Press Correspondent New York State Grange

### GRANGE INSURANCE.

Magnitude of the Business in the Great Grange States.

Farmers' mutual fire insurance companies have made a tremendous growth during the past few years. And since the Patrons of Husbandry have become so powerful in numbers and influence they have found the insurance feature of the Order more and more popular until today there are flourishing grange insurance companies in at least fifteen states, carrying about \$120,000,000 in policies, strictly among members of the Order.

Some interesting statistics have been gathered by the New England Homestead bearing on the subject. In Connecticut grange insurance has been in force for sixteen years, and the 1,500 policies now cover a value of \$2,044,000. The average cost per thousand is \$2.40. Maine carries \$9,050,000 in 9,008 policies at an average of about \$2.60 per thousand. Massachusetts has over \$1,000,000 in 850 policies and has been in the business for two years only, as the state forbids the incorporation of any kind of a mutual fire insurance company without at least \$1,000,000 in risks when the charter is applied for. New York has twenty-two grange companies, carrying \$58,738,632 in 38,450 policies. Losses and expenses for three years amount to \$396,000, the average yearly cost to insured being \$2.25. Some of the New York companies carry as much as \$9,000,000 and only two of them less than \$1,000,000 in risks. The law limits the business of mutual companies to three counties in that state. Pennsylvania, with eight companies, comes next, with \$18,209,000 in risks carried by 9,833 policies at an average cost of \$1.93 per thousand since organization. New Hampshire has \$6,000,000 in insurance on farms in 4,174 policies and has been in the business for sixteen years. Her fire losses in 1902 were \$11,866. Michigan carries \$12,000,000 in insurance. There are about twenty companies in that state, mostly new ones, and State Master Horton says that the average rate since organization is between 80 and 90 cents per thousand. Other states have grange insurance as follows: Kansas, \$2,142,000 in 1,582 policies; Ohio, \$8,396,000; Colorado, \$237,000; Delaware, \$643,000; Rhode Island, \$200,000; Washington, \$260,000; West Virginia, \$200,000; Oregon, \$560,000.

The strong feature in this Patrons' insurance is the high quality of selected risks among the most desirable class of farmers and the economy with which the business is managed.

### When J. M. Barrie Lost His Smile.

J. M. Barrie once presented the prizes at the Dumfries academy, where he was formerly a pupil. Among other things he said: "I remember one prize I got which had rather disastrous results. It was awarded by the girls of the school by pebiscite to the boy who had the sweetest smile in the school. The tragic thing was that my smile disappeared that day and has never been seen since."

### Reindeer Hair.

A person clad in the garments made from the hair of the reindeer will not sink in the water.

### Japan's First Steamer.

The first steamer owned by Japan was presented to the shogun, on behalf of Queen Victoria, by Lord Elgin, the first British minister to Japan. It was a small yacht of 400 tons named the Emperor.
