HANG THE PRISONERS!

An Exclamation That Was Interpreted as an Order.

The young laird of Lochnow was a character in the Scotch camp life of the early eighteenth century. He was cool in action and full of fun in daily life. One day he was detailed to command a burial party, and as he strolled over the battlefield his orderly came to him in great perplexity.

"Sir," said he, "there is a heap of fellows lying out yonder who say they're only wounded, and they won't let us bury them like the rest. What shall we do?"

"Bury them at once," replied young Agnew, without moving a muscle of his countenance, "for if you take their word for it they won't be dead for a hundred years to come."

The man saluted and started off in all simplicity to carry out the order, and Agnew had to dispatch a counter order in haste to prevent his joke from becoming a tragedy.

This recalls an "o'er true" tale of border life. Some Galloway moss troopers were brought before Sir William Howard, who was an enthusiastic mathematician. He was deep in his studies when the prisoners were marched into the castle courtyard, and a lieutenant came running up to get orders as to their disposal. Enraged at being interrupted, he cried, "Hang the prisoners!" and went on with his work.

He finished his problem and went down with a cheerful mind, only to learn that his exclamation had been taken for an order, and the prisoners were all hanged.

If you can't tell all you know about any one, don't hint that you can tell something and make it worse.—*Atchison Globe.*
