A few of the amounts given in the list of Pfanner depositors published last week did not agree with what the bank owed the parties because drafts outstanding were not credited to the individuals but put under a collective head. As the drafts were not honored of course the bank is still indebted to the parties to whom they were issued. An instance is the case of commissioner T. G. Todd, who appeared as having \$1000 on deposit but in reality had \$1595, the difference being unhonored drafts. The HATCHET occasionally makes mistakes but generally through its information. The figures in the original list were taken from the assignee's report on file in the county clerk's office.

Members of her elocutionary classes, here and in Hillsboro, of varying ages from the child who was just beginning to talk plainly to young ladies and gentlemen, gave selections suited to their years in a manner flattering to themselves and creditable to their teacher. Vesta Johnson in rendering "The Sale of the Baby" did admirably. Wardie Dempsey emptied his pockets in a manner that would give credit to an experienced actor. "They had better sense than to want things they could not have." Maud Jones took them all to her arms with her youth and charms. Miss Baber carried the audience back to the days of '76 with her patriotic eloquence. Miss Wagoner versed in Cupid's language cooed the attentive listeners. Miss Vandersal now deserved applause in her character recitation, Jingarella, the story of the mad gypsy, flinging defiance in the face of fear, demonstrating that "A beautiful skin may conceal a temper within." Miss Eugene Tompkins and Georgie Hughes rendered some beautiful selections on the piano. The laughable comedy "Courtship under Difficulties" was well presented.
