Notice for Publication
Land Office, Oregon City, Oregon,
October 10, 1904.
Notice is hereby given that in compliance with the
provisions of the act of Congress of June 3, 1878, entitled
"An act for the sale of timber lands in the States of
California, Oregon, Nevada, and Washington Territory,"
as extended to all the Public Land States by act of
August 4, 1892, James N. Rice, of Clatskanie, county
of Columbia, State of Oregon, has this day filed in this
office his sworn statement No 6510, for the purchase of
the NE 1/4 of Section No. 13 in township No. 2 N,
Range No. 6 W, and will offer proof to show that the
land sought is more valuable for its timber or stone than
for agricultural purposes, and to establish his claim to
said land before U. S. Land Office at Oregon City, Ore-
gon on Tuesday, the 27th day of December, 1904. He
names as witnesses:
Henry Kratz of Clatskanie, Oregon, Sarah E. Fisk
of Clatskanie, Oregon, George W. Dailey of Clatskanie,
Oregon, Fred C. Whitten of Portland, Oregon.
Any and all persons claiming adversely the above-
described lands are requested to file their claims in this
office on or before said 27th day of December, 1904.

ATHLETICS IN GERMANY.

**Wrestling is One of the Most Popular
Forms of Exercise.**

Wrestling is one of the most popular
forms of athletic exercises in Germany,
and it seems as if the heavy and mus-
cular build of the Germans peculiarly
adapts them for this kind of sport.
The general public interprets the
word "athlete" as meaning a wrestler,
weight lifter or "strong man." When
the English style of athletics was in-
troduced into Germany, it was termed
"light athletics." Wrestling is termed
"heavy athletics." In every town
there are many clubs indulging in
"heavy athletics," and numerous pub-
lic contests are arranged, in connection
with which challenges to "all comers"
are issued. Here one can often witness
a pitched battle between science and
brute power—see an "all comer" of
stupendous build, probably a butcher,
brewer or furniture remover, laid flat
on both shoulder blades in the most ap-
proved style by a little, wiry fellow as
slippery as an eel. On the occasion of
the world's championships held in Ber-
lin an open arena, roofed only in the
center, where the wrestling took place,
was erected, with tiers of seats for the
public all around. As luck would have
it, the weather proved boisterous and
the public shy of the fair. The cham-
pionships ended dismally, and the im-
presario, unable to pay the men's re-
tainers, very discreetly decided to
"leave town."—Fry's Magazine.

Flying Fish.

Flying fish swim in shoals varying
in number from a dozen to a hundred
or more. They often leave the water
at once, darting through the air in the
same direction for 200 yards or more,
and then descend to the water quickly,
rising again and then renewing their
flight. Sometimes the dolphin may be
seen in rapid pursuit, taking great
leaps out of the water and gaining
upon his prey, which take shorter and
shorter flights, vainly trying to escape,
until they sink exhausted. Sometimes
the larger sea birds catch flying fish
in the air. The question whether the
flying fish use their fins at all as wings
is not fully decided. The power of
flight is limited to the time the fins re-
main moist.

The Meaning of Orange Blossoms.

The orange tree is regarded as a
prince among trees and the emblem of
genius. A peculiarity of this tree is
that it bears fruit and flowers at the
same time. Its leaves are evergreen
and as it grows older it grows in beau-
ty and fruitfulness, its blossom filling
the air with its fragrance. It is in-
deed a fit emblem of marriage promise
and hopes. The orange tree is consid-
ered typical of love because, though its
fruit is golden and its flavor and scent
delicious, its rind is bitter, and as every
one knows who has experienced it Cup-
id's dart causes pain. The orange is
emblematic of gratitude as well as of
genius and love.—Philadelphia Inquirer.

The First Ice Cream.

A French chef who prepared a snow-
like dish for the Duc de Chartres in
1774 is said to have been the first to
make that cool luxury known as ice
cream. Lord Bacon was possessed of
the knowledge that there was a process
of congelation by means of snow
and salt. But to him this was a scien-
tific fact, and he little dreamed of the
idea that in after years this congela-
tion would prove such a delightful re-
freshment.
