AN ARTISTIC STAIRWAY.

A Pretty Way of Decorating and Building It.

The straight stairway, while very useful, mars the looks of the hall, particularly when it has a dark turning, unlighted by any window.

The picture shows how this may be remedied. The stairway shown is of oak. It is broken by a broad landing and takes a turn to the right. On this

landing there is a grandfather's clock, and a carved seat under the long, narrow window, which is given a quaint appearance by the casement effect and the small panes. This window has a full curtain of soft green silk. The green and red walls are covered with gay little water colors or prints, and the whole atmosphere is one of cheerfulness.

An effort will be made by the Pomona grange of Jefferson county, N. Y., to have a uniform programme for all subordinate granges.

Secretary Freeman of the Ohio state grange reports an increase in membership of 2,000 in that state during 1903. The amount of money received from all sources was \$10,387.39, and there is, altogether, \$14,835.92 in the treasury.

Desirable Fowls on Small Places.

The Polish are a class of poultry very much liked by fanciers and breeders who have small places and can give them the proper attention, says American Agriculturist in presenting the accompanying cut. They are probably

the handsomest class of poultry, their large topknots and brilliant coloring making them very attractive. The White Crested Black are solid black in color except the topknot, which is pure white. The fowls are medium in size and lay beautiful white eggs.

Hastening the Rhubarb.

Give the rhubarb plants in the garden a heavy dressing of fine old compost. If you wish a few early stalks place kegs or boxes over some of the plants and heap over them some horse manure.

One Thing and Another.

Kansas has a seed corn breeders' association limited to twenty members.

It has become an annual practice for the Montana experiment station to feed a car load of steers and lambs for shipment when finished.

Oat straw when dried and well cured is an excellent feed for sheep. They are fond of it, and it assists in putting on fat rapidly.

A fair outlook for the canning industry throughout the central west is reported by Orange Judd Farmer.

The cost of storing apples in cities varies from 10 to 12½ cents per barrel per month and from 40 to 50 cents per barrel for the season, from October or November until May 1, according to the Iowa experiment station.

An ordinary Illinois cow is reported as producing about 4,721 pounds of milk annually and 173 pounds of butter fat, equivalent to 202 pounds of butter.
