

Hazelwood Talks

Best Separator

of the readers of "Hazelwood Talks" ask us what separator is the best. The U. S. is the best made for farm skims the most cream from (holding the world's record) fewer parts to keep clean, or of operation, is less liable to be broken by accident or misuse, and all else, it is built to last. We have this best of separators for our patrons, we bring them here by the carload and stand the freight charge ourselves, selling the machines f.o.b. cheaper in Portland than anyone can buy them for f.o.b. Bellows Falls, Vt., where the great manufactory is

To stimulate interest in this region, we will sell separators to all dairymen, our patrons or not, and will same terms and cash dis-

growth as a creamery concern upon our being able to ob- tain a large supply of cream from our patrons. Nothing will help us in this as placing the best separator made on the dairy farms to Portland.

confirms our judgement in this. S. is the fact that we sell U. S. machines through our patrons who have bought them any other way. When a man buys a U. S. and uses it every year, seeing how it earns over and over again in saving, and sees how little it costs for oil, how little it is to keep it running, how simple it operates, and instead of being broken by ordinary use it keeps

after year skimming just as easy, and running just as easy, it makes him enthusiastic about his separator. He tells his neighbors about it and that sells more separators of the same kind. For every machine we sell by the little separator we do, five are sold in the same territory by the U. S. separators already in use on farms.

Tip This Out

Mail to the Hazelwood Cream Portland, Oregon.

Send me Separator Catalogue containing article on "The Separator Industry." I have.....cows.

ers—You want the very best of seed and field seeds. Martin & supply you.

Gaston
