Tuesday night robbers broke into Peter's Saloon and stole \$14.00, then tried to force the door of the Southern Pacific depot but failed. They finally succeeded in raising a window, and found that the money had been removed from the till. The robbers then left the city. One of them was captured Wednesday morning and is held for examination.

A. C. Probert, the Dayton banker, has finally been seen, and it is supposed he is well on his way to the east side of the continent. Mr. Probert has had a checkered career. Within recent years he has been behind four bank failures, the head of a hospital which turned out doctors for a fee of \$10, and arrested in Chicago for the fraudulent use of the United States mails. Three of these adventures were in the year 1903. It appears that Mr. Probert had an idea that if he came out to Oregon, in a valley town, he would be far beyond the bounds of civilization, or at least be where no familiar face could detect him or justice overtake him. It would be, indeed, difficult for a man to find a place on the face of the earth where he could live unknown to his former acquaintances and unfollowed by his former deeds, be they good or bad. Probert at least found this true. The result is another bank failure and a rich business and farming community saved from a heavy loss. Fortunately it is estimated that the loss of depositors will be light, as most of the deposits were withdrawn. Until the books can be carefully examined the exact loss cannot be ascertained.
