Evidence of rebating has been found against the Pennsylvania railroad.

WILL ADJOURN EARLY.

Congress Not Likely to Continue in Session After June 15.

Washington, May 22.—Present indications point to an adjournment of congress about the 15th of June. The great debate of the session has been brought to a close, the railroad rate bill has been passed by the senate, and the way is now clear for the regular appropriation bills and other important legislation that demands consideration.

In the house of representatives the work is up to date. All of the big appropriation bills, except the sundry civil bill, have been passed by that body, and this last bill will be reported to the house just as soon as the house is ready to receive it. At the outside two weeks is ample to pass this bill and two unimportant appropriation bills yet to be considered, the general deficiency and the diplomatic.

In the senate appropriation bills have lagged behind on account of the debate on the rate bill, yet in spite of this protracted discussion the senate has found opportunity to pass the urgency deficiency, pension, fortifications, army and Indian appropriation bills, and will make short work of those now awaiting consideration, namely, the postoffice, agricultural, legislative, District of Columbia and military academy bills.

EXPENSES CUT IN ZION.

Salaries of Overseers Reduced From \$300 to \$60 Per Month.

Chicago, May 22.—W. G. Voliva, the present head of the Christian Catholic Church, announced to his followers in Zion City Sunday that between January 15 and May 10 he had reduced the expenses in the financial department of the church from \$9,800 per month to \$3,832 per month. This saving, he said, had been brought about by a reduction of the working force and a cut in the salaries of those retained.

In the same manner, said Voliva, a saving had been made in the ecclesiastical department that would amount to \$70,000 annually. Overseers who had been receiving \$300 per month were reduced to \$60. The pay of others was cut in proportion. His own compensation under the new adjustment, Voliva said, was \$100 per month.

These facts, he said, were some of the details of a report which he made Saturday to a committee appointed by Federal Judge Landis to investigate the condition of the industries in Zion City.

Voliva announced the resignation of John G. Excell, from the office of general ecclesiastical secretary, owing to lack of sympathy with some of the doctrines of the church.

The condition of John Alexander Dowie today was said to be practically unchanged.

Wo Gen Cannot Land.

Seattle, Wash., May 22.—Wo Gen, manager of the Wa Chong company, one of the wealthiest Chinese merchants of the Northwest, is to be deported. He made a trip to China recently to patch up trade relations, and did a great deal toward alleviating conditions caused by the boycott. When he returned a few days ago he was found to have trachoma, the dread eye disease, and was placed in the quarantine station at Port Townsend. Powerful influences have been brought to bear to nullify the order, but without avail.

New Signatories To Be Bound.

The Hague, May 22.—The government has submitted a bill asking the second chamber of parliament to approve a protocol which it wishes the signatories of the convention of 1899 to sign on assembling for the second peace conference, which declares that the powers not represented at the first conference, but which have been invited to attend the second, shall, by acceptance of the invitation, become adherents to that convention.

Turks Killing and Plundering.

Vienna, May 22.—Trouble in the Balkans between the Turks and Bulgarians is again very serious, and the latest reports from Baritz and Prochterje districts are to the effect that continual fighting is in progress. Turks are present in force, and are burning and pillaging villages, ravishing women and murdering men and boys.

OREGON STATE ITEMS OF INTEREST

RE-ELECT OFFICERS.

Boys' and Girls' Aid Society of Oregon in Good Condition.

Portland—At the annual meeting of the members of the Boys' and Girls' Aid Society, J. C. Ainsworth, W. B. Gilbert and Robert S. Farrell were re-elected directors, and Miss Helen F. Spalding was chosen to fill the vacancy on the board caused by the resignation of Mrs. W. A. Buchanan.

The annual reports of the officers showed the institution in a flourishing condition. Superintendent W. T. Gardner's report gave a thorough resume of the work accomplished by the society the past year. Under the surveillance of the society in Oregon, Washington and Idaho there are 498 children. Of these there are 70 girls who are in respectable homes in Portland. Assistant Superintendent Gardner has been appointed to look after the children who have been placed in private families to see that they are doing well. In addition to this assistant the society now has county advisory boards to look after the children in the different counties of the state.

OREGON STATE FAIR.

Preparations Under Way at Salem for Greatest Ever Held.

Salem—The State Fair board has begun preparations for the greatest State Fair ever held in Oregon. A portion of the money that would have been expended for premiums last year, when there was no State Fair, was used to make numerous improvements on the buildings and grounds in preparation for this year's fair. All main buildings have been repainted, stock sheds and race horse barns extended and improved and the racetrack has been regraded.

The board purchased a quantity of park seats and chairs from the Lewis and Clark fair, together with exhibit cases, all of which will be used this year to make the State Fair more attractive and comfortable. Many striking pieces of statuary and inside decorations have been removed from the Lewis and Clark grounds to the State Fair grounds, where they have been carefully repaired.

Epidemic Attacks School.

Aurora—A teacher at the public school recently discovered that one of the pupils had what she thought was chickenpox, and sent the boy home with a note to his parents to quarantine him. It proved to be chickenpox, but the pupil would not stay quarantined, and went back to school. The school directors consulted a physician. The doctor advised that the pupil be allowed to attend school, on the ground that he had already infected the scholars, and sure enough he had, and now half the children in town are affected.

Will Sentence Meldrum.

Portland—If Judge Wolverton imposes the maximum penalty on Henry Meldrum, former surveyor general for Oregon, he will go to jail with a sentence of 210 years of imprisonment hanging over his head. If the court imposes the heaviest fine the law allows, Meldrum will owe the government \$21,000. Judge Wolverton set Friday, June 8, as the day on which Meldrum will come before the court for sentence. A motion for a new trial is pending in the case.

Registration Short in Baker.

Baker City—Registration at the county clerk's office has been brisk, and it is believed that names entered since the books were reopened after the primaries will exceed 350, including those sent in from country districts. Time for registration has expired. It is estimated that there are 700 voters in Baker county who have not registered. Some of these will be sworn in at the polls on election day, but there will be a shortage of 500 to 600.

Berry Pickers Scarce.

Portland—Portland employment agencies are not only besieged by railroad contractors for laborers, but calls are now coming in from Hood river and White Salmon strawberry fields for pickers. Thousands of men and women are wanted for this work and the cry for help adds to the embarrassment of labor agents who are already trying with all their might to secure laborers for railroad and construction camps.

Ackerman Resolves to Retire.

Salem—J. H. Ackerman, state superintendent of public instruction, has announced his intention to retire from politics at the end of his next term. Mr. Ackerman has the distinction of being the Republican and Democratic nominee, although he only accepted the Republican nomination, and his name will appear on the official ballot only as the Republican candidate.

Klamath Land is Reopened.

Washington—During 1904-5 1,500,000 acres of public lands in the Klamath region of Oregon and California were reserved, pending investigations to determine the feasibility of reclaiming under the Klamath irrigation project. Half of this area is now restored to entry, the balance being reserved as lands reclaimable for reservoir sites or rights of way.

Hop Prospects Excellent.

Aurora—Hops in this section of the valley, the banner hop-raising district of Oregon, are further advanced this year than in former seasons at this time. There is a large acreage, and all the yards are showing well.

MAY RETAIN LICENSE.

If Solvent, Insurance Companies Will Not Be Ousted by State.

Salem—Secretary of State Dunbar, who is ex-officio insurance commissioner of this state, when shown the statement that California and Nevada insurance commissioners would drive out companies that quibble over the payment of San Francisco fire losses, said that so far as Oregon is concerned he cannot take any note of what the various companies do in California or any other state so long as they comply with the Oregon law which entitles them to do business in this state.

There is on deposit with the state treasurer \$3,100,000, in interest-bearing securities, which the 60 companies doing business in this state have put up to secure the payment of any loss they may sustain and which has been finally adjudicated against them.

Fifty-eight companies have put up \$50,000 each and two companies \$100,000 each.

Only one company has notified the commissioner that it cannot continue to do business in Oregon on account of California losses and that is the Traders' Insurance company, of Chicago. All agents have been notified to cease writing insurance for that company.

The \$50,000 on deposit will be held to pay any losses sustained by Oregon policyholders in that company, or until all its policies have been legally canceled, when the deposit may be withdrawn.

Mr. Dunbar said that refusal or inability of an insurance company doing business in this state to pay any of its California losses would not be sufficient reason for him to cancel their Oregon license.

All he is authorized to do is to look out for the interest of Oregon policyholders, and if the companies comply with the insurance statutes of this state they can continue to do business, as they are solvent. If any of them become insolvent they put themselves out of business without any interference on the part of the commissioner of Oregon.

Treasure Mine Sold.

Chicago, May 20.—Expressing the sentiments of senators and congressmen on the recent action of the senate committee in voting for a sea level canal, Edward G. Clark, correspondent at Washington for the Chicago Evening Post, says: "Suspicion that a systematic effort is being made in the senate to delay indefinitely the digging of the Panama canal has become a conviction. There is anger among the friends of rapid work on the isthmus and a well-defined and freely expressed belief that interests are at work to jeopardize the whole project. It is declared freely in Washington that, while it was supposed that the hosts of representatives of certain corporate interests who had been at the capital during the last few months were here for the purpose of watching railroad rate legislation, in reality most of them were here with the intention of using what influence was at their command to defeat the attempt to obtain a favorable report for a lock canal."

New Ditch Company.

Baker City—Articles of incorporation of the McCary Ditch company have been filed with the county clerk. The incorporators of the company are: G. J. Bowman, O. C. Johnson and C. W. Faull. The capital stock of the company is \$3,500 divided into 350 shares of a value of \$10 each. The purpose of the company is to handle, for the purpose of irrigation, the water from Powder river under the rights they have held for a number of years.

Cherries Ripening Rapidly.

Aurora—Cherries are ripening fast and all kinds of fruits are ahead of former years. The severe cold snap of two days in March had no appreciable effect on fruit trees in northern Marion county.

MANY SETTLERS MISSING.

Michigan Forest Fire Lays Waste to Hundred Square Miles.

Milwaukee, May 21.—A dispatch to the Staff correspondent says: Four known dead, a score or more persons missing, hundreds of families homeless, several millions of dollars in property burned, four towns wiped out entirely and a dozen more partially, five counties devastated and 100 square miles of territory fire-swept. This is the dreadful picture that the Northern Michigan peninsula presents today, after the worst forest fire since the Pestigo disaster in 1871.

General Superintendent W. E. Wells, of the Escanaba & Lake Superior railroad, along whose right of way the greatest loss occurred, returned tonight from a trip of inspection over the fire-stricken area, and says that the flames have gone down and for the time being the danger is over, unless a new gale arises to again fan the embers into flames.

The following summary briefly tells the story:

Peter Lafond, a cook, smothered in a lumber camp near Katos, body found tonight.

Three unknown children dead at Quinnesec, Mich., separated from their parents while the village was burning and perished.

Scores of homesteaders and woodsmen are missing and many have probably perished in the flames.

Territory devastated, five counties, Marquette, Menominee, Delta, Alger and Dickinson. The territory fire-swept is 100 miles square.

Towns totally burned:

Talbot, Mich., 100 population, only a few houses left standing.

Quinnesec, Mich., 1,000 population, only one house remains.

Saunders, 150 population, all wiped out.

Niagara, Wis., 500 population, all wiped out.

Towns partially destroyed: Northland, Cornell, Antine, Spring Valley, Kingsley, Woodlawn, Foeter City, Sala and Metropolitan.

KILL CANAL BY DELAY.

Purpose of Sea Level Party on Panama Enterprise.

Chicago, May 20.—Expressing the sentiments of senators and congressmen on the recent action of the senate committee in voting for a sea level canal, Edward G. Clark, correspondent at Washington for the Chicago Evening Post, says: "Suspicion that a systematic effort is being made in the senate to delay indefinitely the digging of the Panama canal has become a conviction. There is anger among the friends of rapid work on the isthmus and a well-defined and freely expressed belief that interests are at work to jeopardize the whole project. It is declared freely in Washington that, while it was supposed that the hosts of representatives of certain corporate interests who had been at the capital during the last few months were here for the purpose of watching railroad rate legislation, in reality most of them were here with the intention of using what influence was at their command to defeat the attempt to obtain a favorable report for a lock canal."

"Senator Platt, of New York, voted for a sea level canal. It is stated that Mr. Platt did not attend one committee meeting at which the matter was discussed. Everybody knows why John T. Morgan, of Alabama, voted in favor of a sea level plan. He is bluntly honest. He does not want a canal, and he has the grace to say so."

"The movement that began in the senate committee to get a sea level canal has behind it, however, a tremendous force and it is the intention of powerful senators to endeavor not only to get the sanction of the senate itself, but to bring every possible pressure to bear on the house to induce it to recede from the position it took in favor of a lock type. If the powerful ones succeed, the day of canal digging is far in the distance. The people may be obliged to speak on this matter in no uncertain way."

Thieves Steal Baggage.

San Francisco, May 20.—The work of Detective O'Dea has resulted in the capture of a gang of trunk and luggage thieves who reaped a rich harvest during the fire, who were planning to dispose of their valuable plunder in Los Angeles. Three of the men, who admit connection with the gang, are held at the Stanyan-street station. Through them the detective has learned the names of the Los Angeles "fence," has recovered three trunks and three suitcases, and has a line on 32 other pieces of luggage.

Gout Gains on Pope.

Rome, May 20.—When Dr. Lapponi visited the Pope this morning he found his patient improved, although the pontiff passed a somewhat restless night. Owing to a slight rise in temperature, Dr. Lapponi ordered the pope to remain in bed for several days. Although the condition of the Pope is not grave, some apprehension is felt at the frequency of the gout attacks through exposure to fatigue.

Die of Heat in New York.

New York, May 20.—Two deaths and some prostrations from heat were reported here today. The official thermometer stood at 85 degrees during the afternoon, but on the streets the mercury rose to 95.

GRAFT BY RAILROADS

Interstate Commerce Commission Summons Pennsylvania Men.

SOFT COAL OPERATORS CRUSHED

Independents Promise Worse Revelations Than Have Yet Been Made Public at Former Hearings.

Philadelphia, May 22.—Railroad circles are agitated by the well-based report that, beginning on Wednesday when the Interstate Commerce commission will resume its sittings in this city, independent soft coal operators will go upon the stand and tell of the business wrongs they suffered at the hands of the railroads. A big independent operator who has been subpoenaed by the commission said today:

"Worse revelations than have yet been made public are to come out. It will be shown through independent operators how the small operators were pressed to the wall by the favored companies, which used the railroads as a weapon. In some cases they were driven out of business. Before we get through, the public will know that the acceptance of stock and gifts by railroad officers was the least of the wretched business."

William A. Glasgow Jr., counsel for the commission, said that he would not hazard a guess as to when the hearings would be completed. "They will certainly continue," he said, "until the railroads have had every opportunity to explain, if any such thing is possible, the most astonishing evidence of graft that has ever been made public. The commission will insist upon explanations, if any can be made, so that its final report to congress will be based upon not only these reports, but the railroad companies' explanation of them."

A large number of subpoenas were issued today, not only for a number of independent operators, but for a surprisingly large number of high officials of the Pennsylvania railroad.

TWO NEW RESERVES.

Forest Service Recommends Action in Southern Oregon.

Washington, May 22.—Senator Fenton was today notified that the forest service contemplates recommending the creation of two new forest reserves in Southern Oregon, at an early day to be known as the Fremont and Goose Lake reserves. They will embrace land withdrawn several years ago under the name of the Warner mountain withdrawal. The aggregate area, according to present plans, will be nearly 3,000,000 acres, about two-thirds of the area being in the Fremont reserve. The reserve will lie in the northern part of Klamath and Lake counties and the southwest corner of Crook county. The Goose Lake reserve will embrace the southeast portion of Klamath and the southwest part of Lake counties.

Plans showing the outline of the proposed reserves have been submitted to Mr. Fenton, with a request that he make any suggestions which he may deem proper. The senator will consult residents of Klamath, Lake and Crook counties and promptly lay their views before the department. If good reasons are produced, showing why any land included within the proposed reserves should not be reserved it is probable that such land will be eliminated.

The irregularity of the outline of these two reserves, following in many instances quarter section lines, indicates the care that has been exercised to include only such land as is believed to be adapted to forestry purposes. Large areas of agricultural land have been eliminated and it is the opinion of the department that what remains is chiefly important for its timber, or because it serves to protect the water supply of Southern Oregon. The construction of the Klamath irrigation project makes it highly important that the water supply of that region should be protected. The reserve is to be created at this time partially on that account.

Must Go To Jail.

Washington, May 22.—The Supreme court of the United States today rendered a decision in the case of United States vs. Senator Ralph Burton of Kansas. The decision was against Burton, affirming the decision of the United States circuit court for the eastern district of Missouri, by which Burton was sentenced to six months' imprisonment in the jail of Iron county, Missouri, and deprived of the right to hold office under the government. This is the second trial.

Report of Chinese Persecution.

San Francisco, May 22.—Mayor Schmitz has received a cablegram from the American consul at Chefoo intimating that there has been an attempt to create a sentiment against Americans by the circulation of false reports alleging the maltreatment of the Chinese in San Francisco. The cablegram reads: "Mail statement of Chinese consul on persecution." Mayor Schmitz handed it to Colonel A. E. Bigger, with a request that he reply at once.

Declare His Place Vacant.

Washington, May 22.—"If Senator Burton does not resign at once," a prominent senator puts it, "a resolution will be introduced to declare his seat vacant."
