A Peculiar Ornament.

Berlin has probably one of the most peculiar ornaments for a reading room that has ever been seen in a similar position in a civilized country. This is a gravestone which stands, large and massive, in one corner of a small room. It is not only a gravestone, but is in its legitimate position at the head of a grave. The history of its location in the house is interesting. It was not put up in the house, but the house was built around the stone. Its original position was in the burial grounds in the churchyard at St. Hedwig's.
