THURSDAY, MAY, 18, 1905

Make your plans for June sixth.

Judge DeHaven of San Francisco is assigned temporarily in the late Judge Bellinger's stead, and will try the land fraud cases which come up next month.

The ordinance requiring persons contemplating building, to get a permit from the council, will be enforced from now on. Heretofore no attention was being paid to this ordinance, hence this notice.

Tuesday, June sixth has been designated by the Lewis and Clark fair authorities, as McMinnville, Forest Grove and Hillsboro day. Now is the time for all persons in this section to begin preparations to take part. This should be a red letter day for these three cities.

Vice president Fairbanks will be present at the opening of the Lewis and Clark fair on Thursday, June 1, and make the opening address. At 4 o'clock in the afternoon of that day, President Roosevelt will press the button at Washington, which by direct wire, will set the machinery in motion. It will then be 12 o'clock here.

What sort of influence does Francis J. Heney have over President Roosevelt anyway? The last scalp to be taken by Heney is that of the U. S. Marshal Matthews who was retired by the president at the instigation of the said district attorney a few days ago. Francis J. had better look a little out for there'll come a day of reckoning for his recklessness.

Our attention has been called to the fact that a large sign board should be placed at the depot, on which might be read something like this: "Forest Grove, half-mile away, population 2000, good schools, churches, business opportunities and finest agricultural community in the world," etc., for the edification of passengers who don't know of such a town as Forest Grove. The small expenditure of money that it would take will do more good towards advertising the town, than the same amount in any other way. This small matter should not be delayed.

GEO. G. PATERSON,
PROPRIETOR
FOREST GROVE, OREGON.

After an illness of short duration, Judge C. B. Bellinger, of the United States district court, at Portland, died at his home in that city. The Judge was born in Illinois 66 years ago, and after getting a common school education, attended the Willamette University but did not graduate. He was appointed to the position which he held at death, by President Cleveland in 1893, and has filled his office well. The funeral and cremation were held Sunday.

Home Vs. Outside Industries.

Should home town industries be protected? Are town halls, high schools, hotels, public libraries, churches, doctors, etc., desirable in your immediate neighborhood?

What is a town hall for? For public gatherings and entertainments. Good entertainments cost money. Destroy the home town industries and the home town spirit languishes and dies. With the town gone the people go.

Who will then pay for first class public entertainment? Who will then support the high school?

Who will then patronize first class hotels?

Who will keep up the church? What first-class preacher or doctor will come to a dead town? They will go where the people are.

Where are the people going? To the large cities. Why? Because too many people are sending their money to the large cities. When money goes to the large cities, the good teachers, good preachers, good doctors, follow to get the money--your money. The results will be poor teachers in your home schools, poor preachers in your churches, doctors that you are afraid to employ, druggists who you can't trust to fill a prescription safely.

Can you expect first class professional men to remain in your locality when you send your money to the city? No! When you patronize mail order houses you pay money into the city plutocrat's purse. How? By killing home industries, driving skillful doctors and teachers to the city because they can't afford to stay with you.

You deprive your children of good teachers, your wife and daughters of social life, your entire family of medical service and religious opportunity, turning over all these benefits to the city man. Is he to have entertainments and you to take what's left?

Buy at home and keep your money in your home town. Unless you do you will have no town, no respectable schools, no churches, no social pleasures. Just humdrum routine, like horses and cows.—Exchange.

INFORMATION

For Young Women Who May Go to the Lewis and Clark Centennial Exposition at Portland.

At the time of the Centennial in Philadelphia, in 1876, the Young Women's Christian Association, then six years old, sent out circulars to warn girls against coming to see the Exposition with the idea of getting work. Notwithstanding this there were hundreds of girls stranded who exhausted their small savings in three or four days and found no work; how to protect them was a problem which is well remembered by those who were managers of the Association at that time.

Desiring to meet these conditions we make the following suggestions:

1. See to it that you have money enough for an emergency and for your return home.

2. See to it that before leaving home you learn from a reliable source that your destination in Portland is a safe one.

3. See to it that you accept no directions from either men or women on trains, if unknown to you, and that you report to the conductor any advances made. You must depend upon yourself and the railroad officials for information concerning trains. Any questions will be answered by the Traveler's Aid Agents to be found at the stations on the way. They will be women with badges.

4. See to it that you have an authorized Traveler's Aid card of identification.

5. See to it that you apply for these cards to your Organization, Society or Guild.

6. See to it that before accepting employment in Portland, through advertisement or otherwise, that the Exposition Traveler's Aid Committee endorses it.

7. See to it that before going to any lodging or boarding house that the Exposition Traveler's Aid Committee recommends it. The address of the Portland headquarters of this Committee is 312 Oak street, Portland, Oregon.

We Back Every Article Sold

And we back every statement we make in regard to the goods in our store--and when we make this statement we mean exactly what we say. "If any article bought in our store fails to give satisfaction, all you have to do is to notify us and we will "make right" in such a way that you will be satisfied."

Our Mail Order Proposition

We suppose that your only object in sending out of town for certain goods is to get better prices than you think is possible here. If that's the case we would like to have you consider this proposition. Next time you make up your list for an order to the catalogue house bring it in to us and we will submit our figures. If we don't save you any money on your order, besides the freight charges, send in the order, but if we can show you that we will sell you the same or better goods for less than catalogue prices, we ask for your business, and that's the only basis on which we solicit you patronage.

Our Clothing Combines Style and Quality

And at fair prices, just because our clothing is a little better made and of better material is no reason for us to ask more than other stores charge for mediocre grades. Take a look at our window display, then come in and examine the material display, and workmanship, you will be pleased.

We Want to Sell You Dress Goods

And we know that if you will give us a chance to "show you" we will sell you; our line this season contains absolutely everything that has been mentioned in the fashion journals as particularly stylish and in addition, of course, everything in staple goods, prices will suit you.

Well Known Corsets

Well known for their comfort and fitting qualities, in light and medium weight materials, in just the shape you need for your particular figure.

Faultless Fitting Footwear

The material isn't everything, the price isn't everything, the style isn't everything, the fit isn't everything, you don't often find them all combined in one line, we know that after much search we have succeeded in finding such a line of shoes, come in next time you want a pair for yourself, your wife, boy or girl, you will get suited in every respect.

Extraordinary Values in Underwear

It isn't often that we can quote such very unusual prices on good reliable underwear but this is one of the occasions. The lots aren't very large but you will find what you want if you get here soon enough.

A Good Hat---Not too Dear

Our hats are made of real fur felt, they will hold their shape and color and we are satisfied with a small profit, so we can sell you a good hat for the price you have to pay in exclusive stores for only mediocre qualities, that's why we sell so many good hats.

Want a New Stylish Shirt?

If you do, and don't care to pay a stiff price just drop in and look over the line that we got in last week, you'll find what you want.
