portland.

Miss Mary Newby, of Amity, is visiting with Mrs. Maud Vaughn.

Remember you save your local fare to Portland by buying your R. R. tickets of H. W. Scott.

Representative Hudson who has been ill at Salem, with typhoid fever, is improving slowly.

Constable Vaughn has the honor of having received the prize at the mask ball at Carlton.

Mrs. J. M. Walker, who has been in Aberdeen, Wash., for several weeks past, has opened a millinery store there.

For sale or rent—Store building and furniture, dwelling and about one acre of land in Dilley, or terms to suit purchaser. B. F. Dundy.

Dr. C. L. Lott will be pleased at anytime to advise of an immediate Dr. Doctors Hovey, Sison and Hiatt having patients desiring teeth extracted.

Dr. Ward was remembered with a number of appropriate and scientific valentines but the party accused desires to state that he had no connection with it.

Wood in the produce can be easily destroyed when it first starts. Consumption can be nipped in the bud by One Minute Cough Cure. J. C. Clark, druggist.

Tillmook is to have a native newspaper. The Healdtown will receive the news from Forest Grove by telephone, the Oregonian being read over the wire to them.

Wells, the confectioner, thanks the public for their past favors and announces that he will be pleased to receive their patronage at his new location, the store lately occupied by Mr. H. G. Hyde's grocery.

The name of Dr. W. G. Cole has been considerably talked of as a desirable candidate for school director in this district. Certainly if the doctor would accept of the office Forest Grove would profit by the excellent service he is capable of rendering in that capacity.

Miss Fannie Condon has been appointed to have charge of the woman's department of the college until the end of the year. The president is now in correspondence with a lady in the east who is a graduate of the Boston Emersonian School of Oratory and Art, and if her services are secured, next fall will offer a course in elocution and physical culture.

The Crescent Mills, located at Gates Creek, have enjoyed an unusual run of business from the start and, to enable them to meet the demands for their flour, have recently doubled their capacity. The best evidence of the excellence of their brand is the great favor with which it is meeting in the home market. Housekeepers all praise it highly and say the Crescent flour makes the best bread.

Next Monday is the day for the annual school meeting in all the districts of the county and each will elect one director to serve three years and a clerk to serve one year. The clerks are now busy taking census of the children. As the income of the district is based upon the number enumerated, care should be taken that none are overlooked, and every resident should attend the meeting and observe the list as read that if any have been omitted they may be added. The list is made up of children who, upon the first Monday in March, are over four and under twenty years of age, and have parents or guardians resident in the district.

The professor of mathematics was severely shocked one morning recently when an innocent looking freshman told him "his calculus had evaporated and left no tracks presuntably." After a long delay and a diligent search the above named book was found at the room of Mr. A. H. Thomas where, it is said, the young man has been in the habit of sleeping.

The following is a very popular drama among the students at present: Scene, seen by every body, time, all the time; place, any place; cast, any cast.

"Excuse me, dear friend," he calling the girl of life! Hush! Hush! My death!

Monday was given up to the commemoration of Washington's birthday, the routine of studies being dispensed with. Chapel convoked at 9:30 after which a most beautiful program was rendered. Dr. Cephus Gappert first gave an oration, then the male quartette sang. The audience was next spell-bound with an oration on "Forestry in America" by Clarence Hatley. Miss Mason recited the planting of the apple tree. Mr. Rands then gave a ringing address on "Forestry in Okefenokee." This was a most excellent production. The ladies' quartette then clearly showed their superiority over the male quartette and responded to a hearty encore. A recitation by Miss Marsh concluded the program and the audience dispersed for the campus to witness the planting of several trees by members of the freshmen class, faculty alumni and others, who are interested in tree culture.

**A Reward Offered.**

A circular was found in the pocket of the person who assaulted Mr. Hall, last night, which reads as follows:

**\$1,000 REWARD.**

Lost—A small boy, about the size of a man, barefooted, with his father's shoes on; had an empty bag on his back containing two railway tunnels and a bundle of bungeholes; he wore a mutton-chop coat with bean soup lining. He was cross-eyed at the back of his neck, and his hair was cut curly. He has born before his elder brother, his mother being present on the occasion. When last seen he was shoveling mud off the court house with the intention of raising money enough to subscribe for the WASHINGTON COUNTY HATCHET, having heard from deaf and dumb people that it was the only real newspaper in the county.

Whoever will give information concerning the above child, (he has black whiskers, and mustache) will be prosecuted to the full extent of the law.

Given under my hand and heel, this 44th day of September, anti peanuts eighteen hundred and fast asleep, at the HATCHET PRINTERY Forest Grove, Oregon.

Where he got hold of this HATCHET advertisement is not known, unless he has been out here and has walked back carrying it in his pocket all the way. He seems to prize it, and the judge promised to return it to him. The person who wrote it evidently understood the science of advertising.

Dear George:—Please send a bottle of Chamberlain's Cough Remedy. I would not feel easy if I knew there was none of this valuable Remedy in the house. I have given it a fair test and consider it one of the very best remedies for croup that I have ever found. One dose has always been sufficient, although I use it freely. Any cold my children contract yields very readily to this medicine. I can conscientiously recommend it for croup and colds in children.
