THURSDAY, MAY, 4, 1905

If the book Mrs. Chadwick is going to sell is as negotiable as some of her Ohio writings, she ought to do well as an author.

Why can't Washington county have a map? It seems too bad that a county as prosperous as this should be without so useful an article.

It seems that the "bossed" newspaper eventually turns up its toes to the daisies. The St. Paul Globe, known for many years as Jim Hill's paper, and used only to meet the ends of the afore aid James, has, after 23 years' existence suspended publication. The Baker City Herald, established for the same purpose, only by different persons, has also gone glimmering. Newspapers are business propositions—and tough ones at that—and must be run on business methods.

Andrew Carnegie, in his vain effort to give away his millions, has made a \$10,000,000 endowment for the comfort of college professors who have seen better days. Now, Andy has the right idea. We hope he will give them another ten millions. We believe in the maintenance of educational institutions and poorly paid professors. We believe too, that the newspaper editors are in the same category (only, of course, at the foot of the class) and should be maintained in the same manner, for surely they are, correctly speaking, not stall fed.

We hear much about forging to the front, taking time by the forelock, seizing the bull by the horns, and the like, and also that the man with the tail-hold is ignored. Nine men out of ten wisely follow, and succeed, where one does who charges around at the front all the time. If you miss the fore-lock, seize the tail. It is the jing on more than the particular old that counts. The man will go just as fast and near as far who has hold of the tail as the one hanging on to the horns; besides, he can hold on better and is in less danges. Young man don't be too anxious to get rapidly to the front, but hang on to what you have, and you will get ahead in the world just as fast as you deserve.—The National.

SPECIAL ORDERS SUPPLIED ON SHORT NOTICE

GEO. G. PATERSON,
PROPRIETOR
FOREST GROVE, OREGON.

CENTENNIAL NOTES

The Boston Herald will send a large party of New England teachers to the Lewis and Clark fair.

Workmen are now building the main entrance at the fair. There will be twenty turnstiles for entrance, with a number of exit gates.

Officials of the war Department and the Interior Department have arrived from Washington and are hard at work installing the exhibits of the executive branches of the government at the fair.

Oregon's mining display at the Exposition will show astonishing rich deposits of gold, silver and copper, with specimens of gold from very rich new discoveries that run as high as \$20,000 to the ton.

The Fair Japan concession building on the trail is now in course of construction. It will be finished, the concessionaire says, a week before the opening day. This is to be one of the most interesting features of the Trail.

The Easter dress parade at the Exposition was gorgeous. Many thousands of people entered the Exposition gates, the day being bright and balmy. Everybody was astonished at the rapid progress of the work of finishing the Exposition.

Two special trains, magnificently equipped, will bring to the Exposition in July several hundred of the leading business men of Denver, under the auspices of the Denver Commercial Club. In the party will be a number of millionaires. This promises to be the most elaborate commercial "jerket" ever undertaken in America.

Irrigation in the Milk River Valley.

Montana is coming in for a big share of the general prosperity of the country and it will only be a few short years when she will rank with any of the Northwestern states in agricultural greatness. The recent act of the Interior Department of the United States setting aside \$1,000,000 toward reclaiming three or four hundred thousand acres in the Milk River Valley is but a beginning of a much faster development of this section as the needs grow apace. Already the agricultural worth of this to be famous valley has been adequately demonstrated in the results which have followed the irrigation works already established. It has been successfully proven that all kinds of agricultural products grow in great abundance wherever irrigation is used. The soil is naturally rich and needs only moisture to make it yield prolifically. The Great Northern Railroad furnishes adequate transportation facilities, its main line practically cutting the valley in two. The fact that the Government has decided to begin immediate operations will prove a great incentive to the people of that section who have always believed in the future of their country and will open to settlement a vast area of rich land to the homeseeker and investor.

An Irishman's Dilemma.

They were cracking "hard nuts" in the smoking room after the toils of the day were over. Some difficult cases of conscience had just been related where a conflict existed between duty and inclination, and one of these stories suggested the following "Irish difficulty":

"As I sat fishing one day," said Con MacMahon, "I fell asleep. A terrible thing happened. There I was in a tiny, wee boat, with two colleens, Kathleen an' Maureen, faith, an' didn't I dote on Kathleen, though sorra a bit she cared for me. This is a contrary wurld, especially in Kerry, for Maureen it was aisy to see, liked me better than any of the other bhoys, though meself could hardly bear the sight of her. But sure she was Kathleen's friend so I had to put up with her company.

"Well, an awful storm came on, the waves rose mountain high, an' the girls called on all the saints to protect an' save them. There was no chance with three of us in the boat. It had to be lightened; what was a body to do? I was fair distracted. Kathleen I couldn't part with, an' darn't throw Maureen into the angry waters. Can any o' yez tell me what I did?"

Con's intelligent and interested audience suggested different ways of salvation; none were correct.

"I awoke," said the story teller. "Yer all seem to forget I had been asleep."—Short Stories.

Discriminating Buyers

KNOW

That they can always depend on getting their money's worth whenever they make a purchase from us. But what is really more important is the fact that people who are not expert judges of values are served just as well—in other words, we treat everybody alike, everybody gets full value for every cent spent over our counters.

Price Isn't Everything With Us

Just because an article costs little money it may not be cheap. If it is made of poor material it's dear at any price. So when we call an article cheap, we mean that it has intrinsic value—that it is made of dependable material—that it is sold at less than the regular price. We have some thing to interest you this week and the prices speak for themselves.

We Serve You Better

No matter whether you are interested in specially low prices, or whether you care more about size of assortment. We take pardonable pride in the manner in which our stocks are kept up and we are always on the qui vive so that nowhere else can you find your every day necessities at prices as low as those we quote you every day in the week. Just come and take a look at what we have. You'll find that you can depend on our statements both as to values and price.

We Will Fill Any Order for You

If you have been in the habit of sending away for your goods to some of the large mail order houses, we would like you to come in next time you have orders. We will prove to you that we can fill the order with better goods for the same money. In addition, we save you the freight charges and the expense of sending your money and lastly, we take every risk of not satisfying you. You don't have to pay a cent until you see whether the goods are what you want. It's simply a matter of dollars and cents to you so why not get the most you possibly can. Let's prove it to you.

Special Values in Hosiery and Underwear

The word "special" in this case means out-of-the ordinary, in fact these values are so much better than regular that you can only appreciate them by examining them. But the lots are limited so better not wait, or the other fellow may get what you wanted.

Good Clothes for Men and Boys

"Good Clothes" with us means clothes well made of good material. You prefer that kind, don't you? Well, then come where you can always be sure of getting them no matter how low the price and this week our prices are particularly interesting to economical buyers. See our window display of trousers.

Satisfactory Shoes Both in Style and Price

Quality is understood of course—we can't sell anything but good shoes. When these three are combined it's an easy matter to sell the shoe and that explains why our shoe department is always busy. If you are not now a customer of ours, suppose you try us on your next pair. You won't loose out.

Stylish Effects in Shirts and Neckwear

The new styles appeal to dressers of good taste—nothing guady about them but plenty of chance for individuality to show itself.
