A HINT TO THE SPORTSMEN.

A Synopsis of the Game Laws of Oregon for This District.

As the time for hunting the big game is here and many of the sportsmen are hiking to the tall timber, the following game laws may do some good as a reminder. A license procured now is only good for the rest of the year that is until the last day of 1906 and not for a year from the time secured, and one is not even allowed to hunt on rented premises.

Licenses—It is unlawful to hunt or kill any game animal, fowls or birds protected by the law of this state without first procuring from the county clerk of one of the counties of this state a license therefor, which license the hunter must have with him and in his possession at the time of hunting.

Residents, \$1; non-residents of state, \$10. No license required of a man or member of his own family for permission to hunt upon his own grounds, but beware of hunting beyond your own boundaries.

Penalty of violation \$25 to \$100 with costs, or 5 to 30 days in jail or both.

OPEN SEASON FOR SMALL GAME.

Grouse and Pheasant—Limit 10 birds in one day. October 1 to December 1.

Grey Squirrel—October 1 to December 31. It is unlawful to trap, net, ensnare, rob nests, poisoning and unlawful to sell game animals, birds and fowl.

Penalties vary, running from the above to \$100 to \$5,000 or two months to two years in jail, or both.

OPEN SEASON FOR DEER.

Bucks—August 15 to November 1. Doe—September 1 to November 1. Fawn—Prohibited.

Night hunting and the use of dogs in hunting deer are prohibited at all times.

Limit on all deer. Five in any one open season.

FISH.

Trout—May be caught only with hook and line. Limit not less than 5 inches and 125 in one day.

Under penalty of \$20 to \$100 with costs or 10 to 50 days or both.

OPEN SEASON.

Trout and Salmon Trout—April 1 to October 31.

The use of dynamite, lime, poison etc., prohibited.

Dynamiting trout and other food and game fishes is made a penitentiary offense.

The law also prohibits the dumping of sawdust, planer shavings and lumber waste into trout or salmon streams. Also fishing within 600 feet below or 250 feet above a dam. Wire screens are required at inlets of any mill race or irrigating ditch taking or receiving its water from any river, creek or lake in which fish have been placed or may exist under penalty of \$50 or \$1,000 and costs or 25 days to 1 year in jail.

Sunny Alberta.

Four hundred and eighty acres of choice winter wheat land in Sunny Alberta, free from rock, brush or stumps, all tillable, hard wheat land, no waste land on it. You pay \$560 cash down and pay \$320 each year for five years with 6 per cent interest. By fencing and breaking this land, you can have the crops to make payments with, and, at a very low estimate, this 480 acres would sell for \$12,000 by the time the last payment is due. For particulars, see A. B. Thomas.

Reduced Rates

During the Summer Season of 1906 reduced round trip excursion rates will be in effect from the East to all North Pacific Coast Points, such as Portland, Tacoma, Seattle, Victoria, Vancouver, etc.; also to Spokane and San Francisco, Los Angeles and San Diego.

Rates from Chicago via direct lines to the North Pacific Coast and California will be \$75 and from Missouri River points, namely: Council Bluffs, Omaha, Atchison, St. Joseph, Kansas City, also St. Paul and Minneapolis, rates will be \$60. Rates to Spokane will be \$5 less than to the Coast or \$70 from Chicago and \$55 from the Missouri River and St. Paul.

Rates one way via the Shasta Route and California will be \$13.50 higher than those above mentioned.

These tickets will be on sale daily, commencing June 1st and continuing until September 15, with final return limit of October 31st.

SHOULD PAY MORE HEED TO FARMERS.

Founders of Agricultural College Intended School Make Intelligent Tillers of Soil.

There is a feeling through the state of Oregon that the Agricultural College should be developed more along the line of the original intention. The colleges of letters and arts are very well but the experiment farm and agricultural subjects should receive the greater attention. Dr. Withycombe and his staff have been doing the best in their power, with means at hand but have been handicapped because the agricultural end of the institution has been made the side issue instead of the main.

To this view the O. A. C. needs improvements on the farm, a new dairy barn, improved apparatus and better specimens of improved cattle quite as much as new dormitories or assembly halls or the like. With the needs of the dairy industry, the work of the Agricultural College is of practical worth. There is every reason why the agricultural districts should be closer to the college. Acquaintance has come through the work of the institutes.

Dr. Withycombe's valuable work in the way of forage plants has done much for agricultural Oregon. Through correspondence information of value along any line of farm business is available. That the main idea of the Agricultural College may not be subordinated to something else should be the aim of its management.—Rogue River Courier.

KING'S EVIL.

How Ignorance and Superstition go Hand in Hand.

A curious sight might have been seen in England a couple of centuries ago. At Whitehall or some other royal residence a little group of people would shrinkingly await the coming of the king, in order to be "touched for the evil." The specific "evil" was scrofula, and it was the popular belief that scrofula could be cured by the royal touch. Hence the common name for scrofula was King's Evil.

Nowadays we know that scrofula is a disease of the blood and that even were there magic in a kingly touch, no external treatment could cure scrofula. The medicine which cures scrofula

must deal with the blood. It must be able to eradicate and eliminate the poisons which corrupt the blood and breed and feed disease. When the blood is cleansed, the pimples, blotches, boils and other eruptions disappear, ulcers and sores are healed and the flesh becomes sound and healthy.

THE RIGHT WAY to cleanse the blood from scrofula is to choose that remedy which has cured thousands of people who suffered from scrofula in its most grievous forms.

"I am using a good many of your medicines in my practice," writes Dr. Joseph Fike, of Lost Springs, Marion Co., Kansas. "Ten years ago there was an emigration from Russia to this country and there was a lady in the company who was badly affected with that dreadful disease, scrofula. Her mouth and throat were in an awful condition, and there were lumps on the outside, below the jaws, the size of a hen's egg. Other doctors had been called and they said it was a fatal case. I felt confident that none of my remedies would benefit her any. It came to my mind that Dr. Pierce's Golden Medical Discovery was recommended for such cases, so I went to the drug store and bought one bottle and gave it to her to use as directed. Five bottles cured her and she is well to-day. She is married now and has three healthy children."

Dr. Pierce's Golden Medical Discovery judged solely by the cures it has effected is without doubt the most powerful and most perfect blood purifying medicine of the century. It is a radical remedy. It goes to the root of the disease. Some preparations containing mineral poisons such as mercury are offered as cures for scrofula. These medicines only suppress the symptoms of disease for a while and give the skin

a look of clearness, but after a time the suppressed disease like a smothered fire breaks out with a new violence.

It is the uniform testimony of those who have been cured of scrofulous diseases by the use of "Golden Medical Discovery," that the cure is permanent. In many instances the testimonial to the cure has not been offered until the lapse of several years proved how thoroughly and lastingly the medicine had done its work.

No class of people are more grateful for the blood purifying power of the "Discovery" than women whose faces have been marked and marred by the pimples and clear complexion which come back when "Golden Medical Discovery" has swept the blood clean of its corrupting poisons, are a source of its unfeigned delight to those who for years have had their beauty marred by some form of eruptive disease. Beauty begins in the blood, and the first step to beauty is to cleanse the blood of the corrupting impurities which weaken the body and befoul the flesh.

THE SCOURGE OF CIVILIZATION.

From half civilized or unsanitary countries come the plagues which decimate the teeming populations of the Orient. Sanitary science and medical skill have banished the plagues from among ourselves, but civilization has its own scourge in that form of scrofula which attacks the lungs and is popularly known as consumption.

Plagues are not persistent. They appear and disappear again for years. Scrofula of the lungs or consumption is a persistent disease. Every day of every year it gathers in its victims; one-sixth of all deaths from disease being attributed to consumption. Dr. Pierce's Golden Medical Discovery cures scrofula wherever it finds it. It eliminates the scrofulous poison from the blood and so the organs which are fed by blood are relieved from the scrofulous poisons which destroy them.

Obstinate, deep-seated coughs, bronchitis, bleeding of the lungs and similar dangerous forms of disease are perfectly and permanently cured by "Golden Medical Discovery."

"Dr. Pierce's medicine has not only benefited me greatly but it has done wonders for my two sons," writes Mrs. M. Hartrick, of Demer, Oswego Co., N. Y. "Both had scrofula. I have lost two daughters in less than five years with consumption and scrofula. My eldest son was taken two or three years ago with hemorrhage from the lungs. I troubled him for over a year. He took Dr. Pierce's Golden Medical Discovery and has not had a hemorrhage in over a year. My younger son had scrofulous sores on his neck; had two lanced, but has not had any since he commenced to take your medicine."

ABSOLUTELY RELIABLE.

"Golden Medical Discovery" can be absolutely relied on as a safe and sure medicine for diseases caused by a scrofulous condition of the blood. It cures disease of skin and scalp, eczema, salt-rheum, tetter, scrofulous sores and swellings, as well as scrofula of the lungs and other diseases having their origin in a corrupt condition of the blood.

Accept no substitute for "Golden Medical Discovery." There is no other medicine "just as good" for the cure of scrofulous diseases. FREE TO ALL. Dr. Pierce's Common Sense Medical Adviser, 1008 large pages and over 700 illustrations, is sent free on receipt of stamps to pay expense of mailing only.
