Mayne Abbott has a second-hand Charter Oak cook stove which will be a bargain for the first man or woman who wants it.

One stand man at the Forest Grove Fourth sold 30 dozen oranges, two bunches of bananas and eight sacks of peanuts, and then ran out of goods. There was a big crowd and they were liberal in their patronage. The swing man had the biggest day's run he had ever known, the cane stand was cleaned with its day's sales.

The Cong. church people have been figuring with Portland parties for the new church building. An opportunity will probably also be given local contractors to bid on the work before any definite decision is made.

How about your printing? If you get it of The News it will be a little better and not so expensive. Costs nothing to inquire.

The Times has explained its attempted joke about many Forest Grove married men carrying in their pockets the likeness of an attractive young lady by saying it is that of the model whose head appears on the silver dollar. His narrow escape from bodily harm for his vulgar story about "slipping on the head of the stairs" last winter seems not to have broken Mr. Hoge of his habit of applying ehest-nutty tales to local people.

You cannot afford to neglect your eyes. Better have them tested (it costs nothing) by Mayne Abbott, the expert optician at Abbott & Son's.

Besides the steady shipments of carnation cream, 3 cars a week, about 40 bushels of potatoes go out regularly on the every-other-day freight. About three tons of cherries have been shipped to Portland, and considerable wool is going out.

The close of the Goddess of Liberty contest resulted in the choice of Miss Alice Reynolds, the daughter of an old soldier, now deceased, and who, besides being attractive, has won admiration by her independence in making her own livelihood as an employee of the Pacific Coast Condensed Milk Factory. She received 730 votes of the total 1439, jumping from fourth place, Miss Manche Langley 352, Miss May Bailey 196, Miss Curtis 114. The other 47 votes were distributed as on the previous day, among half a dozen candidates. The fund was \$71.95 richer by the contest.

Some of the college and Cong. church people have been getting acquainted with Forest Grove during the week, three parties visiting the "Iron house" and the "Waverly" and receiving a courteous reception. A Klondiker who was discovered at the first refreshment parlor was pressed into service as guide to the other by one of the parties. One of the visitors with difficulty escaped the hospitable intentions of an Irishman who recognized in him a countryman and could not realize that their tastes did not agree.

The new road south of the railway will soon have its bridge, Contractor J. W. Goodin having a considerable part of the lumber already on the ground.

Walter Hoge & Co., the Forest Grove Times, has its extensive printing plant, one of the most complete in the state, according to the Times, assessed at \$400, and the gross value of all property appears on the assessor's roll as \$475.

## COUNCILMAN JOHNSON FINISHES HIS ROAD.

The new county road extending the Alex. Todd road to the Forest Grove railway station, has been opened, the damages paid, fences put up and the road is about ready for travel, mainly through the untiring efforts of Councilman Neils Johnson, who has devoted many days to soliciting and collecting the money and seeing that it was used to the best advantage.

The subscriptions, which have all been paid, total about \$320.00.

## ELI J. HAINES WILL CONTEST.

The county court was Wednesday busy with a lively contest in the estate of Eli J. Haines, late of Forest Grove, who died about two years ago leaving a will which provided that if W. B. Haines, a son of the deceased, should pay certain legacies named in the will he should become the residuary legatee without filing any inventory, the estate amounting after payment of legacies to about \$4000.

Attorney S. B. Huston prepared the petition for probate, attended to the proof of the will and prepared necessary entries for the clerk, but an effort was made to close the estate without his assistance. The effort proved a failure, and as no fees were forthcoming to Attorney Huston, and W. B. Haines having denied any knowledge of the services rendered by Huston, and claiming E. W. Haines had talked with Huston concerning the matter without authority, Mr. Huston petitioned the county court to reopen the estate and direct the payment of his fees amounting to \$25. The hearing was rather spirited, but the court very promptly ordered the estate reopened and the fee paid. It is understood that the case will ultimately go to the supreme court.

## THE PROSPEROUS NEIGHBORHOOD ABOUT SCHOLLS.

Scholls can proudly boast of being one of the most prosperous rural districts of the entire county. It is situated in a beautiful valley, dotted here and there with prosperous and well improved farms. It maintains two live stores, a bustling tile factory and a busy saw mill. The latter two enterprises cover something over four acres and are operated by the firm of Goner & Powell. The mill was but recently set up and has already made an enviable record. It has a force of 19 men at work in the yard, and a crew of 15 out in the timber. A modern 50 horse engine is in operation and a huge Simmons saw turns out an average of 16,700 feet (log scale). The tile factory has a drying capacity of 50,000 3-inch tiles, and is prepared to dry by means of steam. Besides the tiles, bricks and building blocks suitable for cellars and house foundations are put out in large quantities.
