As a result of the recent Earthquake and Fire in San Francisco, a large number of men are without employment. Please ascertain and advise immediately if any of these men can be given work in your vicinity, in any capacity.

In making your report, give names of industries and number that can be taken care of in each line. It is probable that many will be inexperienced in the lines desired, but a knowledge of the class of work will enable us to place the men to the best advantage possible.

REP. CENTRAL COMMITTEE MEETS.

Only a Few Come Together On Account of New Law.

The Republican County Central Committee held its first meeting in Hillsboro last Tuesday, organized and transacted some business relative to further action. Only seven members were present out of the thirteen elected. There should have been twenty-one members but owing to neglect on the part of some precincts to comply with the new primary law, which requires that central committees shall be put on the ballot by a petition just as all other officers, only thirteen were elected in the entire county.

Thos. H. Tongue, Jr. was elected chairman of the committee and Walter Hoge secretary. They were instructed by the committee to fill the vacancies caused by the conditions cited above. Each precinct will be canvassed and some one chosen by petition.

E. Burke Tongue was elected committee man and J. A. Thompson was chosen to represent this county in the first congressional district. The committee accomplished nothing of importance, except to adopt measures whereby each voter is to be especially urged to register before the June election. The registration books are again open and will be closed finally on May 15. The committee men who attended from Forest Grove were B. H. Laughlin of the west precinct and Walter Hoge of the south.

—Dance at the Rink Saturday night.
—Goldenrod Flour, guaranteed.
—Money to loan on farm security. W. H. Hollis, Forest Grove.

Good Listeners.

In conversing with one's friends nothing is so chilling as an apparent lack of attention and sympathy. It might be added that nothing is more repulsive than the listener's indifference common to the majority of our so-called cultured people. If when one is addressed she will remember to incline the body slightly forward an attitude of rapt attention will soon be unconsciously assumed and, whether worthy of it or not, new recruits will be added for the always popular, as the class known as "good listeners."

A Tough Problem.

The following letter received at the office has been referred to the Lancaster Literary society: "I married a lawyer and went to live in the house where he had lived with his first wife. I find a number of her clothes in a closet—to wit, one brown dress, two petticoats, three pairs of stockings, one pair of slippers and a black waist. How shall I dispose of them in a way that will be satisfactory to her relatives and the neighbors?"—Athens Globe.

The Real.

The great actress brings a dress over from Paris. It costs her \$1,000. She has to have four maids to help her get into it. When she comes out on the stage the public at once exclaims in rapture:

"This is indeed realism!"
What is she representing? Why, a Sicilian peasant girl.—Puck.

Remembered the Text.

A little Topeka girl came home from church the other day and was asked what the minister's text was. "I know it all right," she asserted. "Well repeat it," her questioner demanded. "Don't be afraid and I will get you a bedquilt," was the astonishing answer. Investigation proved that the entire thought of the sermon had been, "Fear not, and I will send you a comforter."—Kansas City Journal.
