It seems queer that a city of any pretensions toward civic pride, such as we understand Forest Grove to possess, should so long tolerate a cross-walk such as crosses Main St. at LaCourse's Store. It is the most frequented piece of walk in the city and especially at mall time it is crowded. It is also the narrowest piece of walk in the city and if you should care to pass a fellow pedestrian either you must butt him off into the mud or—if he has an advantage in avoidpous—take to the mud yourself which never fails to be from 6 to 18 inches deep. A comfortable bath can generally be had without extra exertion, right square in the centre of the walk, yet we have heard nothing from "the powers that be," toward remedying it.

SIBERIAN HOSPITALITY.

A Charming Visit, With a Somewhat Terrifying Climax.

Detained at the Siberian village of Krivochokovo, M. Jules Legras remembered that he had a letter to a notable of the place and hastened to present it. M. Gautier in his book on Russia describes in M. Legras' own words the cordial hospitality with which he was received and also tells of the difficulty which concluded his charming visit.

"They had detained me till 10 o'clock in the evening," he writes, "by repeating, 'Why are you in a hurry?' and I was on the point of making my departure when I heard the mistress of the house say in a low voice to her husband, 'Shall I send for the carriage?' To which he replied, 'No.' At this word a shiver passed over me. Doubtless this host, who had made me send away the coachman, was unaware of what his refusal meant, else he would have said to me, 'Here is a sofa; sleep here.'"

"My situation was perilous, but what could I do? At the end of a few moments I rose to take my leave, and, having asked if I could get a cab, was met with the reply that at this hour none could be obtained.

"Krivochokovo is a village whose population constitutes the very fotsam and jetsam of Siberian civilization. The village has neither streets nor lights nor police. It is considered a cutthroat spot, where honest people shut themselves tight at night.

"I had neither stick nor revolver, and I had on me a large sum of money. Finally, I was ignorant of the exact position of my inn, situated over a mile away. First of all, dogs threw themselves upon me. I shook them off and started as best I could.

"The night was inky black. Amid the irregular clusters of houses there was no regular street by which to guide myself. As I hesitated I heard a 'Who is that?' It was a watchman of a pile of wood who halted me. He directed me, and, giving me a large branch that would do as a stick, he said: 'You are wrong, barine, to go about this way without a revolver. The place is not safe. May God protect you!'

"As I approached another cluster of houses a watchman sounded his rattle menacingly and dogs flew at me savagely. When this watchman approached I induced him to accompany me. He informed me that the evening before a traveler who was staying at my hotel, having started early to catch a train, had been assassinated about ten paces from there. Finally we reached the inn. It took a long time to make them open the door, but I finally got inside and reached my room, trembling with fever and fatigue, and fell down helplessly, only conscious of having passed an hour and a half whose remembrance will remain with me long. As for my so amiable host, whose hospitality might have cost me my life, he will doubtless never know of this adventure."
