The great favor in which Ayer's Pills are held all over the world has been well earned. They are easy and even pleasant to take, and for all complaints of the stomach, liver and bowels, are the safest and most thorough medicine in pharmacy. Every dose effective.
Columbia University will this summer send out, from the biological department six men to the Puget Sound region for study. As one of the company Prof. Lloyd, of Pacific University, will go as the botanist of the expedition. The University has honored itself in selecting the Prof. for the work assigned him for he is familiar with the Pacific coast and has had good experience afield.
Mr. Anton Pfanner, our active banker, took a business trip into Yamhill county last Wednesday. He says the farms are fine but too large up there. The same criticism can be made of most of the farms in the Willamette valley. What we need is about one million more people than we have, and then "The little farms well tilled" will show our possible productions.
Why is it that the boys will persist in bathing in Gales Creek above the water works? A good swimming place can be found below the bridge, and it does seem that there ought to be enough good sense and kindness in the boys to help make a little public sentiment on the subject. One of our citizens says he would not object so strongly if the boys would take off their dirty socks. Quit it boys and help us insist that we shall all be cleanly and have a good public spirit.

One of the good women of Forest Grove, did not have out her wash on Monday and all the the neighbors knew that she must be sick, for such a thing had not happened for forty-one years. Upon enquiring it was found that she was sick, but convalescent. The washing will be out next Monday.
The rain Monday night made the farmers smile in anticipation of a full crop well put in. In Oregon that always means an abundant harvest, for the absorbed rain fall, under the influence of cultivation, comes back to the surface bringing with it certain chemicals that help to build every thing that grows.
John Callehan, of Patton valley, gave us a pleasant call Monday and reported himself ready to take his departure for the new home up in the Siletz reservation, where he went last fall and purchased some good land. We are sorry he is going out of the country for John is an industrious man. The HATCHET wishes him success.
Mrs. Lizzie Schultz, who is stopping at Mrs. Sloan's, has come to Forest Grove to locate. She is the agent for Washington county for the medicine called Viavi, and if one-half of what is claimed for the remedy is true, it must be a boon to suffering women. Mrs. Schultz seems like a pleasant lady and will make the acquaintance of our ladies as she will soon open an office for the sale of her remedies.
Mr. S. M. Robbins, late of Utica, N. Y., gave us a pleasant call Tuesday. He has been in Oregon before but comes now to stay for a few months with the intention of studying the country and when satisfied of purchasing a home. He has had experience in the fruit and dairy business and we hope he may be pleased with Washington county so well that he will make his home among us.
This week Woods, Caples & Thomas put a car load of Spokane crockery in the basement of their store. If they can sell it out in time to put the furnace wood in this fall they will prove themselves rustlers. Churns, jars, flower pots, and many other things but nothing so novel and nice as the bean jar. It will cook beans fit for angels to eat for the editors family have used one. Get Thomas to explain the army way of using the jar and you will buy one without jaring your nerves.
Hon. B. Killen, the Portland lawyer, who has been for some days on his farm north of this city, gave this office a pleasant call Monday. Mr. Killen was a student here years ago and has never lost his interest in Forest Grove. He considers Washington county one of the best in the state. He is developing one of the best farms in the county and is making a practical study of agriculture. He is a prominent member of the board of Regents of the Oregon State Agricultural college and chairman of the committee on Agriculture and Chemistry. With such men in our state boards the work undertaken by the state will make commendable progress.
This office has been very lonesome this week on account of the absence of Frank U. Burnett, who has been the foreman of the HATCHET office since the paper started. He left last Saturday morning for San Francisco where he will spend some time visiting a brother, then go to Los Angeles to visit a sister, and then may start on a trip around the world. Frank is built for traveling and no more congenial companion could be found. This office wishes him a good time wherever he goes, and may the skies be so clear over his head and food so abundant that his health will be fully restored and his bank from joyously extended.
The Easter services at the Methodist church last Sunday evening were greatly enjoyed by a large audience. The house was not nearly large enough to hold the people. The services were conducted by the Sunday school. The Sunday school was in no way responsible for the bad conduct of four smart young men in the back part of the house. Out of respect for their mothers we withhold their names but wish to call their attention to the fact that a very strong ordinance is in force and will be forced if such conduct is repeated. The church dislikes to arrest any of its visitors but a few good citizens have decided to help our churches in any such troubles. Be gentlemen boys and you will save yourself respect and the respect of others.
Married.—At the home of Mrs. Mary A. Watson, north of Greenville, Sunday, April 18th, Miss Ida Watson and Mr. Lodel L. Kirts. Rev. A. Rogers officiating. The bride is a granddaughter of mother Watson, where she has lived since the death of her mother some nine years ago. The company only consisted of members of the immediate family but twenty-five persons were present consisting of mother Watson, her own children, grand children and great grand children. The home was beautifully decorated with the finest of flowers and the dinner was all any one could wish. The cake sent to this office has put a splendid smile on every thing. The whole office extends congratulations and hearty good wishes.

SOAP FOAM IS Queen of Kitchen and Laundry
Pure White, will not make the clothes yellow nor injure the finest lace.

Our I's and Other Eyes.

Our I's are just as strong as they were fifty years ago, when we have cause to use them. But we have less and less cause to praise ourselves, since others do the praising, and we are more than willing for you to see us through other eyes. This is how we look to S. F. Boyce, wholesale and retail druggist, Duluth, Minn., who after a quarter of a century of observation writes:
"I have sold Ayer's Sarsaparilla for more than 25 years, both at wholesale and retail, and have never heard anything but words of praise from my customers; not a single complaint has ever reached me. I believe Ayer's Sarsaparilla to be the best blood purifier that has been introduced to the general public." This, from a man who has sold thousands of dozens of Ayer's Sarsaparilla, is strong testimony. But it only echoes popular sentiment the world over, which has "Nothing but words of praise for Ayer's Sarsaparilla."
Any doubt about it? Send for the "Curebook." It kills doubts and cures doubters.

RED SEAL IS Pure Granulated Potash

Contains no salt or other adulterant, and will make more and better soap than either solid or crushed lye. Being packed in sifting top cans it is more economical and convenient.

"Under Which Flag?"

A fine drama, by home talent, was given at Vets hall last Friday and Saturday evening. The play and the players were a good success. The older members of the audience were carried back to the days of war and for two hours lived over again the scenes of the war as they did really exist. To the younger part of the audience the play impressed them with what might be the stern realities of war. We have not the space to go into detail but will say that the play in itself fine, was so well rendered that a stranger in the city remarked, "That is a splendid company. Where do they come from?"
Prof. Thomas followed the old flag well; C. N. Dolstrum went with his state after the old style of pride and brag; W. T. Glaze seemed at home going for number one; Geo. L. Smith, had he lived down south during the war, would have made money as a sutler; J. L. Dempsey, for a blonde, was the most natural darkey ever in Forest Grove; A. J. Wirtz, as a "substitute" out germaned them all; W. S. Baldwin as a C. S. A. Gen. and A. D. Allen as a U. S. A. Gen. were both dignified and looked well in uniform; J. J. Wirtz surely must be a German just from the county of Cork for his Sargent McCarty was good; Mrs. Chandler's womanly dignity made her an ideal Mrs. Mather, and Miss Almee Gray won all hearts by her splendid, artless acting as "Edna" the wife; Mrs. Hettie Arnsperger did her part so well that there were few dry eyes during "the death scene." "Black Dan," of the mountains, needed Mr. Barnes' fine voice and steady nerve to bring out so strong a character but he did it well, and his "mountaineers" showed good diction and familiarity with their imperious part.
Walker's orchestra is worthy of special praise, for we have seldom heard better music. The Walker family are musicians with more than ordinary talent and on this occasion they were assisted by Miss Lena Boos, Leslie Greer, Clyde Harris and Prof. Hastings.
The success of the drama is not surprising when we think of the talent as time that has been devoted to its production. The HATCHET respectfully suggests that the play should be repeated in some of our neighboring cities.
