The government telegraphed an order to cease instantly all rigorous methods

With the exception of conservatives and republicans who persist in courting Weyler, the majority of the press openly applaud the new government for gazetting decrees recalling Weyler and appointing Marshal Blanco gov-

So determined was the cabinet to act vigorously that immediately after the council of ministers approved the above decrees, Count Xinquena, minister of public works, carried them to the palace. The queen got up from dinner to sign them. The minister of war telegraphed the Transatlantic Company to postpone the departure of the mail steamer to allow General Blanco to embark Tuesday with a numerous staff. Six generals, officers who served under Marshal Campos in the early part of the present war, and 20,000 men as reinforcements, will follow in November. General Blanco is not expected to be in a position to form a correct estimate as to the situation, or to suggest the best course to follow before the middle of November.

The government has received unfavinsurrection in the Philippine islands. The situation there is serious. Six filibustering expeditions from Japan and China have landed arms and war stores on various parts of the coast. Considerable reinforcements will have to be sent to Manila before the fine season opens, when the rebels are likely to resume offensive operations, because the present governor, Marshal Rivera, has sent home half the European force, believing the rebellion to be subdued.

Appointment of Blanco as Governor Confirmed.

WEYLER'S LETTER TO SAGASTA

Provincial Governors of Cuba Resign-Attempt May Be Made to Buy Off the Insurgent Leaders.

Madrid, Oct. 12 .- The cabinet today held a four-hours' session, during which the decision previously arrived at regarding the recall from Cuba of General Weyler was confirmed. El Heraldo makes an announcement

that the captain-general of Porto Rico will be appointed acting governor of Cuba, pending the arrival of Marshal Blanco.

In reply to an inquiry by Premier Sagasta, Captain-General Weyler has cabled the following statement to the government:

"The principle which constitute my character, as well as my well-known military history, are a strong guaranty that I have never created, nor will I ever create, any difficulties for the constituted government, be that whatever it may. I have always been and in every case shall be the first man to accept, respect, obey and enforce the gov-ernment's orders. I would not allow any demonstration to go beyond the expression of personal affection and approval of my policy. Weyler."

In reply to a number of Cuban senators who had offered their support to the government. Premier Sagasta said that the government would devote itself first to the pacification of Cuba and would then introduce in the island a model administration. The government, the premier added, considered that the pacfication of Cuba would facilitate the restoration of peace in the Philippines, where the situation is now serious.

Spain Is Hard Pressed.

London, Oct. 12. - An American diplomat here says the condition of Spain is even worse than the correspondents depict. Whoever is sent to Cuba, he adds, will attempt to buy off the insurgent leaders. The diplomat further says the Spanish government is so hard pressed for money that it is attempting to sell all the public lands buildings that can possibly be and spared. Not only have the soldiers been unpaid since March, but the pension lists are in arrears.
