CAMPAIGN AGAINST LICENSE STARTED.

A good citizens' open-air mass meeting last Thursday drew together about 40 in answer to hand bills distributed over town. Supt. C. F. Clapp, Miss Farnham, Mr. Hollinger, Prof. Robertson and the chairman of the meeting, Dr. Bishop, made addresses, and a number of others spoke briefly on how to "plan for a campaign against licensing saloons in Forest Grove." Rev. Daniel Staver and Messrs. Markee and Harris were appointed to select a principal committee to conduct the campaign, choosing Supt. Clapp, J. J. Patton, T. H. Adams, Prof. Robertson and Dr. Bishop.

The remarks of Supt. Clapp, which follow, indicate the sentiment of the meeting:

Now, if we are to have saloons in Forest Grove, the ordinance that would permit it after we vote NO is the poorest that I know. Now, they will publish in this ordinance what we are to have if we vote to have a saloon; that is, that the saloon will have no mark to show that it is a saloon—there will be no screens, and there can be no other business with this. There can be no other door than the front door where men could pass in and out without being seen by people on the outside. I guess that there could be no place for a man to keep his beer. There can be no beer sold to a minor, to a woman or to a man in a drunken condition. In this saloon, keep in mind, there can be no billiard table, or amusements of any kind. (Inquiry from listener: Were chairs mentioned?). No, I do not think that chairs were mentioned. It means that, it will close at 11 o'clock at night, and can't open before 6 in the morning. There can be no other place in the city where (and here the speaker repeated a long list of liquors) can be sold, except in this saloon. The license is not to be more than \$1,000 or less than \$500. The man has to put up a bond of \$1,000. The fine for selling enough of any one kind of liquor that would make a person drunk, \$10. A man that is found on the street drunk is to be locked in jail.

Now, that is the ordinance that the people will want if they are to have a saloon. There are two or three things that I would like to say. In the first place it indicates only what the saloon, the thing that we are to vote on, is, whether we will have saloons in Forest Grove or not. The council gave me to understand that if the people of this city wanted a saloon, then they would license a saloon. There is not a child of a drunken father who would not vote against it. But they are all barred out; the majority, of course, will rule, but the only people that can vote on this are men.

To me it seems perfectly fair, and I am satisfied that if we do not get in and rustle, we will get voted down. Two men stopped me on the street and said that they were not in favor of a saloon, but if we are compelled to have this thing go on, why, let's have a little revenue. It would be just as hard to stop these blind pigs after we get a saloon as it is now. And in the meantime this saloon will be grinding out drunkards. (Now he tells a story.)

A saloon means not only a blind place, but it means that they will try to put temptation in a man's steps. All men who are law-abiding citizens want to protect the women. That is the way that all these large cities have prohibition. If prohibition can be had in a large city, then we can have it here. It seems to me tonight that we are going to have a great fight, and if we are defeated we will go down with our colors flying. I think we ought to have a fine campaign for the next two weeks. I would not at all be surprised but that we get Mr. Stone to speak to us. When I was in Chicago it was my business to visit 40 saloons every Sunday to bring men to God. But still I do not think that it is good to put a good many people in the water to catch one fish.
