# STORM FOLLOWED THE SHOCK.

Earthquake, Fire, Wind and Lightning Terrified Valparaiso.

Valparaiso, Aug. 22 .- The loss of life by the earthquake of Thursday, August 16, probably will not be short of 3,000, while the property destroyed is esti-mated at \$100,000,000, and probably is far in excess of that sum.

The authorities are showing the utmost energy in the protection of property.

With the first terrible shock of the earthquake buildings collapsed, their walls falling with a tremendous noise. The inmates in many cases were unable to escape. The shock was followed almost immediately by a fierce storm, the wind prostrating the walls that had been weakened by the earthquake, and these broke trolley wires, which flashed incessantly. The second shock was even heavier than the first.

Five minutes afterward fires started in every direction, and immediately the whole town, which had been momentarily in darkness, was illuminated by gigantic flames. The firemen made a desperate fight, though there was but a reef in the Hawaiian islands, is little water, as most of the mains had been broken by the early tremor.

FOREIGN CAPITAL TO REBUILD.

Its Interests Are Large and Chilean Credit Is Good.

New York, Aug. 22 .- Quan Tonkin, Chilean civil engineer, who is now in New York, said last night:

"In Valparaiso local and foreign incerests are so great that it is absolutely certain the city will be rebuilt. The financial burden of rehabilitation will not be thrown on Chile alone, but also stration. on the numerous foreign interests, which include most of the nations of the world. Of the foreign interests I believe the English will be the heaviest osers, especially the many English fire insurance companies that suffered such in mind that Chile enjoys very high financial credit, especially in the London market, where her bonds are quot-

ed at 99% per cent. The external debt of Chile is about \$105,000,000, which has always been scrupulously served, and it takes only 21 per cent of the Chilean government revenue to serve this debt. The Chilean state railway alone represents nearly as much as the external debt, while the salt petre

lands represent four or five times as much more."

KUROPATKIN IS NEEDED.

Disgraced General Has Full Confidence of His Soldiers.

St. Petersburg, Aug. 22 .- Is General Kuropatkin, once the pride of the entire Russian army, war minister and fighter by nature, but whose laurels were trampled under foot by the victorious Japaneze at Liaoyang, in the earlier days of the fighting in Northern Corea and Manchuria, to be vindicated. and extend the open air sanitarium That is the question uppermost in the mind of every officer of the army tonight, and also the chief topic of dis cussion at the military clubs, on the question arising through the industrious circulation of a report that the czar has sent for the general and in-
