The hop picking season is upon us again and with it comes an outing for hundreds of people and at the same time it means the earning of the winter supplies for many families, the pocket money for as many more, and a general boon to the tradesmen of the county. The growers will receive a big price this fall and again will the general circulation of currency be increased. The Willamette valley has nothing to complain of as our worst seasons are equal to the average season in the east.
