

FOREST GROVE, WASHINGTON CO., ORE., THURSDAY, NOVEMBER 8, 1906.

NO. 25

MOTOR CARS COMING

First be Tried on Oswego Road, Later on Run from Forest Grove to Portland.

Much Larger—Engines Have Greater Speed—Expected to Be Successful.

Two new motor cars are to be sent to the East for the Oregon lines of the Harriman system. Cars of this type have already been experimented on the West Side division, but steep grade on Fourth street was much for them and improvements to be made. In the new cars, all defective parts have been removed, and a greater speed has also been developed. The new cars will not west in a short time and first on the Oswego run. If satisfactory, they will then be tried on run as the officials are eager to come the Fourth street difficulties. Regular service would then be placed in this town to the metropolis with the motor cars.

A remarkable advantage gained in the engine of the new model is that car speed is almost entirely controlled by the throttle, the same as a motive, even on grades the speed be varied from 3 to 70 miles an hour by means of throttle and spark only, or it can be started on high speed. The engine is connected to the axle, although it is preferable to use the gears putting the car in motion, but once

in motion the gears are thrown out and the speed of the car entirely controlled by the engine. This makes the operation of the car simple, and the economy in the consumption of gasoline and reduced duty on the transmission is such that the practicability of these cars for every-day heavy service is demonstrated.

The car is finished in Cuban mahogany. Ventilation is obtained from the use of air intakes and the exhaust ventilators. The car weighs 61,000 pounds, but this weight can be reduced to 55,000 pounds in subsequent cars.

GRUESOME FIND NEAR NORTH YAMHILL

Mystery of Deserted Cabin on the Road to Tillamook—Discovery Made by Dog.

A gruesome discovery was made beyond North Yamhill a few days ago by a faithful dog belonging to Pat Doney. When the stage passed the Doney ranch on Saturday evening the driver and the passengers were told of the queer relic brought to the house by the dog. It seems that the dog had unburied the wrist of a human hand somewhere and had brought the same home and was at first seen gnawing it on the front porch of the shanty. The bone was taken away from the dog, who later brought back another fragment, but this time hid under the house and the nature of the bone was not learned. As no deaths have been recorded for the past ten years at the mountain ranch or of any one reporting missing, this looks very much like a deep mystery. The Summit House, the name by which Pat's ranch is known to all, is situated on one of the loneliest spots on the road over the mountain, being nearly ten miles from any dwelling house. It has been deserted for many years and had not been occupied except at intervals, by hunters, surveyors or timber cruisers. The matter is now being investigated by Yamhill authorities.

ACADEMY OUTPLAYS PUBLIC SCHOOLS

The Public School Lads Downed By Score of 33 to 0—Pacific's Second Ties Hillsboro.

Pacific University Meets Defeat at Corvallis. Farmers too Heavy for Local College.

While the boys were at Corvallis the academy scrubs met and overwhelmingly defeated the team from the local public school.

It was a rattling good game and the cads should be complimented on the score, for it's no easy job to pile up six touchdowns in twenty-five minutes of play on a field covered with two inches of water.

The cads kicked off, and after three minutes of hard plays and successful blocks, Thomas picked up a fumbled ball on the fifteen yard line and went over the line for the first touchdown. Score 5-0. The scrubs received the kick and in a few minutes had the ball ten yards from the Public's territory. Then Silverman was sent around left end for a sensational touchdown. Ferrin, Jr., kicked goal. Score 11-0. The scrubs kicked again and it wasn't long before Gould got hold of the ball the Publics had fumbled and before anyone knew where it was he had it hidden behind the goal posts twenty yards away. Ferrin kicked another goal. The cads received the kick with the first half almost up. When they had the ball 35 yards from their goal they rushed Silverman another 75 yards for the fourth touchdown. By the time Ferrin kicked his third goal the time was up with a score 23-0.

The scrubs kicked and gained the ball on their opponents fumble only thirty yards from a touchdown. Ferrin punted for a touch back and then downed the ball in his opponents' territory. Both teams punted and young Holman rushed the ball to the ten yard line of the Publics. Then Silverman went over the line again, score 28-0. When the Public school kicked off there was only four minutes left so the scrubs punted at once and recovered the ball about the center of the field. The Public school got the ball, but the cads blocked an attempted kick, and returned the ball. Markee punted out from the twenty yard line, and Ferrin received the ball and ran it back 45 yards and over the line as the whistle blew. Final score 33-0.

Pacific Second Tie Hillsboro.

On last Saturday the Pacific University Second Team tied the Hillsboro aggregation in a scoreless game on the college campus. The game was a hard fought battle and to add to the excitement of the game the field was a wet one. The home team was weakened to a certain extent as many of the best men served as "subs" on the game at Corvallis.

P. U. excelled in team work and in passing the ball, but this was offset by the splendid punting of Freeman. At 1:30 P. U. kicked off to Hillsboro who immediately lost the ball on downs. The rest of the half was devoted to a kicking game in which Hillsboro had the best of it. The half closed with the ball in the center of the field. In the second half P. U. started out with a rush and carried the ball to Hillsboro's 20-yard line where they lost it by being too eager to handle the ball. Hillsboro kicked out of danger and this was the closest either team came to scoring. The half closed with the ball in P. U.'s territory. For P. U. Bryant, Taylor, Holmes and Hoonan played brilliant ball while Freeman and Emerson did the best work for Hillsboro. The line up:

P. U.	Position	Hillsboro
Gould	R. E. L.	Asbahr
Taylor	R. T. L.	Moore
Gardner	R. G. L.	Brown
Brown	C.	Taylor
Childs	L. G. L.	Tupper
Rheer	L. T. L.	Perkins
Miller	L. E. L.	Fitzgerald
Hoonan	Q.	Emerson
Robinson	R. H. L.	Freeman
Holmes	L. H. L.	Ford
Bryant	F.	Bennett

Officials were Weatherred, referee; Bailey and Witham, umpires; Arnston, timekeeper.

Pacific Meets Defeat.

The Pacific football warriors journeyed to Corvallis Saturday, where they met their Santiago in the afternoon in an aquatic gridiron battle with the aggies. Score 28-0, four touchdowns, four goals and a place kick.

Manager Sparks, Professors Orr, Bridwell, Cook and Coach Coons and Mr. Abraham, with utility men, Myers, Brown, C. Ward and Gwynn accompanied the team. The line up: O. A. C. Position Pacific Cherry C. Kirkwood Bennett R. T. Lawrence Barber R. G. Denny Shannon R. E. C. Ward, Aller Hanan R. H. Ward (Cap) Gagnon Q. Ferrin Wolf L. Waterman Fin L. T. Allen Pendergrass L. G. Logan Harding L. E. Abraham Cady L. H. Humphreys Umpire, Pilkington, Portland. Referee, Peterson, Forest Grove.

Notice.

Sealed bids will be received by the County Court of Washington county, Oregon, on Thursday, December 6, 1906, at 2 o'clock p. m. for the extension of the tax roll of said county for the year 1906.

The person extending said tax roll will not be required to take off the valuation of road and school districts, but will be required to have same fully completed by February 1, 1907.

Further information as to manner of making extensions and amount of labor required may be had by applying at the office of the County Clerk of said county.

The County Court reserves the right to reject any and all bids. By order of the Commissioners' Court.

J. W. GOODWIN,
County Judge.

Wonderful Alfalfa.

A fifth crop of alfalfa is a foot high on the Oregon Agricultural College farm near Corvallis. It stands thick and is fine pasturage. The four crops that have been taken off this season made a yield of 27.16 tons of green feed equivalent to nine tons of cured hay per acre. That is a yield to make an Oregon farmer's heart glad.

The tract in question comprises two acres. It was sown six years ago, and during the five seasons that it has been cropped there have been nineteen cuttings. The land is ordinary wheat land bordering on and just a trifle above the white land level. It is partly tile drained, but not all. Its history as an alfalfa producer has been extremely satisfactory. It has proven that with reasonable attention alfalfa can be grown on almost any land in the Willamette valley, especially if it is well drained. This is the belief of Dr. Withycombe who has had charge of the tract in question. The college has six acres of alfalfa in addition to the two-acre tract referred to. The probabilities are that whenever land is demonstrated to be an alfalfa producer it immediately becomes worth \$100 or more per acre, says the Times.

Notice of Sealed Bids

Sealed bids will be received by Albert Dethlefs at Seghers, Ore., post-office, for ditch 3½ feet deep, 3000 ft., more or less, in length, for a ¾ inch water pipe. Bids to be opened on Monday, November 19th at 1 p. m. The undersigned reserves the right to reject any and all bids.
(Signed) ALBERT DETHLEFS.

PIONEER IS LAID TO REST

Thomas Madison Hines, Died Friday—Crossed the Plains on Journey to Oregon in 1848.

Was Pioneer in Several States—Was Road Supervisor for Many Years—A Stanch Republican.

Thomas Madison Hines, aged nearly 83 years, an honored Oregon pioneer of 1848, died suddenly of heart trouble due to senility, Friday evening, near Dilley. He was born in Howard County, Missouri, May 1, 1819, and was of Welsh ancestry, although his people were early settlers of Virginia. From that state they removed to Kentucky, and thence to Missouri, and were pioneers in all of the states in which they lived. Deceased was the eldest of seven children and spent his boyhood and youth in Howard, Ray, Caldwell and Dekalb counties, Missouri. In 1842, November 17, in Dekalb County, he married Miss Mary Buckingham, a native of Pennsylvania, born January 1, 1819, who died at Forest Grove, December 26, 1901.

Mr. and Mrs. Hines, after a residence of six years in Missouri, crossed the Missouri River on their journey for Oregon with one son, Cicero, arriving in Yamhill County, Oregon, September 25, 1848, where they remained for the winter. Mr. Hines then took up a donation claim on a branch of the Tualatin, in Washington County, where he built the little log cabin of the pioneer and began the life of a Western farmer with a few head of cattle. In 1849 the discovery of gold took him to California, where he engaged in mining on Feather River but was taken sick and obliged to abandon mining and return to Oregon. Mr. Hines had resided at and near Forest Grove for nearly 58 years. For several years he had retired from active work, had a nice home in this place and lived on the interest of his money.

In politics he was a whig, then a Douglas democrat, but upon the outbreak of the war he was a strong Union man and joined the ranks of the Republican party. Two sons, Cicero of Gales Creek, and Dr. Charles Hines of this city, survive him. The funeral was held from the residence of his son, Dr. Charles Hines at 2 o'clock, Sunday afternoon. A large number of friends were present and especially a great many of the old pioneers of this county who had come to pay their last tribute to one who had undergone the hardships of the old pioneer days. The remains were laid to rest in the Buxton cemetery by the side of his wife who passed away a few years ago.

Died.

At Phillips, Washington county, on Friday November 2, 1906, C. W. Leich.

Mrs. Sarah Armstrong, aged 71 years, a resident of this county for several years, who died at her home at Cornelius Saturday, was buried there Monday and three children survive her.

More Hops Sold.

Two sales of hops were reported Monday, one at Greenville of 17,000 pounds and William Bagley north of Hillsboro 50,000 pounds at 14 and 15 cents, respectively. The latter price is the highest paid this year in this county, except on contracts. Pincus & Son of Tacoma were the purchasers. A large amount of contract hops are moving, but new sales are slow. The best price paid for hops this season is 20c, this amount being paid to John Salzgaber by Pincus & Son, under a contract on which \$4,000 was advanced.

Cornelius Wants University.

Cornelius is working hard since the convention of the German Lutherans in that place the first of October to induce the location of the German Lutheran university. The town will give a site for the institution free of cost. The school is said to have an endowment of \$300,000 back of it. The German Lutherans will build a church at Cornelius, and Mayor Talbot has donated the ground for the site.

Cornelius is now on a boom and would be a good location for the college as this part of the county abounds with Germans—the Germans having a large settlement one and a half miles south at Blooming and north the same distance the county is also largely settled by Germans.

Cornelius council is now taking up the matter of a city water system and a brick yard will be started there also in the near future.

Washington county is known as a great educational center, having a group of colleges, institutes and universities, besides good public schools and high schools—Pacific university at Forest Grove, the Advent college at Gaston, the St. Mary's Institute west of Beaverton, and, no doubt, the German Lutheran University at Cornelius

HILLSBORO

Since the passage of an ordinance by the city council at a recent meeting prescribing the procedure to be followed in submitting to a vote of the people an amendment to the charter, a petition has been circulated and filed with the recorder for an amendment authorizing the city to purchase a park and maintain it, and levy a special tax for that purpose. The council has in view a 16-acre tract adjoining the city on the southeast and if the amendment carries this site will be purchased and made into an attractive park for celebration purposes and outdoor recreation. Public opinion favors the purchase and maintenance of the park.

The report that all the Laurel hop-growers had sold their hops at 15 cents is unfounded. A buyer has bought 131 bales at 15 cents, but the Hathorn crop, mentioned as sold, is still in the hands of the grower. There are yet 420 bales of the choicest hops in the Laurel section unsold.

Light Docket Awaits Fall Term of Court

The regular fall term of the circuit court will convene in Hillsboro on Monday, November 26, with a light docket. There are a few civil cases for trial, but no criminal cases of importance unless something should materialize in the Snyder murder case.

Among the criminal cases for trial is the one against Charles Biggs of Sherwood charged with assaulting John Roberts with a knife. Roberts' life was despaired of for some time.

Card of Thanks.

We wish to extend our gratitude and sincere thanks to the friends who so kindly attended and assisted at the funeral of our father, Thos. M. Hines.
CICERO HINES,
CHAS. HINES.

Dark Days are Coming

You will need to have your eyes in perfect condition. CALL at our STORE and have them examined by an Expert Optician who has had six years of practical experience. He gives careful attention to each case and gives lenses SPECIALLY GROUND to meet your requirements. We can supply you with any style of glasses, from wire frame to solid gold or the more elegant

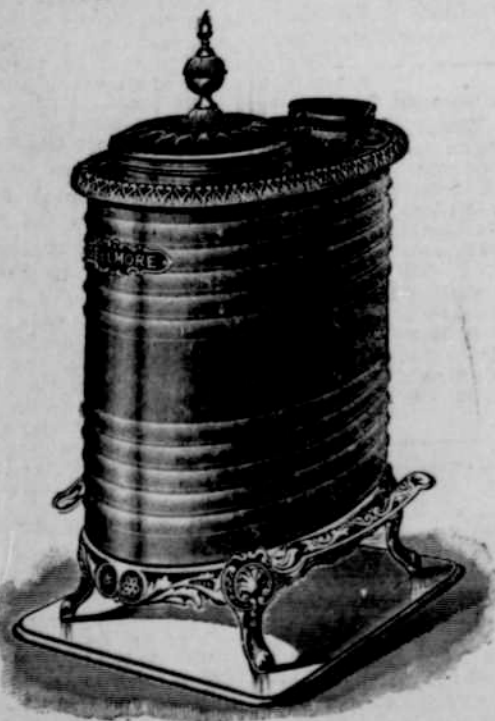

Rimless Glasses

Abbott & Son
Jewelers

Our Line of Ranges

Consisting of the
**Great Malleable,
The Beach & Bridge**
Complete Line, also others
cheaper in price. We can satisfy you. Our line of HEATERS is the largest we ever carried.

We can fit you out in a real good
STOVE
or a good cheap stove. We sell
