There is hardly a vacant house in Forest Grove. Of course many people have pulled down their blinds and locked their homes for a vacation this summer and intend to return in the fall. Goff, who reside in the Hillside district have purchased a fine registered Holstein bull from the Pierce Land & Stock Co., of Stockton, Cal., and had the animal shipped here last Saturday. They propose to breed for fine stock and already they have a herd of Holsteins. Mr. Ed Goff stated that he had a cow that gave 50 pounds of milk every day during the past winter and according to prices paid here for milk it is easily seen that dairymen in Washington county is a paying business.

Easily Made Novelties.

Pretty and inexpensive furnishings for the summer home, such as sofa pillows, laundry bags, table covers, round or oblong, may be made of ordinary white crash and odd bits of cretonne that are left from furniture coverings.

The edge of the crash is cut into big scallops, which are tinted halfway up in soft shades of pink, blue, green and orange and bound in bias bands of black linen or satene.

Over the surface of the crash are round medallions of flowered cretonne edged with the black bands and connected by large scrolls outlined in heavy black twisted floss. The bands may be stitched on by machine or can be held with featherstitching in the predominating tint of the cretonne.

Sash Modish.

The sash is literally a binding necessity this year. It is a sash season, and the sash is as likely to be tied to the front or side as at the back, for it is to be put where the design of the gown calls for it.

It is now a new fad to make this accessory of silk instead of ribbon, although this is not saying that the lovely sash ribbons brought in for such purposes in a great range of styles and colors will not be used. Jaunty little silk boleros to match the sashes will be largely worn with lingerie gowns.
