Unloading Cars

The Southern Pacific wishes to call the attention of its patrons to the fact that there is a limit to the time that can be consumed in loading and unloading cars that are standing on the side-tracks. The rules issued to the agents expressly declare that 48 hours free time will be given and no more. The rule reads as follows: "On all commodities for loading or unloading

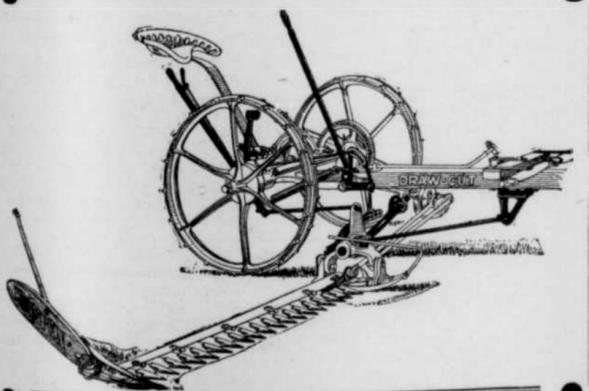

48 hours free time will be allowed" and all shippers should note that if this rule is violated, charges will be assessed according to the following:

"After the free time allowed under these rules has expired a charge of \$1.00 per day, or fraction thereof, for the first five days and \$2.00 per day thereafter shall be made and collected on all cars except tank cars, upon which the charge shall be \$2.00."

LOCAL CLOUTERS WIN

Cornelius Puts up a Good Game but

Loses—Score 7 to 6—

Close Contest.

Terrific Heat Drives Ladies from the

Grandstand and Players

Under Boards.

(BY FAT)

Cornelius? Sure you know where that is. That's where the folks from the college town go to water their stock and incidentally to moisten up their own talking apparatus. And moreover, that is the home of the Cooks, Suess, and many another lad who has won fame on the diamond. They still have ball players there that may become world beaters—or egg-beaters—some time. This historical sketch is merely a prelude to a report of the game played last Sunday on the local grounds, between Cornelius and Forest Grove, score 6 to 7, with Cornelius to the bad. The weather was so Satanicly hot that six pails of pura aqua were used, the ladies were driven from the grandstand, an anti-linen collar was melted and Tickey Brown had to seek the shade of a board between acts. Despite the terrific heat it was a good game with the exception of a couple of loose chapters. Toots Cardiff's long drive to the outfield fence and Koppke's three base hit were the features of the game.

Cornelius opened the matinee auspiciously by scoring the first two men to the bat, Van Blaracomb and Cornelius and a couple more in the second chapter. It was "23" for our boys the first two innings but in the third the visitors went up in a balloon and when they descended five local clouters, Davis, Koppke, Wintz, Cardiff and little Willie Schultz, had crossed the rubber. Koppke scored another in the fourth. In the third, fourth, fifth and sixth cantoes Cornelius chopped the ozone and laid down binglets that netted nothing, but in the seventh and eighth they pulled up a couple of notches, making the score 6 to 6. It looked for awhile as if the Congregation would have to sing in conclusion, "Blest Be The Tie," for the visitors came to the bat for the last time and still the score stood 6 to 6. But with one down in the last half of the ninth, little Willie, mentioned in the above paragraph, scored the winning run, making the final result: Forest Grove 7, Cornelius 6. The line up:

Cornelius	Position	Forest Grove
Cornelius	p	R. Schultz
H. Behrman	c	Brown

Van Blaracomb	1 b	Cardiff

T. VANDYKE LOSES BARN

Disastrous Fire Causes Considerable Loss to Verboort Farmer.

Early Tuesday morning the big barn of T. Vandyke was completely destroyed by fire. The cause of the

conflagration is a mystery. The only knowledge the Vandykes have of the disaster is that about 2:00 a. m. Tuesday, they were awakened to find the barn in one solid blaze, in which were four horses, two buggies, considerable hay, some chops and some chickens, one of the buggies being nearly new. The total loss was estimated at \$1,000 with not a cent of insurance. However, the owners are thankful that the misfortune did not occur at a time of year when all the crops would have been stored in the barn.

DISTURBANCE AT THE COLLEGE

Professor Bach Released and All Appears Quiet.

The disturbance at the college that during the past week has attracted its share of attention in local circles as well as in a broader range, has now to all appearances quieted down. The facts regarding the affair are exceedingly hard to ferret out and one of the surprising features is that the business men along the street were prevailed upon to sign a petition in behalf of one of the implicated professors when the facts of the whole affair are yet pretty badly mixed up and generally complicated. However, it seems that some of the professors labored under a misapprehension regarding the authority of an act in which President Ferrin enlisted the aid of Mr. Davis, a student, in a movement to acquire funds for the rebuilding of Herrick Hall and in which agreement it was stipulated that Davis was to receive some remuneration for his services. This was done without the knowledge of the Faculty but was fully sanctioned by the board of trustees—a fact not known by the members who raised the row. Prof. Bach seems especially to have been aroused at this act and immediately upon being made aware of the facts, planned a campaign against the president and by this action somehow thought he had hit upon an excellent method to disenthroned the dignitary who wields the sceptre at the university. His motives perhaps were founded upon previous differences that had arisen between himself and the head of the institution on several other occasions.

More complications arose from this start that perhaps we know nothing about and as the professors became more reckless and rash moves were made before a full investigation of facts or a just consideration of them was made. Of course many opinions on the affair are heard on every side and we cannot always consider, fairly, all the different steps that lead to the final developments. The dailies helped out some by giving us all kinds of news of the affair but the end finds Prof. Louis Bach, instructor of modern languages, looking for a new job. Prof. Geo. E. Coghill, instructor in sciences, has reconsidered his resignation, handed in last week, and will probably remain.

The real and fundamental reasons why Prof. Bach was released are not plain and can be turned over to the many unknown features of the affair, but it has long been observed that the professor has been openly hostile to the president, working against him in every way possible. Many of the petitions and other actions, of which most recently was the attempted effort on the part of some of the graduating class to mar the Commencement exercises on Wednesday morning, can be traced rather directly to Prof. Bach. His ability as an instructor is unquestioned and he has been at times very popular with the students which fact has helped considerably in his campaign against President Ferrin.

Undoubtedly Pacific University will be benefited by this change, however badly some may think other changes are needed. Pacific possesses an admirable corps of instructors but it seems that it's an exceedingly hard matter to find a faculty that possesses other worthy qualities at the same time.

50 Little Girls Wanted

SANITARIUM LAUNCHED

Stock Company Will Be Organized

and Hospital Built Immediately

At Cost of \$2500.

Fifty Shares Taken in Half As Many

Minutes at Enthusiastic Meeting

Tuesday Night.

At another meeting of those who are pushing the hospital project, held in Dr. Brown's office last Tuesday evening, complete plans for the organization of a stock company to go ahead with the construction of a sanitarium, were decided upon. It was also determined what the cost of such a building would be and reasonably full plans for the hospital were discussed at the meeting.

At a previous meeting held last week, a committee had been appointed to confer with the trustees of Pacific University regarding the feasibility of securing the old Indian School grounds in the west part of town and the old dormitory there now owned by Pacific University, and also to inquire further into the possibilities of turning this building into a suitable condition so that it could be used as a hospital or sanitarium. The aforesaid trustees, who met in Forest Grove a week ago Tuesday, made this proposition to the committee; that they would sell this property consisting of four acres, estimated by different real estate agents to be worth from \$2,000 to \$3,000, for \$1,500 to be paid for in five years' time, or ten if wanted, at 6 per cent interest. This was thought by the citizens, of which there were about thirty in Dr. Brown's office, and a very representative bunch, as a very reasonable offer.

At the request of the committee Mr. Starrett had submitted plans for the complete remodeling of the building which provided for 26 rooms, hall, bath-rooms and toilets, two furnaces to provide sufficient heating facilities, a veranda on the south side 20x30, including new roofing, ceiling and plastering, entire for \$2800. Mrs. Robb's offer of \$2,000 was reported and she, in order to remain in Forest Grove, will donate this for her keeping.

This committee also reported, that in order to facilitate the execution of these plans, that the company be incorporated and the citizens be asked to take shares. Five hundred shares at \$10 a share will be sold and the erection will begin immediately.

The committee that now has things under control and was appointed by Dr. Brown this week are: A. G. Hoffman, chairman, L. L. Hollinger, Dr. D. M. Ward, Rev. J. M. Barber, Sen. E. W. Haines, and Dr. Brown himself who was asked to go on. Those present were asked to start the list and over fifty shares were taken in a few minutes. The list of stockholders who subscribed at this meeting were: Dr. Brown, ten shares; Rev. Barber, ten; H. H. Haynes, ten; Dr. D. W. Ward, ten; A. G. Hoffman, five; A. R. Leabo, two; Walter Hoge, two; L. L. Hollinger, two; and W. K. Cartis, one.

Under such promising circumstances the necessary shares will soon be taken. A meeting will be held at Ver's Hall, Friday evening, at which the public will be invited and final steps taken.

To Our Correspondents

We would ask our correspondents to send us their copy so it will reach us Tuesday of each week where possible; also to sign their names to same—not for publication but that we may know to whom we are under obligations for same.

KAISER MAY COME

He and King Edward VII Likely to Meet at Jamestown Exposition.

Norfolk, Va.,—The London Daily Telegraph urges King Edward to pay a visit to America next year. The King's itinerary would include a visit to President Roosevelt at Washington a sojourn in Norfolk, Virginia, to witness the Jamestown Exposition, which in 1907 is to commemorate the settlement of America by English people. If King Edward decides to throw precedent to the winds and again visit America—he was here as Prince of Wales—he will also visit New York and Canada.

It is well known that the relation between the English King and Queen and the London Daily Telegraph are most cordial. When he was Prince of Wales, the present king was instrumental in having the proprietor of the paper knighted. It is therefore reasonable to assume that the warmth and enthusiasm of the Daily Telegraph over the question of the king's visit to America meets with the approval and sympathy of the monarch. It may be indeed, that the opinion expressed were inspired by a nod or a word from the king and it remains to be seen how the British people regard the matter as a whole. At present it looks as though the king may yet plant a tree on the grounds of the Jamestown Exposition, sit under the spreading branches of the great Powhatan oak which was a mature tree when King James granted the Virginia charter and drink from the old Indian Spring from which Pocahontas quenched her thirst.

That the Kaiser is more than likely to visit America and the Exposition may infer from a presumably inspired article by Herr Albrecht Wirth, Munich, one of the most distinguished professors at the Bavarian University, who is a noted writer on political affairs and in close touch with the Imperial Foreign Office. Herr Wirth thinks more than possible that Emperor William and President Roosevelt may exchange visits. To Mr. Harry S. George Tucker, President of the Jamestown Exposition, the Kaiser hinted that the German Squadron which will visit the Exposition next year, will be in charge of a member of the royal family and as he is full of surprises what is more likely than that he may command the Royal Squadron in person.

Both the King and the Emperor are sure of a royal welcome from the people of the first of American States.
