STATE ACTIVITY NOTES.

The top-notchers are becoming better acquainted with Oregon's resources and necessities. The Hon. Oscar C. Straus, Secretary of Commerce and Labor, was given an informal reception at the Commercial Club Saturday night, and as is now well known, was immediately preceded by Secretary Garfield and Vice-President Fairbanks, and your correspondent has yet in store news to announce of the most interesting visit of them all.

During this dog-day period, when the atmosphere is laden with a spirit of resistance to corporation oppression, don't let the fellow who never contributes a dollar towards the advertising and advancement of his community be excused from making such contribution because he can talk louder and oftener than the busy man and good citizen who believes that a "square deal" includes "himself and that he should do his duty towards his fellow citizens—if "broke" or too stingy to make giving a pleasure, he can do his section some good by writing a few letters to relatives, acquaintances and friends in the East, telling them of the low rates to, and the glorious opportunities presented by Oregon.

During the past three weeks the travel into Oregon from the East has been as large as at any time during the Lewis and Clark Exposition, and many of the visitors are becoming familiar with the opportunities afforded by the State, a large number of tourists having made stops at five or six points in different parts of the State.

Mr. Kruttschnitt, Director of Maintenance and Operation of the entire Harriman System, General Manager J. P. O'Brien and Chief Engineer Boschke, of the O. R. & N. Co., and the officials of the Corvallis & Eastern, left the latter part of the week for an

automobile trip through Central Oregon. Let us hope they have with them a pole long enough to get the persimmon,—its long hanging a long time.

If the people of Oregon fail to take advantage of the colonist rates beginning September 1st and continuing until October 31st, it will not be the fault of the newspapers, for both in news, editorial and local columns the press of the State has kept the facts before its readers. Remember this is the one-way rate, the tickets are only to Oregon and not round-trip, and good for any point in the State, but the ticket must read to your station when it is purchased of the agent back in the other States.

Dilley is Prosperous but Needs a Hotel.

Dilley is prosperous and on the grow. Many new families have moved in and they all speak of the place as "the best I have ever lived in" no matter whether they came from Maine, Illinois, Ohio, Iowa, Kansas, Nebraska, or the much spoken of sunny California. Dilley has two general merchandise stores and a blacksmith shop and they are doing a fine business.

What they lack, however, is a hotel. And they need one bad. Formerly Mrs. Wolf ran a hostelry there and did a good business but she moved to Cornelius. Now when a person stops in Dilley he has to purchase sardines and stuff from the store and eat a cold lunch when the place is plenty big enough for a paying hotel if it is run upon the right kind of a basis.

Here is a chance for someone to do Dilley a service and make some money himself.

The people of Dilley are sociable and hospitable. They have good schools and a couple of churches, the Methodist and Free Methodist. The town is fortunate in having the depot right in the city instead of being built a mile or so away. And a beautiful vista of the country is had from the town.

After Better Stock.

Ed and B. B. Goff of Hillside, who last week received a registered Holstein bull, are going into the dairying business right as will be seen by the following letter to The News. "The bull, Don Carlos, of Riverside, Cal., bred by the Pierce Land Stock Co., owners of the best stock in California. This bull is from some of the best blood in their herd, his pedigree traces him back to cows that gave as high as 26 lbs. of butter fat in seven days. His ancestors on both sides had an average test of over 4-5 per cent butter fat, which is high for a Holstein. I have four registered Holsteins. One of them gave an average of 50 lbs of milk all winter and is now running better than 30 lbs a day. Her best day was 60 lbs. Her milk for one month at the Condenser brought \$21.75. We intend to raise more good stock. One good cow is worth ten poor ones as I've found to my satisfaction—and the Holstein takes the cake."

Mrs. M. McLeod, who lived in Dilley for several years with her family but who now resides in Portland, is out to her Dilley farm where she is taking a vacation and canning fruits for the winter. Mrs. Charles La Chapelle and Miss Minnie McLeod are out from Portland also.

AT CLOSE OF THE GREAT REBELLION

N. J. Walker Received Letter in January 1866 from Cousin

IN SERVICE 42 LONG MONTHS

Relates Many Fights and Reports Times are Good—Railroad Talk all Wind

Our good friend, Mr. N. J. Walker, the other day handed us a letter to read which was from his cousin who resided in Illinois, and who had just come out of the Army of the North. The letter was received while Mr. Walker was a resident of Douglas county, this state, and with but few exceptions, is as follows:

Mulberry Grove, Ill., Jan. 29, 1866.
"Dear Cousin:—We received yours today addressed to father. We were quite glad to hear from you and glad to know you were still alive and in a land where freedom and liberty is the battle cry of freedom. Ike was in the service for over four years and through several very hard fights and with Sherman on his celebrated campaign through the Carolinas. Emory was out nearly one year but was in no fights. I was out 42 months. I served part of the time as first sergeant and the remainder of the time as first lieutenant. I had a very good time after my promotion. I was in the following fights: Siege and capture of Vicksburg, fight at Boza Lost, Sabine Cross Roads, Pleasant Hill, Crave River, Marksville, Yellow Boza, two fights at Chafulia river, all in Louisiana; siege and capture of Spanish Fort, charge on Fort Blakeley, capture of Mobile, Charge at Whistler, Alabama. Whistler was my last fight, that being April 18, 1865. I was at Port Gibson, Royman Jackson, Champion Hill, Big Black River, Mississippi; then again at the siege and capture of Jackson in July '63. But in all my fights I never had the misfortune of seeing our army whipped but once, and that was at Sabine Cross Roads, La., under old Banks. I did not spill much blood but got some holes put through my clothing and got the hair cut on the back of my head once. So you see I was very lucky in all my trials and fights. Nearly all the connection here were in the army.

Well, "Jack" (Mr. Walker's nickname) you wanted to know how times were here. I think times are pretty good. Work per month is from \$30 to \$40, horses from \$125 to \$200, milch cows from \$40 to \$75, sheep from \$2.50 to \$8.00 per head, pork from 8c to 10c per lb. Cattle are high. Land here is worth from \$30 to \$50 per acre, wheat \$1.75 per bushel, corn 30c per bushel.

There is some talk of a railroad running through here soon but I fear that is all talk.

Jim Blundell was in the rebel army all the time and got a bullet put through him but did not get killed.

Your cousin
SAMUEL G. ENLOE.

An Auto Road to Tillamook.

The proposition to build and maintain an automobile road between Portland and Tillamook, which the Chamber of Commerce has been promoting during the past few weeks is likely to be undertaken in the near future. The Portland Automobile Club is working toward that end and three individual owners of automobiles have agreed to subscribe \$500 each providing the present plans are carried out. The people of Tillamook are also deeply interested in the undertaking and it is understood a considerable amount of money is available there for the purpose of improving the highways which will form a part of the road.

Two routes are proposed, one by way of the Wilson River and the other by way of Dolph and Sheridan.—Oregonian.

—Dr. C. L. Large reports a daughter weighing 8 1/2 pounds, born to the wife of Harry Whitney in South Park, last Saturday. Parties desiring the attendance of Dr. Large in this class of cases, will greatly oblige him, if convenient, by engaging his services two or three months prior to the expected event.
