# **CONTAGIOUS BLOOD POISON** HUMILIATING-VILE-DESTRUCTIVE

The very name, Contagious Blood Poison, suggests contamination and dread. It is the worst disease the world has ever known; responsible for more unhappiness and sorrow than all others combined. Nobody knows anything about the origin of this loathsome trouble, but as far back as history goes it has been regarded the greatest curse of mankind.

No part of the body is beyond the reach of this powerful poison. No matter how pure the blood may be, when the virus of Contagious Blood Poison enters, the entire circulation becomes corrupted, the humiliating symptoms begin to appear, and the sufferer finds himself diseased from head to foot with the vilest and most destructive of all poisons. Usually the first symptom is a small sore or ulcer, so insignificant that it rarely ever excites

suspicion, but in a short while the skin breaks out in a red rash, the glands of the groin swell, the throat and mouth ulcerate, the hair and eye-brows come out, and often the body is covered with copper-colored spots, pustular eruptions and sores.

There is hardly any limit to the ravages of Contagious Blood Poison; if it is not driven from the blood it affects the nerves, attacks the bones, and in extreme cases causes tumors to form on the brain, producing insanity and death. No other disease is so highly contagious; many an innocent person has become infected by using the same toilet articles, handling the clothing, by a friendly handshake or the kiss of affection

Dear Sirs:—I had a friend who had a bad case of **Con**-tagious Blood Poison and was in a terrible condition. He tried all the medicines he could hear of, but nothing did him any good. He went to Hot Springs but it was like the other treatments he had used, and he was in despair of a cure when he heard of S.S.S. After taking it for awhile the sores all healed, his hair stopped failing out, and, continuing with it, he soon found himself cured en-tirely of this hideous disease. JOHN LESLIE, 719 W. State St. Rockford, Ill.

I was afflicted with Blood Poison, and the best doctors did me no good, though I took their treatment faithtors did me no good, though I took their treatment faith-fully. In fact I seemed to get worse all the while. I took almost every so-called blood remedy, but they did not seem to reach the disease, and had no effect whatever. I was disheartened, for it seemed that I would never be cured. At the advice of a friend I then took S. S. S. and began to improve. I continued the medicine, and it cured me completely. W. R. NEWMAN. Hamlet, N. C.

from one afflicted. But no matter how the disease is contracted, the sufferer feels the humiliation and degradation that accompany the vile disorder.

Mercury and Potash are commonly used in the treatment of Contagious Blood Poison, but these minerals cannot cure the disease-they merely mask it in the system. All external evidences may disappear for awhile, but the treacherous poison is at work on the internal members and tissues, and when these minerals are left off the disease returns worse than before, because the entire system has been weakened and damaged by the strong action of the Mercury and Potash. There is but one certain, reliable cure for Contagious Blood Poison, and that is S. S. S., the great vegetable blood purifier. It attacks the disease in the right way by going down into the blood, neutralizing and forcing out every particle of the poison. It makes the blood pure and rich, strengthens the different parts of the body, tones up the system, and cures this humiliating and destructive disorder permanently.

The improvement commences as soon as the patient gets under the influence of S. S. S. and continues until every vestige of the poison is driven from the blood and the sufferer

is completely restored to health. S. S. S. is not an experiment; it is a success. It has cured thousands of cases of Contagious Blood Poison, many of which had given the Mercury and Potash treatment, Hot Springs, etc., a thorough trial, and had almost despaired of ever being well again. S. S. S. is made entirely of roots, herbs and barks, and does not injure the system in the least. We offer a

THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

reward of \$1,000 for proof that it contains a particle of mineral of any kind. If you are suffering with this despicable and debasing disease, get it out of your blood with S. S. S. before it does further damage. We will gladly send our book with instructions for selftreatment and any medical advice, without charge, to all who write.

### As the Boy Views It.

"My son," said the strict mother at the end of a moral lecture, "I want you to be exceedingly careful about your conduct. Never, under any circumstances, do anything which you would be ashamed to have the whole world see you do."

The small boy turned a handspring with a whoop of delight. "What in the world is the matter with you? Are you crazy?" demanded

the mother. "No'm," was the answer. "I'm jes' so glad that you don't spec me to take no baths never any more."

### Will Helps Sailors.

A will of the late Lord Iverclyde, chairman of the Cunard Company, dated March 20, 1901, and believer to be his last, left all his property to the widow. But a later will, dated Nov. 9, 1902, has been found in a handbag in his London office, by which \$1,500,000 is left to seamen's charities in Glas-Bough to pay my salary this tion was Isaac Marsden, 53 years old, gow, Liverpool, Manchester, Belfast, New York and Boston.

Don't have a falling out with your hair. It might leave you! Then what? That would mean thin, scraggly, uneven, rough hair. Keep your hair at home! Fasten it tightly to your scalp! You can easily do it with Ayer's Hair Vigor. It is something more than a simple hair dressing. It is a hair medicine, a hair tonic, a hair food.

#### "Without."

The German girl who presided over the soda fountain in Heckelmeyer's drug store was accustomed to patrons who did not know their own minds, and her habit of thought was difficult to change.

"I'd like a glass of plain soda," said a stout man, entering one day in evident haste as well as thirst.

"You have vanilla, or you have lemon?" tranquilly inquired the young woman.

"I want plain soda-without sirup. Didn't you understand me?" asked the stout man, testily.

"Yas," and the placid German face did not change in expression or color. "But wat kind of sirup you want him mitout? Mitout vanilla, or mitout lemon?"
