#### Neapolitan Cruelty.

Neapolitans have a bad reputation for ill-treatment of animals, and the Naples society for the prevention of crealty to animals seems to have plenty to do. During last year its agents stopped 44,321 carts for carrying too heavy loads, and in nearly one-half the cases had the load reduced; they confiscated 41,011 sticks used for beating animals and 887 spikes used on curb chains; 2,282 convictions for cruelty were obtained.

### Co-operation,

There should be more co-operation among the farmers; co-operation \_ in buying, as well as in selling. Hearty, intelligent co-operation is the farmer's only weapon of defense against the middleman, the speculator and the commission man. By co-operation there is retained in the community not only all the profit which the speculator and commission man make, but also the wages which are paid to the men who do all the labor of handling the produce. Let us talk the matter over un. til every one is interested in it, and

## Fatten Old Hens.

The hens that cease laying and which are intended for market, need not be sold at a loss. Just before selling them let them be confined for ten days or two weeks, and give them all the wheat in the morning and corn at night that they can eat, with a mixed ration at noon. Do not confine them in coops, but put a number together in a yard. They will, if made fat, not only be a pound or two heavier, but bring more than the market price per pound .--Maine Farmer.
