The week's vote in the most popular lodge competition, Tillamook railroad, S. P. cut-off and several other articles of general interest have for lack of space been carried over for the next issue.

Miss Zelpha M. Knight has been elected principal of the public school. She is one of the few women in Oregon who are at the head of a large school, having seven assistants. Miss Knight is a native of Iowa, was graduated from the Fremont, Neb., Normal School, and for five years has been teaching in the public schools of Denver, Colo. Her father and mother, Mr. and Mrs. J. Knight, reside in Forest Grove. Mr. Edmond Carlton, of the Albany High School, was elected by the directors here when Mr. Martin, an Indiana teacher, declined the principalship, but the Albany directors made an offer of increased salary, which induced Mr. Carlton to remain. Miss Knight happened to be in town on her vacation, and the directors persuaded her to take the position. There will be one more assistant teacher than last year, and an addition of four rooms will probably be made during the vacation, one being finished at the present time, so that the expenditure will only be about \$2,000.

PACIFIC UNIVERSITY STUDENT WINS A PLACE ON CHAUTAUQUA, N. Y., GYMNASIUM TEAM.

A. C. Gilbert, a student of Pacific University as well as a member of the Multnomah Amateur Athletic Club, and one of the most promising young athletes in the state, succeeded in winning a place on the gymnastic team at the annual try-outs at Chautauqua N.Y., this summer.

One hundred and seventy contestants entered the try-outs, which were open to both professionals and amateurs, and Gilbert's success in making one of the team of five, picked from 170 of the best men of the country, is a creditable record.

Those who won places with Gilbert were: Dr. Anderson, physical director of Yale; Dr. May, physical director of the University of Michigan; Dr. Clap, physical director of the University of Nebraska, and Champion Moyser, of New England.

These try-outs are the leading athletic events at Chautauqua, and are annually contested by many of the physical directors and other leading athletes of Eastern universities. The team gave its first exhibition at the assembly amphitheater on July 19, nearly 20,000 people being in attendance.

Gilbert was a student at Pacific University, at Forest Grove, playing quarter back on the Varsity eleven during the past year, and is spending his summer vacation at Chautauqua. He holds several good records at the present time, and bids fair to be a leader in the Valley intercollegiate track meets next year. He is a son of Frank N. Gilbert of Portland.

Road Supervisor H. H. Clark through the donation work has put out 1187 yards of rock on the Gales Creek and Thatcher roads. The cost to the county was \$421 for crushing the rock, which was given as a subsidy to induce the farmers to subscribe for placing it on the roads. Besides this lasting improvement the regular work of grading and ditching was done at an additional expense of about \$400. The cost was only about 40 cents a yard, a good piece of work cheaply done and very much to the credit of the supervisor.

Ex-Senator E. W. Haines is going to put in a dam right away by the old Lee falls, 12 miles distant from here by road and seven miles in direct line, gather up its electrical power and transmit by wire to his other plant, coupling the two and developing several times the present energy, so that steam will no longer be needed to furnish Forest Grove with lights. A sidewalk on the west side of the Greenville road to the city limits ought to be ordered built, as there is more travel than the present narrow strip of plank will accommodate. Dr. Rnetz has one of the neatest residences in town, besides there are half a dozen other families to be benefited, and the patrons of the doctor and others who have to use the walk are entitled to as good facilities as other streets of less importance possess. No part of town where people live ought to be without some sort of a sidewalk to the business section.
