

CARNATION ON THE MAP

Orders from Postal Department Finally Establishes Post Office at the Depot

South Forest Grove Too Long—Some Other Name Will Have to be Suggested

After considerable indecision on the part of the authorities at Washington, orders have come to Postmaster Bump which finally establish Carnation now and for all time. Orders were first received that the office would be discontinued after October 31, 1905, the date was then made December 15, and again December 30, but when these dates arrived the time was extended to February 28, 1906—but after all this confusion all former orders have been officially rescinded and Carnation will live.

An attempt was made to change the name of the place from Carnation to South Forest Grove but South Forest Grove did not suit the postal authorities. That name was thought too long and if the name is to be changed a less lengthy appellation will have to be substituted. The final settlement of this matter will be received with gratification by those who patronize the suburban office. It has been a great convenience to the many people of that vicinity and especially to the Condensed Milk Company, the mailing business of which is not inconsiderable and which formerly compelled them to make the trip of a mile to the up-town office several times a day.

Eugene has the typhoid fever, Hillsboro has a regular old-fashioned seven-year itch, while Marshfield has been visited with the measles.—Marshfield Advertiser. In the meantime Forest Grove has enjoyed good health and has an electric line in course of construction up town. Moral: Locate in Forest Grove.

PACIFIC LOSES

Whitman Aggregation too Much for Local Contenders

The debate held in Marsh Hall, last Friday evening, proved to be both a very interesting and an instructive dissertation on the merits of railroad rate legislation. Although the local collegians went down to defeat it was not an inglorious one. The Whitman representatives were worthy opponents and demonstrated clearly their superior knowledge of the question in handling rebuttal points. The "sons of Marcus" have twice "shown" P. U. in two clean victories, well earned.

The work of Pacific's men was good though Rasmussen may not have been up to the standard established by him in the preliminaries. One particularly admirable feature of the debate was the way in which the decision was received—hardly a dissenting voice could be heard from anyone who attended the debate. Whitman won her victory.

Board of Trade Meeting

There will be a meeting of the members of the Board of Trade on Friday evening, March 2nd, at 8 o'clock in the Council Chambers for the purpose of electing a board of directors for the ensuing year. This is an important meeting and it is hoped there will be a large attendance.

BEAVER CASE ON TRIAL

Suit Over Possession of Hides Takes Place Before Justice Stevens at Dilley

Dilley Judge Takes Case Under Advisement—Important Game Laws Involved

A case known as the "beaver case" and which has caused no little commotion in local circles, came to trial at Dilley last Tuesday before Justice Stevens. Sometime ago the state game authorities brought action against J. C. Wilson in Justice Wirtz's court and a small fine was imposed upon the defendant for killing beaver. Wilson had attempted to dispose of the beaver skins by shipping them east and the principal evidence brought against him in the former trial was a package of beaver skins taken from the express office addressed to some relative in an eastern state. These skins were retained by the court but were claimed by the defendant, who has brought suit against Justice Wirtz for the possession of the hides. This case came to trial last Tuesday at Dilley, as was above stated, and Justice Stevens has taken the case under advisement.

Judge Hollis, the counsel for the plaintiff, took the ground that no law prevents the selling of hides, only the killing of beavers, and that Wilson is entitled to the pelts. E. B. Tongue was the attorney for the state and ably presented his argument, based on certain statements made in the previous trial by the plaintiff, which the attorney claimed had committed him. The trial consumed the entire day. Quite a throng of Dilleyites and others from that end of the county followed the proceedings to the end with great interest and the decision of the justice will be awaited with concern by all in the county as well as the game authorities all over the state.

Reduced Rates

During the Summer Season of 1906 reduced round trip excursion rates will be in effect from the East to all North Pacific Coast Points, such as Portland, Tacoma, Seattle, Victoria, Vancouver, etc.; also to Spokane and San Francisco, Los Angeles and San Diego.

Rates from Chicago via direct lines to the North Pacific Coast and California will be \$75 and from Missouri River points, namely: Council Bluffs, Omaha, Atchison, St. Joseph, Kansas City, also St. Paul and Minneapolis, rates will be \$60. Rates to Spokane will be \$5 less than to the Coast or \$70 from Chicago and \$55 from the Missouri River and St. Paul.

Rates one way via the Shasta Route and California will be \$13.50 higher than those above mentioned.

These tickets will be on sale daily, commencing June 1st and continuing until September 15, with final return limit of October 31st.

A. L. CRAIG,
General Passenger Agent.

New Labor Party

A labor party has been organized in Portland by the adoption of an emphatic platform and resolutions, outlining a course of action. The Union men of Portland are at the head of the organization and they seem to be working on principles laid down by the Labor Party of San Francisco, which has been wonderfully successful in controlling that city—having been able to keep their mayor in office through three or four consecutive administrations, against the combined Republican and Democratic forces. It is not likely that this party in Portland, however, will be as strong. Their principles, so far laid down are good but conditions in Portland are not similar to those in San Francisco. They will have a ticket in the field in the coming

election and it will be interesting to watch their efforts. The Labor movement is an important one and the success or failure of such a move will have a decided effect on future labor conditions in Oregon's metropolis. Big strikes have followed labor successes everywhere and big strikes have so far not been felt by our community or neighboring communities.

CAR SHORTAGE TO BE RELIEVED

New Cars for Oregon Lines Now on the Way to the Coast

New freight cars for the Harriman road in Oregon are reported to be coming West, and are expected to reach Portland during March. Their progress westward is regulated largely by the securing of loads for the rolling stock, as it is unprofitable to haul cars across the continent empty. They are being brought as fast as possible.

The Harriman road placed orders for 5400 new freight cars for delivery during 1906, and a large percentage of this number will come to the Oregon roads. The consignment is divided into box, gondola and stock cars, and will go far, it is believed, toward relieving the car shortage which annually embarrasses shippers in the Northwest.

It is not expected, however, that any railway can do away with a shortage of cars during the rush seasons, for the Pennsylvania and New York Central lines, believed by many to be the best railroads in the world, have difficulty in securing all the rolling stock needed during the Fall shipping season.—Oregonian.

SENATOR HAINES TALKS

Addresses Local Y. M. C. A. on "Business."

Senator E. W. Haines delivered an exceedingly interesting talk before the Y. M. C. A. last Tuesday evening, upon the practical side of the business life. He stated that the young man who was looking forward to a business career not only should but must begin at the bottom if he is to be assured of any success, no matter what the line of business is that he chooses. The college man has only those advantages over his other less fortunate associates as far as his better education goes and sometimes his best years are wasted before he has had the training that his brother has had for business purposes and which is essential to success in business.

Another important part of the address dealt with our monopolies and economic conditions concerning which Mr. Haines seemed to have no terrible fears. Although the Standard Oil Company may indulge in evil practices he thinks that such big concerns are demanded by the conditions and when the conditions change all will be well. And the present prosperous condition of the country does not show that all the effects of combination have been as bad as usually portrayed.

Quite a number of students from Pacific College at Newberg and also from McMinnville College attended the debate last Friday evening.

Last Thursday evening the choir of the Christian church gave a Martha Washington social at the home of Rev. C. F. Sanderson. The guests were attired in costumes representing different nationalities. After games were played refreshments were served. The proceeds are to be used for the purchase of new music and books for the choir.

"Old Ocean" does not seem to realize the fact that Tillamook is a prohibition town. A barrel of whiskey, a cask of wine and two barrels of linseed oil floated in on the surf, along with wreckage, last week. Further south, along the coast, a man noticed a barrel playing about in the surf and after many weeks landed it. The barrel was covered to a depth of from two to three inches with barnacles, indicating that it had been long afloat. It was found to contain 52 gallons of whiskey.—McMinnville New-Reporters.

CORNELIUS BANK SOLD

Hillsboro Capitalists Invest In Cornelius—J. A. Thornburg Will Be Cashier

T. H. Adams President of Savings and Trust Company of Vancouver

T. H. Adams of this city, who a short time ago founded the Cornelius State Bank, and has been conducting it since, has sold his interests, to a group of Hillsboro capitalists. The deal was made just recently and those principally involved in the transaction are: Hon. S. B. Huston, A. S. Sholes, and the Schulmerich Bros., all of Hillsboro. The stock will be controlled by the same men who are interested in the Hillsboro Commercial Bank but for the present at least, J. A. Thornburg of Forest Grove, will be cashier.

T. H. Adams goes from Cornelius to accept a position as president of a Savings and Trust company in Vancouver which was recently incorporated with a capital of \$50,000.

Mr. Adam's success in business has been notable and this new position, it is thought here, will be very ably filled by him.

GEARIN IS REGISTERED

This is Done by Appointing Secretary Deputy County Clerk

The registration of United States Senator John M. Gearin as an elector of Multnomah County was received from Washington, D. C., Monday, by County Clerk Fields. To be a candidate for re-election it is required that Senator Gearin be registered as a member of the Democratic party. To obviate the necessity of a trip by Mr. Gearin from Washington to Portland to register, County Clerk Fields appointed John E. Lathrop, private secretary of Senator Gearin, as Deputy Clerk. This was possible because Mr. Lathrop while he is in Washington with Mr. Gearin, is still a resident of Portland. Mr. Lathrop registered Senator Gearin, and his report to County Clerk Fields states that the residence of Senator Gearin is room 616, Portland Hotel, and Precinct 16.

Tendered a Reception

The judges and debaters were tendered a reception last Friday evening by the literary societies of the college. Both E. L. Smith and Gov. Chamberlain were called upon for remarks and succeeded quite well in entertaining the students. The governor expressed himself as always being a friend to Pacific University and always being willing to serve her in whatever capacity he was able to perform.

Died.

The friends of Mrs. Dr. Hovey will be saddened to learn of her recent death in New Jersey, a suburb of New York City. Mrs. Hovey was living with her sister, Mrs. DeMar in New York at the time of her death, which was caused by peritonitis. She was a resident of Forest Grove for a number of years and was an aunt of Mrs. Frank Kane. Mrs. Hovey was about 50 years of age, a very affable and estimable lady and well liked in Forest Grove.

Railroad Rumblings

Only a small amount of actual constructing has been done this week on the street railway, but some important progress has been made in the way of concessions from the Southern Pacific. Superintendent Fields was in the city the first of the week and the S. P. has granted the Forest Grove Transportation Company the rights of putting in switches so as to enable the direct receiving and forwarding of freight from

the Southern Pacific yards to the business portion of the city. The alley behind the business section of Main St. will be cleared through the block so that the business men on that street will be able to receive their freight directly from the cars into their warehouses immediately behind their places of business. As soon as the teamsters can place the ties on the street, work will begin again and the laying of rails and setting of poles will follow.
