 Word comes from Greenville that two young men from Kansas have located in this new burg already and are clearing away the brush and burning logs and stumps, in real old Oregon style, preparatory to putting in a crop. Such ruthless waste of wood undoubtedly seems a shame to these boys fresh from the prairies.
 WANTED—An elderly farmhand, who understands dairying; also, an elderly woman as housekeeper; must understand poultry; German preferred. Call on V. Collier, 5 miles south of Cornelius, or address Cornelius, R. F. D. No. 2.

Hugh W. Sparks made a trip to Vancouver Tuesday to procure judges for the Pacific-Washington debate. On account of the primaries no Oregon men could be prevailed upon to act so at the eleventh hour Vancouver had to be called upon. The men from the northern institution who will take part in the contest tomorrow evening are Harlan Trumbull, Clarence Martin and Victor Zednick all of whom are experienced college debaters and will put up a gamey fight. Our men are well known, they are Mr. John Peters of Hillsboro, Mr. Chester Fletcher and William B. Rasmussen. In the last debate our men, it is true, were defeated but by a clearly superior bunch and the Washington delegation will have to be well trained and well prepared to win the debate.

For Sale
 Horse, harness and buggy, also Sundry and harness.
 M. H. SHIPLEY.

The Grubbs Case.
 The case in which the state of Oregon was the plaintiff against A. M. Grubbs and which was thrown out of Recorder Hoge's court some weeks ago came to trial before a jury in Justice Wirtz's court Tuesday. The trouble was over a line fence that the complainant, Mr. Sikes, claimed encroached upon a road that he used frequently and that efforts to clear the road had not led to any more satisfactory conditions between the men. The jury decided that the case of Mr. Grubbs was not a strong one and the state won the case. The action took up nearly the whole day the jury being out for about an hour before coming to a decision.

ODORS IN THERAPEUTICS.
Perfumes and Their Use in the Practice of Medicine.
 Odors, whether agreeable or disagreeable, are not causes of disease in the sense generally taken. They may disorder certain healthy functions by impairing nervous energy, by diminishing wholesome respiration and thus creating a predisposition to attack by disease.
 Severe faintness is sometimes observed to overcome persons upon their entrance into a room in which tuberoses are kept. Headache is often produced by the odors emanating from the hollyhock, lily, rose of Sharon or carnation. The odor of betony in flower is said to have caused intoxication in those who gather it. The making of infused decoctions and the triturating of roses, pinks, walnuts or colocyth are often accompanied by attacks of syncope.
 Attempts have been made to utilize odors in therapeutics. The odors of vanilla and heliotrope are credited with possessing a soothing influence over persons subjected to attacks of nervousness. The use of toilet water in the form of a spray will often restore those exhausted with the cares of business, social or domestic duties. In the east the use of perfume is considered a purifier, though we look upon it merely as a luxury. It is asserted that those who are employed in laboratories where perfumes are made or among growing flowers are healthy to an extent exceeding those not so employed.—Medical Record.
