THURSDAY, AUGUST 23, 1906.

For the Good of the Community.

Local pride, love of home and the home town is one of the grandest and strongest of human feelings provided it has been started right from the beginning. The people of this beautiful little city have always been known far and wide for this feeling of pride in their home town. Our city has always heen known as a beautiful spot, famous for its large shade trees and for its eduestional facilities and its moral standing. But still, nothing should be left andone, each and every individual should help his neighbor. A spirit of comradeship should be cultivated for the upbuilding of the town. The merchant, the small tradesman, the country editor, the church, the institutions of learning-all should work together to that end. All should cooperate to protect and stimulate the trade of the town. The meeting of the Willamette Valley Development League which will be held in this city beginning Sept. 7th, will be productive of much good for Forest Grove. It will be a great advertisement. Wide awake business men will be our guests and many ideas and suggestions will be presented that will prove of much value to the people and business men of this city.

Experimenting in Oiling Streets.

To the many people of this town who have been thinking of the problem of oiling the streets of our city, the following may be interesting. It also gives an est mated cost. "Sprinkling the Salem streets with oil has actually begun, says the Salem Journal. Portions of Court street and Liberty street, in front of the property of Dr. J. H. Brewer, was treated to a coating of crude petroleum this morning.

So far, the indications are that it is

The work attracts a great deal of interest and hundreds of citizens passed around that way to watch the men dust and grease the road.

The experiment may solve the problem of Salem's dusty streets, and the success of this morning's effort will lead other property owners to adopt the same methods.

The oil was spread by means of the water sprinkler, and did not spread as it will when a regular sprinkler is constructed for the experiment to be conducted around the court house property tomorrow. The oil was forced directly onto to street by the sprinkler, and the road was raked so as to spread the oil in better shape. The experiment was made on an area of 30x24 feet on one street 60x30 feet on the

Dr. Brewer has estimated that it would cost about \$9 to thoroughly sprinkle the distance of one block, and that an application of three barrels of oil would do the work on the streets adjoining his property. Judge Scott, erty. too, is optimistic at the interest

They Stand Alone.

Standing out in bold relief, all along, and as a conspicuous example of open, frank and honest dealing with the sick and afflicted, are Dr. Pierce's Favorite Prescription for weak, over-worked, debilitated, nervous, "run-down," pain-racked women, and Dr. Pierce's Golden Medical Discovery, the famous remedy for weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness, all catarrhal affections whether of the stomach, bowels, kidneys, bladder, nasal passages, throat, bronchia, or other nucous passages, also as an effective remedy for all diseases arising from thin, watery or impure blood, as scrofulous and skin affections.

affections.

Each bottle of the above medicines bears upon its wrapper a badge of honcesty in the full list of ingredients composing it—printed in plain English. This frank and open publicity places these medicines in a class all by themselves, and is the best guaranty of their merits. They cannot be classed as patent nor secret medicines for they are neither—being of known composition.

Dr. Pierce feels that he can afford to take the afflicted into his full confidence and lay all the ingredients of his medicines freely before them because these ingredients are such as are endorsed and most strongly praised by scores of the most eminent medical writers as cures for the diseases for which these medicines are recommended. Therefore, the afflicted do not have to rely alone upon Dr. Pierce's recommendation as to the curative value of his medicines for certain easily recognized diseases.

A glance at the printed formula on each bottle will show that no alcohol and no harmful or habit-forming drugs enter into Dr. Pierce's medicines, they being wholly compounded of glyceric extracts of the roots of native, American forest plants. These are best and safest for the cure of most lingering, chronic diseases. Dr. R. V. Pierce can be consulted FREE, by addressing him at Buffalo, N. Y., and all communications are regarded as sacredly confidential.

It is as easy to be well as III—and much more comfortable. Constipation is the cause of many forms of illness. Dr. Pierce's Pleasant Pellets cure constipation. They are tiny, sugar-coated granules. One little "Pellet" is a gentle laxative, two a mild cathartic. All dealers in medicines sell them.
