One John McPherson, who has been employed at the condenser and lived in the east part of town, brutally beat his daughter Monday morning, bruising her badly, then decamped on his wheel for parts unknown, and so escaped arrest on the warrant sworn out before Justice J. H. Wirtz, by the young woman's mother. The News a few weeks ago referred to this same person in an editorial on "Stern Parents and Wayward Children," and this father who was so strict with his child has revealed his true character, which is often better concealed but no less exists in parents of the Roman type, who have no sympathy with their children and are inflexible in their discipline.

This is believed to be more satisfactory than paying a flat price, and will probably net the grower of good prunes more than heretofore.
